

*"You thought Tampon Timmy was bad? Hold my beer..."*

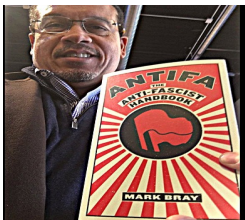

Senator Amy Klobuchar got elected because of the last name of her father, Jim, a MN journalist who would not recognize what "journalism" has become.

Amy had Biden's ear (literally) and had no problem with the thousands of illegal Somalians dropped in Minnesota.

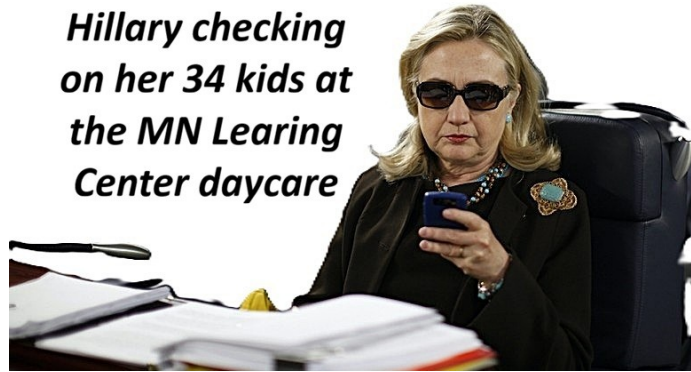

MN AG Ellison of Antifa fame is also one of Amy's BFF. She's in this crowd of anti-police nuts and probably wishes she was further back in the crowd away from the camera.

Here's another "in your face" selfie from Ellison. Betcha they take his camera away for the midterms.

### The Frank Report

## Hillary checking on her 34 kids at the MN Learning Center daycare

1.10.2026 #522

### All the news I see fit to print. Freedom of the press belongs to those who own one.

Don't know whether to smile or groan? Minneapolis Craigslist post in search of child actors for daycare site where funding was "cruelly ripped away without cause. To help hurry this state vetting process, we are looking to hire 20 child actors for 3 days while state is present on site." \$1,500/day

I checked...it was an actually post on Craigslist.

### But wait! There's more!

Minnesota's paid family and medical leave (PFML) program starts this month. Eligible workers will be able to take 20 weeks paid leave each year for family or medical reasons, funded by a new payroll tax rather than private insurance.

I'm guessing Democrats had this one in the queue after the other frauds were spotted. Watch for fake companies, fake employees, minimal contributions followed by large benefit claims and multiple people claiming paid leave to care for the same relative without any realistic oversight. Because claims are tied to private homes rather than centralized locations, fraud detection in this new program is impossible.

In 1913, American families paid no income tax. In 2025, every family paid income tax, and about 2/3rds of it just covered fraud. We have become a tax-farm for politicians to enrich themselves and anyone who they can import to vote for them. Minnesota has the spotlight right now with Gov Tim Walz on the chopping block. Democrats are considering Senator Klobuchar running for Governor and then appointing Timmy as Senator as she would be elected Governor with two years left on her Senate seat...and the MN Governor gets to appoint a vacant Senator seat. They would both wind up with a double dip on pensions at state and federal levels.

All the Lame Stream Media attention on MN may be on purpose as their presidential candidate, CA Gavin Newscom, now has eight separate agencies officially designated as "high risk for waste, fraud, abuse, or mismanagement" in California. Roughly \$76 billion in fraud, improper payments and mismanagement was discovered by the auditor.

First introduced in 1893. the MN flag was changed twice to include a farmer and an Indian on horseback.

The latest change to the MN flaf was in 2024 when Democrats wanted to reflect the "new" state makeup. Note the star at left.

This is the flag of Somalia. Note the pathetic lack of spikes on the star. This was a subtle but telling hint that MN was about to become a second homeland for them.

The MN Somalian contingent soon contemplated a more realistic symbol for their new MN flag and added a familiar and appropriate MN symbol.

Mission accomplished?

Minnesota processed 281,000 "Online" voter registration forms. The online voter registration form has no proof of citizenship requirement. Kamala won by 137,000 votes. MN Attorney General Keith Ellison admits the Somalians were imported to vote Democrat. He says they even go out to ballot harvest for Democrats and the Somalians are used in multiple states to swing elections for Democrats.

Everyone thinks they know why Venezuela was raided and Madura arrested. There's an undertone about the 2020 election and how the machines used to fix the election were centered and controlled in Venezuela. That's what has Democrats nervous...not to mention the drug money that may have found their way to politicians. Trump does NOT like to lose. I'm guessing he approved the raid to get his hands on the proof about the 2020 election. The "tell" for the Democrats is a 92-Year-Old Clinton Judge Who Denied Trump's Hush-Money Removal to Federal Court and Blocked Venezuelan Gang Deportations Now Assigned to Preside Over Maduro Case in New York. That might be the way they block anything damaging to them.

That picture of Biden biting that kid...his Mom should sue Biden for the trauma the kid experienced because of the mandated rabies shot. Then enroll him in that cop's daycare and sue him for charging her since he already got her tax money.
