

The Frank Report

Six major fires (so far) in Los Angeles and Ventura counties, over 30,000 acres, all at 0 percent containment. Hollywood TV Production Shut Down as Wildfires Rage

Here is what they were doing prior to the fires:

LA Mayor cut firefighting budget \$17 million.

Hundreds of firefighters fired for COVID refusal.

Water diverted and dumped in ocean to protect small fish so fire hydrants empty.

Female bureaucrat responsible for hydrants has \$750K annual salary.

Over 300 hydrants stolen, few replaced.

Fire insurance regulations rejected by insurance companies so coverage cancelled and they leave.

First female LA fire chief prioritizes diversity with no white male to be hired for seven years.

Fire fighting gear collected and sent to Ukraine.

Mismanage of the forests: no diversity of species, 163 million dead and dying trees not removed.

FEMA help on the way?

**All the news I see fit to print.
Freedom of the press belongs to those who own one.**

Ages of some Founding Fathers in 1776:

James Monroe, 18 Aaron Burr, 20
John Marshall, 20 Alexander Hamilton, 21
James Madison, 25 John Jay, 30
and the author of our Constitution:
Thomas Jefferson, 33

Then there is the **13th amendment** that abolished slavery passed with 100% Republican support but only 23% Democrat support. The **14th amendment** gave citizenship to freed slaves and passed with 94% Republican support and 0% Democrat support. The **15th amendment** gave right to vote to all and passed with 100% Republican support and 0% Democrat support. To be fair, Democrats did pass **Obamacare** with 86% support and 0% Republican support.

“José Andrés is a renowned Spanish-American culinary innovator who popularized tapas in the United States.”

Tapas are so popular I had to look them up and I still don't know what the hell they are.

Remember those exploding Israeli pagers?

Maybe those Freedom Medals will work just as well.

CEO Mark Zuckerberg announced a series of major changes to the company's moderation policies and practices, citing a shifting political and social landscape and a desire to embrace free speech.

Zuckerberg said Meta will end its fact-checking program with its trusted partners and replace it with a community-driven system similar to X's Community Notes.

The company has also announced a move from California to Texas.

There has been no word if the Harris/Walz yard signs have been taken down at his headquarters.

Somewhere Elon Musk is grinning.

Donald Trump Jr. landed in Greenland to begin discussions of buying that country. His dad was not kidding. He's going to make America bigger as well as great.

Trump also points out the US supports Canada with \$200 Billion annually with the conclusion that Canada might as well be one of our states. The Panama Canal will be the trifecta?

This guy looks like he's posing for the camera. He reminds me of the B list actors who play corrupt priests. That might be not too far off as this is the newly appointed Catholic archbishop of Washington, DC. This is the guy who said that President Trump's plans for deporting illegal immigrants is "incompatible with Catholic doctrine." *He should get together with his Muslim brothers in Iran and come up with a better plan?*

Pope Francis's decision to move this liberal bishop to the nation's capital surprised even progressive observers, but not me. It seems the way to claim relevance is to have the Lame Stream Media position you against anything Trump. Otherwise, no one would give them any F's.

The dissident "Catholic" LGBTQ+ advocacy group New Ways Ministry offered a glowing appraisal of the pope's decision to place McElroy in the nation's capital, saying it is thrilled with the appointment of such a well-known gay-rights advocate. *Well known to whom?*

CNN's Acosta:

Gee, you mean like your
audience rejected you?***

I wonder if this nut will be at the WH briefing room.

Fani Willis, the corrupt DA who was after Trump got hit with another lawsuit...she has to pay \$22K for ignoring the search for records she claimed did not exist... but they did.

I'm suggesting there's going to be a whole lot of this kind of back tracking going on in the next few weeks. Lots of targets of opportunity out there.

Tidbits

(a small and particularly interesting item of gossip or information)

After six years in office and over a billion dollars lost to fraud, Gov. Tim Walz announced a new anti-fraud initiative Friday, raising questions about why it took so long for the governor to act.

Trump's certification was the first time that not one Congressional Democrat objected to the victory of a Republican presidential candidate since 1988.

Self-proclaimed Catholic Joe Biden Honors Radical Abortion Activist Eleanor Smeal With Presidential Citizens Medal.

Teachers in New Jersey are no longer required to pass a basic reading, writing, and mathematics test to be eligible for jobs in public schools. *Bet that will help raise their scores!*

Donald Trump Jr. visited Greenland as President-elect Donald Trump is considering acquiring the Arctic land mass for the United States.

185 H1B Apple employees, Telegu (Indian), were fired due to their involvement in a scam related to Apple's matching grants program.

Biden has quietly shipped 11 prisoners linked to al Qaeda and Osama Bin Laden to Oman from Guantanamo Bay.

Until next week...
