**DiL Brenda found this set.  
Here's the recipe:**

1 cup butter, softened  
 1/2 cup sugar  
 1/2 cup firmly packed brown sugar  
 1 large egg  
 1 teaspoon rum flavor  
 2 1/2 cups all-purpose flour

Heat oven to 350°F.

Combine all ingredients except flour in bowl. Beat at medium speed, scraping bowl often, until well mixed. Add flour; beat at low speed until well mixed. If dough is too soft, cover; refrigerate at least 2 hours until firm.

Press 2 to 3 teaspoons dough evenly into each 3-inch sandbakkel mold. Place molds onto cookie sheets. Bake 8-11 minutes or until lightly browned. Cool 3 minutes.

Remove cookies from molds by tapping on table or loosening with knife. Cookies can be served plain or filled with fresh fruit, fruit filling, pudding or whipped cream.

**A bit of blueberry preserves on a warm cookie...only thing missing is the whipped cream.**

## THE FRANK REPORT

1.12.2019

*All the news I see fit to print.  
Freedom of the press belongs to those who own one.*

Pelosi wants ten years of Trump's tax returns...

...since she claims to be the "president's equal"....

...let's do exactly the same thing for the Speaker of the House. Let's see ten years of tax returns from Paul and Nancy Pelosi. He is a big time real estate developer in San Francisco. It is almost impossible for there NOT to be extremely low effective tax rates, special write-offs, credits and subsidies...not to mention ugly political special deals and finagling. Hey! Exactly like Trump!

Paul Pelosi owns a \$17 million investment in H. J. Heinz's company, which in turn owns ~75% of Del Monte Corp's stock. Del Monte is the parent company of Star-Kist. Star-Kist Tuna owns one of the two packing plants on American Samoa. Combined both plants employ over 60% of the population paying less than \$3.75 a hour in wages.

The House pushed through an increase in the minimum wage to \$7.25, by a vote of 315-116. But, lo, included as part of this boon to the working man was a loophole: the new, higher wage floor applied to all of these United States and its territories – except for the Pacific outpost of American Samoa.

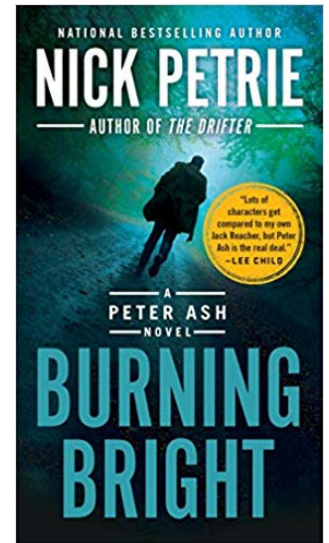

**But, wait...there's more...@ whatfinger.com...**

Star-Kist is in the middle of the largest fine for price fixing and their corporate headquarters are in San Francisco. Betcha that all goes away.

And then there's Mad Maxine and United Bank...and Diane Feinstein and...well, maybe you should do the research before you vote for another Democrat?

## Book Report

The 2nd in the **Peter Ash** series. Lee Child (**Jack Reacher** author) likes him!

Third **Peter Ash** novel and everything (*and then some*) you wanted to know about the cannabis industry. Story centered in Colorado

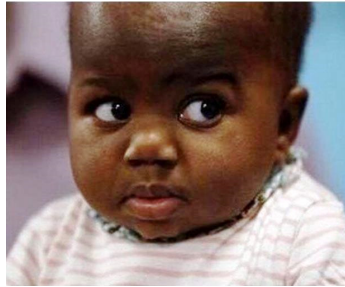

**-more-**

Granddaughter Jenna (*Bryant University, near Boston*) is touring Malaysia during a two week trip; shown here with a native she named Theodore (*inside joke*).

Sam's Club is also switching to self-checkout. Excuse me, but if I wanted to do this I could stay home and use my computer with Amazon. I'm "sure" every one is honest and scans everything. They will lose what money they save (not hiring cashiers)...to shoplifting. Someone out there is working on fake bar codes for the more expensive merchandise. You heard it here first. Also watch teams come in with coupons scanned on every machine.

Some of you may have seen the Fauxcahontas kitchen video where she drank a beer to convince us she was one of us. But...how many of you noticed the "art" on top of her kitchen cabinets? Yep...didn't think so.

**BTW: Donald Trump just sold RICE to China. First. Time. Ever. CNN is tracking down Uncle Ben for comment.**
