

Republicans successfully stripped a blatant \$1 million earmark by Rep. Ilhan Omar from a federal spending package after it was exposed as directing funds to Generation Hope MN, a Somali-led addiction recovery organization operating above a Minneapolis Somali restaurant. Maybe they should review past legislation and figure out how she somehow accumulated \$30 million net worth in just four years.

My congress critter, Rep. Angie Craig (D-MN), would shut the government down over limiting ICE power saying that *"all options have to be on the table,"* and she'll look to party leadership *"just like we did when we made sure that the American people knew that the affordability crisis is on — especially related to healthcare — is on the backs of this Republican Party."* **In other words...she wants the Republicans to fix what they broke? Good Luck with your Senate race Angie.**

All the news I see fit to print.

Freedom of the press belongs to those who own one.

Minnesota has become the Democrat's choice of location to test their control of the narrative. Their first experiment involved a felon who was arrested for counterfeiting and taken into custody. He died of a self-inflicted overdose and Democrats blamed police, who arrested him, for his death.

What followed was an orgasm of exuberance at having pulled off this stunt. The felon, George Floyd, was declared a saint and celebrations began in the form of riots that, in Minneapolis alone, resulted in over \$500 million in property damage as 1,025 buildings were damaged, 53 destroyed and 140 rendered uninhabitable. They almost set a record but it was only the second-costliest in U.S. history, surpassed only by the 1992 Los Angeles riots. Apparently, they are now going for the record, this time with a white female "victim".

Renee Nicole Good was a Soros funded paid protestor leading a caravan of cars obstructing ICE operations. She took it to an extreme when she tried to run her car over an ICE agent who responded with bullets. They now blame the agent for her death rather than her stupidity.

They almost got away with it until the agent's bodycam (which Democrats **demand** police wear) revealed what actually happened. The Democrat narrative was run over by the truth. Maybe we should nickname those cameras petards? Then the questions Democrats were trying to avoid began. What were the ICE agents doing? Arresting illegal aliens, several of whom were involved in the massive Somalian fraud being uncovered in MN. Then the fraud led to money laundering and ballot harvesting. The Lame Stream Media is outnumbered on the internet and the answers aren't looking good for Democrats nationwide.

Remember Nick Sandman?

Nick was in High School when a fake Indian demonstrator got in his face but got nothing but a smile in return. The Lame Stream Media said RACIST! His parents filed multiple defamation lawsuits totaling over \$1.25 billion against CNN, NBC, The Washington Post and others with CNN settling for \$275 million. The Minneapolis ICE agent forced to kill a woman in an obvious act of self-defense can file a defamation suit against every media outlet that allowed itself to be used as a platform for the Democrat narrative to label him a murderer, as well as every Democrat and activist who defamed him just as President Trump successfully sued several fake media outlets for defamation. That would take FAFO to a whole new level.

Democrats have been using Soros elected AG's for lawsuits to block Trump. Here is a partial list of fallout from the MN fraud and waste investigations:

Democrat controlled states:

- Four are suing Trump to keep sending money to those Similia daycare centers
- 19 are suing Trump to allow sex change operations for kids
- 22 are suing Trump to hide voter registration data
- 21 are suing Trump for welfare benefits for illegal aliens
- MN Dems have intimidated the MN GOP for decades. Trump's team has arrived. When the smoke clears, there may not be a Democrat left...except in federal custody.

The Trump administration will withdraw from **66 international organizations**, including the U.N.'s population agency and the U.N. treaty that establishes international climate negotiations. *"The Trump Administration has found these institutions to be redundant in their scope, mismanaged, unnecessary, wasteful, poorly run, captured by the interests of actors advancing their own agendas contrary to our own, or a threat to our nation's sovereignty, freedoms, and general prosperity."*

OK...good. Now do Congress.

MN Lieutenant Governor Peggy Flanagan told constituents to "put their bodies on the line" to protect illegals from being "kidnapped" by ICE, a few weeks before a woman who did just that was shot while trying to ram an ICE agent in Minneapolis.

First Somali police officer was in MPLS. He shot and killed a white woman and went to jail. Minneapolis police officer Mohamed Noor, a Somali American, was sentenced to prison for the 2017 fatal shooting of Justine Damond, a white woman who had called 911.

In several states and hundreds of local school districts, traditional teacher salary structures based on years of service are being replaced by merit and pay-for-performance models. *Careful with this...could spark strikes and riots by teachers unions.*

About those rogue judges:

In the past 44 years spanning seven presidents, there was a total of 78 nationwide court injunctions. In just the five years of Donald Trump as President, the total is 96...and counting.

Thomas Paine published his *Common Sense* article in 1776. The government's supply has since run out. Today "common sense" is generally considered hate speech by the Lame Stream Media because they hate it when facts get in the way of their "reporting". I wish they would at least report what actually happened rather than what they "think" will happen.
