### *S\*\*t on a Shingle (SOS)*

For my grandson Shane and all the veterans out there: you'll remember this one.

#### **Ingredients**

- ½ pound ground beef
- 1-tablespoon bacon fat (lard/Crisco or butter)
- 3 tablespoons flour
- 2 cups whole milk (*add more milk if you want it thinner*)
- 8 slices of dry toast

#### **Directions**

Using a large skillet (12-14 inches), crumble and brown the ground beef with fat and salt. Remove the pan from the heat and let cool slightly. Mix in the flour until all of the meat is covered, using all of the flour. Replace the skillet on the heat and stir in the milk. Keep stirring until the mixture comes to a boil and thickens (*boil a minimum of one minute*). Serve over the toast. Salt and pepper to taste. LOTS of pepper.

“Fondly” remember this stuff for breakfast at Naval School of Pre-Flight in Pensacola. Served just before the mile swim each morning. You know where most of it wound up. Guess that’s why they have gutters in pools?

Bon Appetite!

### **News you didn't hear: (1st TWO DAYS!)**

Joe and Jill Biden arrived at the White House after the inauguration (*insertion?*) and found the doors locked and nobody to answer their knocking. Apparently, they fired the butler and didn't replace him.

Biden's executive order that halted construction on the Keystone XL pipeline led to the immediate layoffs of an estimated 10,000 union jobs and 40-60,000 auxiliary jobs. Ninety million in fees also eliminated for the poorest areas of Montana and Native Americans in the area.

ICE agents instructed to free all detainees in their custody, as Biden's administration halts deportations

Biden removes any legal recognition of the two sexes and eliminates protections for women in the federal government.

Biden offers five-year extension of New START (Strategic Arms Reduction Treaty) to Russia. Putin had proposed a one year extension...will not include China.

**More:** killed 70,000+ jobs...eliminated women's sports...invaded Syria...left the National Guard to freeze in a garage...admitted he doesn't have a plan to fight COVID...broke his own mask mandate EO...ended US energy independence...and Reversed Policy of Lowering Insulin and EpiPen Costs

### ***Biden signed 37 executive orders his first week...a new record!***

#### **Meanwhile:**

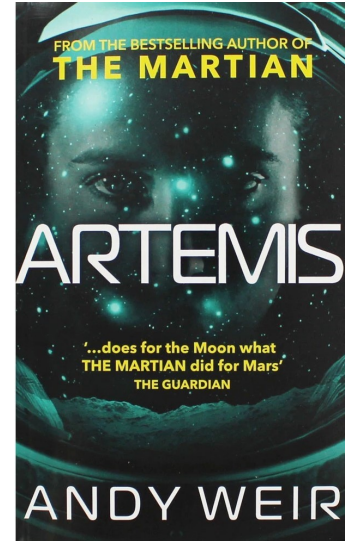

**81 court cases filed based on the 2020 election fraud**  
**In 45 cases President Trump was the plaintiff**  
**In 34 cases President Trump is not the plaintiff**  
**In 2 cases President Trump is the defendant**  
**In 72 cases illegal voting is alleged**  
**In ZERO of the 72 cases where illegal voting is alleged has evidence been allowed to be presented**

**30 cases remain active**

*Just saying.*

## Book Report

This one reminds me of Janet Evanovich (**Stephanie Plum** character) writing sci-fi and you'd get what Andy Weir did with this one.

Hilarious first person dialogue. You may recognize his name as the author of the book (*and movie*) **The Martian**. First found him about ten years ago with a very short story called **The Egg**. I've included a copy as an additional attachment. Andy obviously has some background in philosophy.

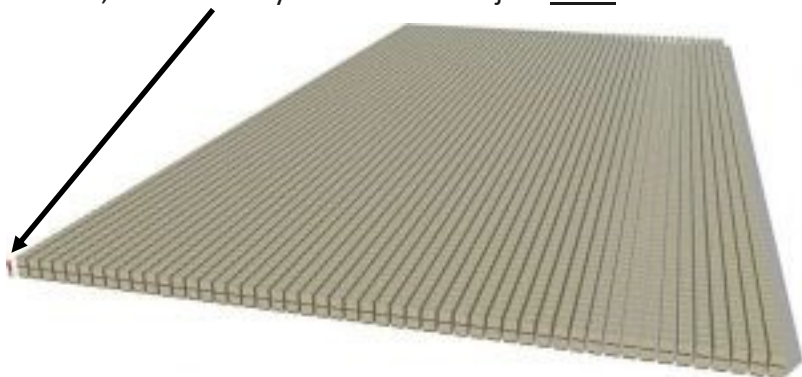

Watched again...still scary as hell. Based on a true story.

**-more-**

Imagine stacks of hundred dollar bills on pallets. You can see how large that is with the guy standing at the left...showing **ONE BILLION.**

Now imagine just one trillion in hundred dollar bills on pallets...with that same guy at the same corner. If you look close, he's that tiny dot. And that's just **ONE TRILLION.**

Here's what the current national debt looks like using those **100 dollar bills:**

***Our Congress Critters plan on reducing the size of the national debt by reducing the size of the \$100 bill? (Please do not give them that idea and for our grandkids sake...don't tell them what comes after Trillion)!***

## Mal Mots

***Did you know that Joe Biden says he invented a new word? It's "Plagiarism". You're welcome***

Grandson Shane home for Christmas after boot camp and now at his first duty station: 29 Palms CA where he will be going to school to become a data systems administrator. He already qualified as an expert rifleman so those computers better behave?

Watched one of the press briefings. Gag reflex kicked in.
