BTW: kids once asked why we don't pray before a meal. I told them it's because I know how to cook.

Well, that just about destroys 16 years of Catholic education. Do remember the mandatory marriage course; I was married and pointed out in a losing argument with the priest that I had more experience than he...got a D. Maybe Alzheimer's will save me?

THE FRANK REPORT

1.5.2019

*All the news I see fit to print.
Freedom of the press belongs to those who own one.*

Found the following comments on whatfinger.com:

The Obama administration's Justice Department launched more leak investigations under the World War I-era Espionage Act than any other administration in history, according to then-New York Times reporter James Risen, writing in a December 2016 op-ed.

The Obama administration targeted Risen with a subpoena to force him to reveal his sources. The Obama administration also seized the phone records of Associated Press reporters and editors, seizing records for 20 separate phone lines, including cellular and home lines.

Risen's op-ed in The New York Times: *"If Donald J. Trump decides as president to throw a whistle-blower in jail for trying to talk to a reporter, or gets the FBI to spy on a journalist, he will have one man to thank for bequeathing him such expansive power: Barack Obama. ..."*

...under Mr. Obama, the Justice Department and the FBI have spied on reporters by monitoring their phone records, labeled one journalist an unindicted co-conspirator in a criminal case for simply doing reporting and issued subpoenas to other reporters to try to force them to reveal their sources and testify in criminal cases.

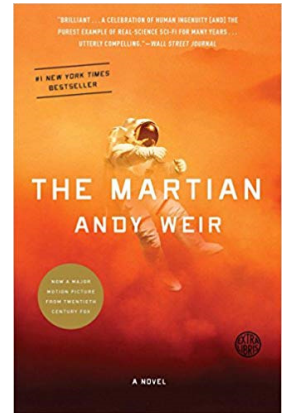

If the Trump administration imposes regulations on social media and internet giants, it could set a precedent for future Democratic presidents who want to regulate more sectors" he added.

In a separate case, the Obama Justice Department named reporter James Rosen as an unindicted co-conspirator. The Justice Department also seized the phone records of Rosen's parents.

But Hillary isn't.***

Book Report

This 2011 book was free on the internet. Then made into a great movie. Read the book first. Weir has another out I'm waiting for. Not your usual sci-fi; great story. Also check out Weir's short story *The Egg*.

Debut Novel...new hero **Peter Ash** who has been compared favorably to **Jack Reacher**...by Jack Reacher's author Lee Child! First of four books. Nick Petrie is going to be around for quite a while.

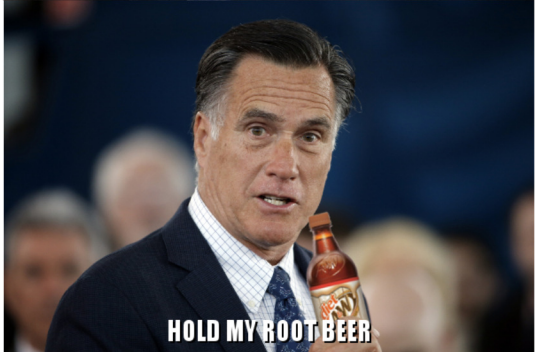

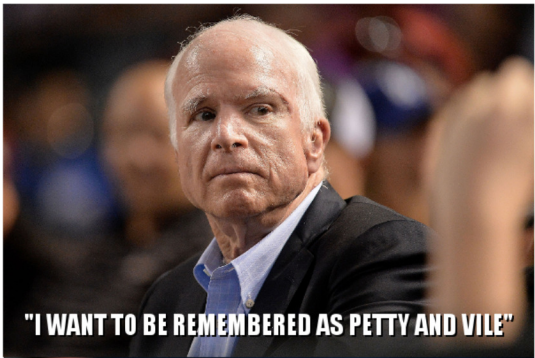

-more-

“John and I are here to save the Republican Party”.

We'll see how good his aim is...

Politicians are getting to be so predictable. Honestly can't figure out how some of them got elected. The new batch turned the first day into a circus and the first clown out of the car figured drinking beer would make her more loveable. Apparently forgot how drinking beer got Justice Kavanaugh into trouble in front of these people. I guess they took their clue from the Lame Stream Media who celebrated New Years by getting drunk on air and began a discussion of their mother's sex life. That must have been the trigger for one of the freshmen who accused the President of the United States of having carnal knowledge of someone's mother. There are 100 new members which should give the media plenty of clickbait while reporting on their frantic jockeying for camera time. I'm sure the few sane members are contemplating an exit from the scene while number crunching their pension versus potential fund raising possibilities using the same clickbait. Surely it's going to result in a rebirth of the term limit argument. I would rather see drug testing and also disqualification if your IQ is below room temperature. Poor Nancy is trying to herd this bunch of cats as the socialists are banding together to push a social agenda that looks something like this:

**WHITES ARE OPPRESSORS
NON-WHITES ARE VICTIMS.
BUT RACE DOESN'T EXIST
YET I LOVE RACIAL DIVERSITY
AND I CELEBRATE OUR DIFFERENCES
BECAUSE WE'RE ALL THE SAME
SO LET'S DESTROY DIVERSITY
BY MIXING TOGETHER...
BUT ONLY IN WHITE COUNTRIES**

The 100 newbies will be receiving \$174,000.00 each year of their two year term. They will also be receiving millions of dollars to pay their staff.

Here's a thought: the typical United States Marine Corps drill instructor gets \$83,000 annual pay. There are currently 600 of them rotating through Parris Island. Given the oath they take, wouldn't it be less expensive and much more effective to assign a few to each congressional office? Just saying.
