**Honey Fried Fillets**

If you're lucky enough to have a son who says "work is what you do when you can't fish", here's a recipe:

**Ingredients**

- 1 egg w/ 1tsp honey
- 1 cup coarsely crushed Ritz
- 1/3 cup all-purpose flour
- 1/4 teaspoon salt
- 1/4 teaspoon pepper

**Directions**

Beat egg and honey. In another bowl, combine the cracker crumbs, flour, salt and pepper. Dip fillets into egg mixture, then coat with crumb mixture.

Heat 1/4 in. of oil; fry fish over medium-high heat for 3-4 minutes on each side or until fish flakes easily with a fork. Drizzle with honey.

Had mine with tomato basil parmesan soup, homemade roll and a nice Riesling.

Costco has announced a shortage of toilet paper.

I guess we're back to not shaking hands?

Meanwhile, As part of a new set of policies aimed at cutting down on anti-vaccine content on the Google-owned site, YouTube bans any videos that claim that commonly used vaccines approved by health authorities are ineffective or dangerous.

**Congress critters are in the midst of "budgeting" as they call it. Here are the astronomical numbers:**

- U.S. Tax revenue: \$2,170,000,000,000
- Fed budget: \$3,820,000,000,000
- New debt: \$ 1,650,000,000,000
- National debt: \$19,271,000,000,000
- Recent budget cuts: \$ 38,500,000,000

**Remove 8 zeros and pretend it's a household budget:**

- Annual family income: \$21,700
- Money the family spent: \$38,200
- New debt on the credit card: \$16,500**
- Outstanding balance on the credit card: \$192,710**
- Total budget cuts so far: \$385

**And About That Debt Ceiling:**

You come home from work and find there has been a sewer backup in your neighborhood....and your home has sewage all the way up to your ceilings. What should you do? **Raise the ceilings or remove the crap?**

**Democrat-Controlled House Votes 219-212 to Suspend Debt Ceiling Through 2022 (they prefer the crap).**

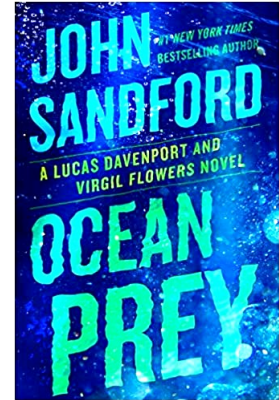

The RINO's (*Mitch, you listening?*) claim it's the lesser of two evils. The spending is done electronically. Let's force them to actually handle the money. They'd need a couple of Super Bowl stadiums and there wouldn't be a tree left on the planet.

**Book Report**

This one kept me up 'till 4am. The *Vigil Flowers* character has, in my opinion, taken over the franchise from the *Prey* series. The plot shares equally with both Lucas Davenport and Virgil. Fun comments and inside writer's info in his end notes.

Billy Bob Thornton stars in this four season Amazon offering. The final season includes some ridiculous scenes totally devoid of plot connection but the entire series is worth the time as you fast forward through the Hollyweird 40's song and dance (*literally*) routines in the finale. Hits hard at Big Pharma and I wonder how they got it past them (or the liberals). They did leave an opening at the end for another season. **-more-**

**67 Year Old Former Notre Dame Professor Who Said, “Damn the Unvaccinated” Dies Two Weeks After Receiving Her 3rd Covid Shot**

**Among the ten thousand replies to this news:**

*“I’ve seen more patients die from the vaccine than from Covid,”* said Abrien Aguirre a board certified occupational therapist who worked in three Covid units in Hawaii. *I’ve seen 32 elderly people pass away immediately after taking the Moderna vaccine”*. *“The people moved to the Covid unit, didn’t have Covid. They tested positive with the PCR test, but most of them were asymptomatic and only suffering from their pre-existing conditions,”* Aguirre said, adding that people with terminal illnesses were put on the Covid death lists, which he says is *“a complete fraud.”*

Aguirre said that he worked as a “Director of Rehab” in one skilled nursing facility for 5 months, and he saw where the billing department would have his therapist change medical diagnosis codes from things like pulmonary disorder to Covid because of higher reimbursements. He said this even happened with cases that were not only asymptomatic, but sometimes they did not even have a positive PCR test result for Covid. *“It’s just fraud on every level,”* he said.

**Another contributor said:**

*“Two successful treatments for China’s covid are hydroxychloroquine (HCQ), and, very recently, Ivermectin. Unfortunately lefty doctors aren’t interested in the cure, but rather stats that justify the jabs. Many doctors should revisit their oath to save lives. many who are brainwashed by whatever the Big-Pharma-Funded ‘medical journals’ put out, and/or afraid of losing their license. Also note that the CCP’s VAX is a traditional, inactivated-virus vaccine - NOT mRNA genetic-re-programming. How effective it is - or dangerous in its own way - is unknown”*.

**Yet another said:**

*“We just got over delta. Kaiser Permanente ER staff, hospital staff, nurses, doctors, etc., continually pushed the jab to the point of harassment, while refusing us every treatment we requested including the monoclonal antibody treatment President Trump made available and free for every single American. Dealing with Kaiser has been nothing but a zombie nightmare”*.

**There were 1,820 cases of the flu reported last year. The year before there were nearly 40 million. Duh?**

In the 2,465-page “Build Back Better Bill” now being debated in Congress there is a vaccine enforcement mechanism that could see fines up to \$700,000 EACH employee for companies who do not mandate that employees get vaccinated.

Seafarers, truck drivers and airline workers have endured quarantines, travel restrictions and complex Covid-19 vaccination and testing requirements to keep stretched supply chains moving during the pandemic. But many are now reaching their breaking point, posing yet another threat to the badly tangled network of ports, container vessels and trucking companies that move goods around the world. And hospitals are firing hundreds of doctors and nurses who have refused the jab. **Time to buy shares in popcorn companies?**

***Let’s return to the time when the internet would scream when you turned it on!***

CNN only exists because of the basic cable video package. Conservatives need to disconnect from their cable video subscriptions. CNN gets paid on 77 million subscribers, but only 800,000 viewers use the service which is about 300,000 subscribers. So they get paid on 76,700,000 subscribers that don’t use the network. They charge \$3 each subscriber a month for \$230 million per month. They don’t care how many people view as long as those 77 million continue to pay.

**STOP PAYING! CUT THE CORD!!**

There are free TV stations available OTA (over the air) and you are paying for them. Remember rabbit ears? \$10 will get your TV hooked up. Use them for sports and weather...avoid the news. A one time cost of \$30 will get a ROKU device that will stream from the internet right to your TV.

**WARNING!**

**Stay focused on election fraud.**

**Ignore the hyperbole, screaming and shouting. The left is focused on power so mandates, masks and outrageous spending bills are nothing more than background noise. California just validated mail-in ballots. No loss as that state is past redemption. Voter ID will be the key protection of elections.**

**Until next week...**
