

Gaetz vs McCarthy...why can't these two get along like...

...these two....

...or even these two?

*“What paralyzed the House of Representatives was not taking up appropriations bills. We left for a six week vacation while the appropriations process hung in the balance. And because I forced these people to take a few votes, you think I’m paralyzing the House of Representatives? I think the House of Representatives has been paralyzed for the last several decades as we’ve refused to pass a budget and as we’ve governed by continuing resolution and omnibus bill. So I think that this represents the ripping off of the Band Aid. And that’s what we need to do to get back on track” . **Matt Gaetz R/FL***

IMHO: Any change this drastic will be better than what we’ve had from these clowns for 50 years!

All the news I see fit to print.
Freedom of the press belongs to those who own one.

The only election Hillary Clinton ever won was because her opponent died. Donald Trump is still alive.

Diane Feinstein’s death will not interfere with her re-election campaign as Chinese officials meet to select her replacement. Meanwhile, her \$200 MILLION estate is up for grabs and being used to highlight her fiscal frugality with a \$174K salary.

Nancy Pelosi will accompany Feinstein’s remains back to home state of California. Aircrew has asked her to wear a name tag so they can differentiate between the two passengers.

The Clinton Foundation announced numerous new programs that it hopes will gather new monetary commitments and engagement, including gender equality and continued support for the people of Ukraine. This, after a five year “rest period”.

She smells new money? Meanwhile, “It is time to work together to stop the ecological catastrophe before it’s too late,” Pope Francis told Mr. Clinton at a meeting of the Clinton Global Initiative (CGI). Fox’s Dana Perino Introduced ‘The Amazing’ Hillary Clinton at the Conference as well as acted as moderator at the second GOP Debate.

In a major U-turn, climate alarmist Gates backtracked and confessed that “global warming” does not have apocalyptic consequences. Gates told a group of his fellow globalist green agenda advocates that the “climate doom” narrative has now become so exaggerated that the public now sees right through the charade. The admission from Gates is a major shift for the billionaire who has been a leading proponent of the “climate emergency” narrative. *Will Pope Francis excommunicate him?*

Department of Homeland Security Secretary Mayorkas has “announced the creation of the Homeland Intelligence Experts Group. They include some of the 51 ex-Intelligence officials who signed a letter before the final 2020 presidential debate strongly suggesting that a New York Post story exposing Hunter Biden’s laptop was “Russian [dis]information”.

The seventh in the series, this one runs about 1,000 pages of excellent plot filled with dozens of nasty people the UK detective team face. The Mafia was arrested for running a numbers racket. The government took over their racket and it metastasized into state lotteries as well. J. Edgar Hoover would probably love it.

Tidbits

(a small and particularly interesting item of gossip or information)

28-year-old suspected murderer Kevin Mason was on the run from the law for two years before being apprehended. He was wanted for shooting someone in Minneapolis and for parole violations and weapons charges. Two days later he was released and is still at large.

Democrat Governor Tim Walz picked Erin DuPree as head of Minnesota's marijuana regulatory agency. Walz said she was an effective leader who would oversee the state's new pot market. DuPree ran a business, in a suburb of Minneapolis, selling illegal pot products, had financial issues with former associates, and unpaid tax liens.

Energy Secretary Jennifer Granholm announced that the Biden administration has taken 110 actions on energy efficiency standards making appliances cost more and perform worse. *The good news...your electric toothbrush is safe (for now).*

Sanctuary State Illinois Governor J.B. Pritzker demands Immediate Federal \$help\$ for Illegal Aliens. Illinois taxpayers have already paid over \$400 million "help" for less than 15,000 "asylum seekers". **Do the math.**

Those are one hundred dollar bills stacked on pallets for a total of one billion dollars. The national debt increases by that amount EVERY HOUR thanks to Bidenomics.

They (not we) have reached \$33 TRILLION in total debt.

We (not they) are expected to pay it back.

These are naval signal flags that should be flying on every flagpole...with an upside down American flag.

Betcha your Google search won't explain that.

The Pentagon told Congress it doesn't have the money to replace the weapons it has sent to Ukraine after Congress eliminated Ukraine funding from the stopgap bill it passed. Speaker McCarthy colluded with the Democrats to hide and fund new Ukraine money. Rep Gaetz caught it.

Only 10% of the \$7.5 trillion spent during Covid went to health. The rest went to hand-outs and crony payments that funded the institutional left. An Orange County SoCal doctor was charged with stealing \$150 million from the COVID Program, for services to uninsured patients.

Current and former IRS employees stole thousands of dollars in COVID relief funds. The bogus loan applications were made to the Paycheck Protection Program (PPP) and Economic Injury Disaster Loan (EIDL) Program to gain over \$1 million in funds...that we know of.

BTW: IRS now has a total of 5 Audits into MyPillow.

Illegal aliens get \$2200 a month. Then throw in crime, free health care, schools and you are looking at \$15 billion per month for every 5 million they let in. Do the math for how many they report. Add more they did not "catch".

Chicago Mayor Brandon Johnson signed a \$29 million dollar contract to build camps for illegal immigrants in the city. Employees of these migrant shelters are making at least \$135 per hour. Invoices show some employees are making about \$200 per hour.
