Mexican Lasagna

Ingredients:

- Pound Hamburger
- Can of Pinto beans
- Salsa (cup)
- Marinara sauce (cup)
- Tomato paste
- Sweet pepper
- Onion
- Garlic
- Ricotta cheese (cup + egg)
- Quesadilla cheese

Directions:

Fry the hamburger...when half done, add chopped onion, garlic bits and chopped sweet peppers. Drain and rinse can of pinto beans add after hamburger is done. While the hamburger is frying, beat an egg into the Ricotta cheese and add equal amount of quesadilla cheese. Heat the salsa, marinara sauce and tomato paste until it's blended. Then add to the hamburger pan and blend. Then add the Ricotta cheese/quesadilla cheese mixture. Sprinkle more quesadilla cheese on top and bake at 350 until the cheese on top melts. Serve with tortillas that have been heated. Quantities up to you...have fun! With Dos Equis beer, of course.

Just finished my second shot at the real Lasagna. Grandson Hunter is banging on the door for more. I'll include my recipe for this Italian classic next week. Key is to use Quesadilla cheese. 100% cow or goat milk not that skim stuff.

2000 election was contested by the Democrats so they were allowed to examine the ballots.

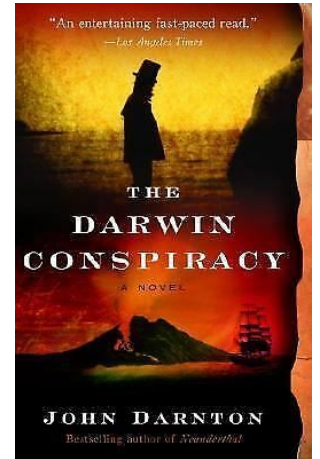

2020 election was contested by the Republicans so they were allowed to examine the ballots.

Election fraud in cities like Chicago, Philadelphia and Detroit are "well known" according to Republicans. If so, why in hell did they allow it to flourish and improve to the point of destroying a presidential election? 99.6% of Mail (not absentee) Ballots went to Joe Biden in Pennsylvania? Republicans Won 28 of 29 Most Competitive House Seats, Added 3 State Legislatures, Did Not Lose a Single House Race — But Joe Biden Won? The firm that runs the machines used in Michigan where thousands of Trump votes were switched to Joe Biden? That would be Dominion Ballot Counting Systems where Nancy Pelosi's longtime Chief of Staff is a key executive and Senator Feinstein's husband is a significant shareholder.

Bit of history: Democrats were given 37 days to contest four Florida counties in the 2000 election. Republicans are contesting several state frauds but Lame Stream Media pushing for immediate closure.

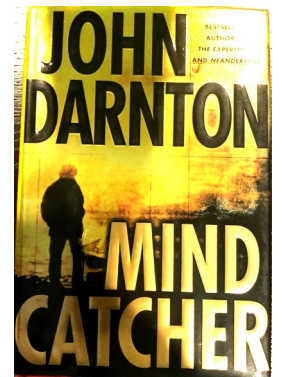

Bon Mots

Best thing about the good old days: I wasn't good and I wasn't old.

Book Report

Takes a weak premise and turns it into an intriguing novel. Fascinating explanation of the various Darwin theories with the premise being that Darwin took full credit for the work of others.

Religion, psychiatry, philosophy and mysticism in a blender. Weird ending leaving huge hole in the plot but worth the read if only to get you thinking about the science of it.

His **Vice President** enriched his family in pay-for-play schemes with China, Russia, Ukraine, and Iraq.

His **Secretary of State** ran classified operations through a personal email server in her basement.

If you're wondering why the Democrats rushed an election theft program so fast after seeing Trump's vote totals, it's because most of the "highlights" noted above will find the full force of public scrutiny after Trump wins second term and these records are unclassified. The election fraud was in such haste that they had to martial the Lame Stream Media and High Tech to blunt any inspection of the blatant tactics. I do believe that Trump knew it was coming and laid a trap:

The ballots were marked with special codes seen only under UV light. Going to make it easy to find the ones shipped direct from China. States run by Democrats are targeted by the inspection including North Carolina, Pennsylvania, Wisconsin and Nevada. Georgia has announced a full audit using this method. You have to dig deep into the internet to find this information as the Lame Stream Media and High Tech companies are censoring any mention of the process. The Supreme Court will get involved after a fight for the electoral college votes will be allocated according to the findings of the audits. Dec 12 is deadline for final call.

Federal Election Commission (FEC) Chairman Trey Trainor has declared this week that the 2020 election results are "illegitimate."

Don't expect to find any good news about the fraud investigation on TV or social media. Here's why: Lame Stream Media had 92% Negative Coverage of Trump; and 66% Positive for Biden. Social Media censored Trump 111 times but not once for Biden. See a pattern here? Amy and friends will have last word.

h/t to Gin B. for sending me this Amy meme. Think about what the Democrats are facing at the Supreme Court: three justices who have already investigated fraud at the 2000 election and Clarence Thomas who was subjected to a "high tech lynching" headed by Joe Biden. Joe led the attack on Thomas during his senate hearing confirmation. While all this is going on, Democrat Governors and Mayors are taking one last shot at power with new beer flu edicts to generate more masks, lockdowns and elimination of Thanksgiving. Notice seasonal flu stats are missing? Maybe they know something is coming? **Truth!**
