**Baked French Fries**

- 2 medium russet potatoes
- 2 Tbsp canola oil
- Salt to taste
- 2 cloves garlic, very finely minced
- 1 tsp rosemary leaves
- 1/4 cup grated Parmesan

**How to Make It**

Preheat the oven to 425°F. Peel the potatoes and cut into 1/4-inch fries (about twice the thickness of standard fast-food fries). Soak in warm water for at least 15 minutes before cooking. Drain the potatoes and dry thoroughly. Combine the fries and the oil in a mixing bowl and toss until they're evenly coated. Season with salt. Spread the fries out on a large baking sheet, being careful they don't overlap. Bake for 30 minutes, until the fries are just tender and lightly browned on the outside.

*(optional) Sprinkle with the garlic, rosemary, and Parmesan and return to the oven for another 10 minutes, until the cheese is melted and the garlic lightly browned.*

I started a few years ago with a simple one page occasional report to our five kids. It has since grown to a weekly (every Saturday about 10:30am depending on what I was up to Friday night). If you think you can stand my ranting and raving every week, just let me know and I'll place your email address on the subscription list. Just drop a note to [fns@franksiegler.com](mailto:fns@franksiegler.com)

*Some of the more egregious rants have been expanded into articles on my blog...all have been picked up by [whatfinger.com](http://whatfinger.com), the news aggregate*

From 1987, another debut novel I had never read...a favorite author of mine. The **Robicheaux** character is now firmly established and has made the big screen also. The plot is tighter and the wit sharper in this debut but Burke has maintained a prominent spot in the detective genre.

Amazon bday gift card so I bought the first three dvd...had newest 2...and yes, I watched all five in a row. Interesting throwaway line in final...raptors could have become the dominant species since they could communicate.

### Thoughts While Thinking

You have to take out a loan to go to college because you can't get a job without a degree BUT the main reason you have to get a job is to pay off your loan?

Democrats tell me it's physically impossible to go door to door to deport 20 million illegal immigrants...BUT they also tell me they will go door to door to grab guns from law abiding citizens?

Democrats want to raise the age to buy guns to 21 because age 18 isn't responsible BUT want to lower the voting age to 16 because????

OK...it's my first attempt at a meme (*I think that's what it's called*). That "awesome" impeachment hearing must have a lot of Schiff's people (including Nancy) wondering why they are still trying. Tried watching the hearing...also tried watching the Nancy Pelosi press conference same day. I now know what the term "cringe worthy" means. Their rabid supporters are getting more upset as they realize why we're laughing as Republicans at the hearing are laughing too. Now they know what Rodney Dangerfield was talking about.

Next week I have got to hit the VA and get my hearing aids checked. I figured out the microphone is behind my ear so I catch sounds from in back of me while trying to understand what someone in front of me is saying. Maybe that's why they call this the *behind the ear* style? There's *in the ear*...but still designed by someone without a hearing problem?
