

"Almost" feel sorry for Chuck Schumer. Some of the rising voices in his party are calling for him to quit and AOC may primary him.

If that wasn't enough, behind the scenes, he tried to button his shirt and the button fell off. He picked up his briefcase and the handle fell off. He tried to open the door and the handle fell off.

Now he's afraid to pee.

As bad as Schumer has become as the Dem leader, CA governor Newscom is surely going to top even MN's Timmy tippy toes...

...and Newscom is being presented by the Dems as a possible POTUS candidate! Everybody in CA would vote for him just to get him the hell out of CA. The Democrat party has become flypaper for idiots and grifters.

Please make the stupid people shut up!

**All the news I see fit to print.**

**Freedom of the press belongs to those who own one.**

Dems spent \$6 million to gain victories in New Jersey and Virginia, though both states are traditionally Democratic. They have a paltry \$18 million cash and just took out a loan of \$15 million while Republicans have \$91 million going into the 2026 election silly season.

*Maybe they should ask Pelosi for investment advice?*

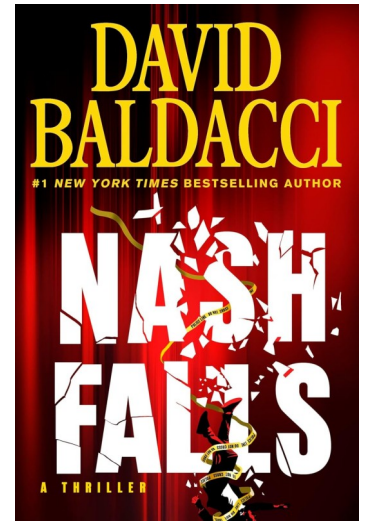

There are emails recently revealed between 27 state Attorney Generals, supported by George Soros, being told what to do - and asking what to do - to prosecute conservatives, attorneys, alternative electors and others. By the States United Democracy Center, a criminal organization. MN AG Ellison is on this list.

*Surprise! Surprise!*

Over 30,000 students were absent in the Charlotte area while ICE was in town. School officials say illegal aliens have "constitutional right" to "free" education. Meanwhile, Florida's Miami-Dade school district is reporting a huge dip in enrollment with only 2,550 children of immigrants entering the system, which is a massive shift from the 14,000 reported during Biden's last year in the White House and the 20,000 the year before that. Property taxes pay for schools and those taxes are rising in MN at \$164 per person and even higher elsewhere.

Steve Bannon ignored a Democrat controlled congressional subpoena and wound up in jail. Bill and Hillary Clinton are ignoring a Republican congressional subpoena. Will the arresting officers who haul them in front of congress collide with the Secret Service protection? *Nah, they'll call in sick with bird flu.* Speaking of the Department of Justice, did you know that on June 22, 1870 a Republican Congress created the Department of Justice to safeguard the civil rights of African-Americans against Democrats in the South?

Democrats had the Epstein files for four years under Biden and didn't really know what to do with them. They are desperate for anything they can use but forgot that Trump kicked Epstein out of Mar a Lago and started the criminal proceedings against him. Now they are finding too many Democrat names in the files with several already bailing out. Also, looks like it was a sex blackmail operation involving billions funneled through J.P. Morgan while the Biden Treasury Dept hid those facts.

**Book Report**

Baldacci isn't old enough to remember the cliff hanger serials from my younger days at the movies but boy did he suck me into this one. He took an ordinary (but smart) guy and turned him into a character who would give *Reacher* a problem. Got to the end of the book and found I had to wait until he released book two in April of 2026 to find out how the guy did when thrown into the lion's den. Well at 435 pages on the first one, which held my attention, I can see why he cut it off and started a second. However, That has never stopped J. K. Rowlings who pushes close to a thousand in her Galbraith series (got her latest last week). I did notice that Rowlings a book uses very thin paper. It's a great detective series she launched without her name on it so it would be accepted for worth, not name. It worked.

**Thanks again to Elon!**

A new feature on X reveals the origin and current location of users. The popular anti-Trump account "Ron Smith" just self-deleted after it was revealed that the account is based in Kenya and 90% of the "GOP civil war over Israel" stuff has been pushed by foreign accounts that got exposed.

**Tim Walz**

**governor of the (once great) State of Minnesota**

Minnesota is drowning in fraud. Billions in taxpayer dollars have been stolen during the administration of Governor Tim Walz alone. Democratic state officials, overseeing one of the most generous welfare regimes in the country, are asleep at the switch. And the media, duty-bound by progressive pieties, refuse to connect the dots. In many cases, the fraud has allegedly been perpetrated by members of Minnesota's sizeable Somali community.

Federal counterterrorism sources confirm that millions of dollars in stolen funds have been sent back to Somalia, where they ultimately landed in the hands of the terror group Al-Shabaab. As one confidential source put it: "The largest funder of Al-Shabaab is the Minnesota taxpayer." BTW: there's an audio recording of Keith Ellison meeting with the culprits behind the \$240 million Feeding our Future MN fraud scheme before they were charged and then he and his son (*MPLS city council member*) took donations from them amid promises to deter the investigation. Oh, and a Somalian Sheriff's deputy calls non-Somali-born Minnesotans 'foreigners' and vows to serve "his people".

Obama imported 70,000 immigrants from Somalia and parked them in MN's fifth congressional district now being "represented" by Congresswoman Ilhan Omar.

This district has been identified by the FBI as America's terrorist recruitment capital. Al-Shabaab is a Sunni Islamist militant and political movement based in Somalia. Omar is calling for the dissolution of Homeland Security and ICE. Omar is being investigated for immigration fraud. Omar married her brother to help him obtain legal status and student loans. Omar is reported to be a rising star in the Democrat party according to the *Lame Stream Media...of course!*
