## The Frank Report

12.13.2025 #518

**All the news I see fit to print.  
Freedom of the press belongs to those who own one.**

Former MN Rep Jason Lewis **in 2014** identified Somali fraud as a "major issue" and said over \$100 million dollars was missing. "We have a fraud case with the money being transferred out of the country."

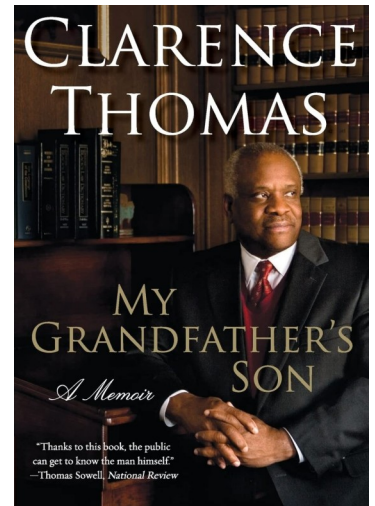

Democrats went after him and replaced him with Angie Craig. Jason is a small business owner. He has since moved to Florida and took his business with him. *Thanks MN GOP for all the support.*

Angie is running to replace a MN senator (Tina) I've never heard of. Angie's seat is up for grabs and Dems are all over it while the MN GOP continues to ignore it. Took a bit of work but I did find a website for the MN GOP. They issue press releases (latest is June) with headlines reading: STATEMENT FROM ALEX PLECHASH, CHAIR OF THE REPUBLICAN PARTY OF MINNESOTA, Former U.S. Marine & Naval Aviator. **Here's a tip for Alex:**

Never bury the \*lede! \*That's journalism speak for the headline that captures the meat of the story in a few words. I guess Alex thinks he's the meat...Dems have certainly been making stew out of them. I'm sure the editors at the MN Star Tribune have a good laugh when the GOP press releases show up. Steve Grove, CEO of the Minnesota Star Tribune, is a former Tim Walz appointee, and Steve worked for Tim's congressional campaign. Even helped the campaign plant signs in yards. Now he just plants stories of how great Timmy is running (*there's an "I" missing there*) MN.

Democrats flipped Miami mayor's office, winning control for first time in nearly 30 years. Only 37,239 voted, less than half of them Republicans, out of a voting population of 175,692. There are 53,000 registered Republicans and 55,000 with no party affiliation. So, with twice as many non-Democrat voters, they still won. **See the problem Alex?**

### Book Report

Deep dive into his past reveals the rationale on how he handled Joe Biden's blatant racism during senate hearings on Thomas' confirmation as associate justice of the Supreme Court. Explaining Anita Hill's betrayal in depth, he expresses more pity for her than anger. Another revelation is his friendship with Ruth Bader Ginsberg. His rock solid family history also sheds light on his thought process. He had a complicated life anchored by common sense. It's what now guides his role on the court.

There are 1500 newspapers, 1100 magazines, 9000 radio stations, 1500 TV stations, 2400 publishers...

**Owned by only 6 corporations.**

The internet, and thousands of newsletters like this one, have begun destroying the stranglehold on the "news". In spite of the "Mockingbird" CIA tactic, common sense has prevailed as Americans look beyond the ideology to the facts...it's their freedom and money at risk. Please pass this on and share the website links you've found to be honest.

In 1989, Joe Biden delivered a televised message from the Democrat party, calling on then President Bush to do more to stop the flow of drugs into the country. In addition to calling for more prisons and more cops, Biden said that Democrats want the creation of a strike force to attack drug dealers before they reach our borders. "Let's go after the drug lords where they live with an international strike force. There must be no safe haven for these narco-terrorists and they must know it."  
*Gee, almost makes you want this guy as POTUS?  
Well maybe not after reading this...*

...according to an internal DoD IG report, Biden forfeited "96,000 ground vehicles, 51,180 general purpose/light tactical vehicles, 23,825 [Humvees], nearly 900 armored combat vehicles, 427,300 weapons, 17,400 helmet-worn night vision devices and at least 162 aircraft" to the Taliban. This equipment is now the core of their army.  
*Too bad he didn't included those pagers from Israel.*

He was busy here at home too. Biden handed out more Social Security numbers to non-Americans in four years than some states even have residents.

Top Venezuelan Official Turns State's Evidence on Voting Machines "Smartmatic—a company whose technology is incorporated into Dominion, ES&S, and Hart InterCivic systems —was created as an electoral tool for the Venezuelan regime". All three tabulator systems are used in Michigan elections and nationwide.

**Apparently that Minnesota fraud virus also infected local cities :**

Metro Transit's Gold Line bus project is a 10-mile bus rapid transit line opened in March at a price tag of \$500 million and connects St. Paul and Woodbury using primarily bus-only lanes. It was projected to achieve 5,900 'daily linked trips.' After six months of operation, they are averaging less than 1500.
