

Recipe Corner

Had Christmas dinner with my kids. Confiscated Bison bones for broth (left) and a ham bone for ham and pinto bean soup (right). Recipes available upon request. Also planning on vegetable beef soup with the bison broth. Got four servings of the ham/bean soup and almost a gallon of the bison broth. We've had record high temps (mid-40's to 50) but I'm sure MN weather will justify the soup recipes very soon. January can have 30 below zero as a high. Keeps the riff raff out of the state but not the gun free zoned Twin Cities.

The Bison/vegetable soup turned out great. Got four servings from the ingredients. Recipe also available upon request using beef short ribs for the broth.

CHOICE CUTS OF POTATOES

Above...in case you're wondering what happened to the presents you were expecting.

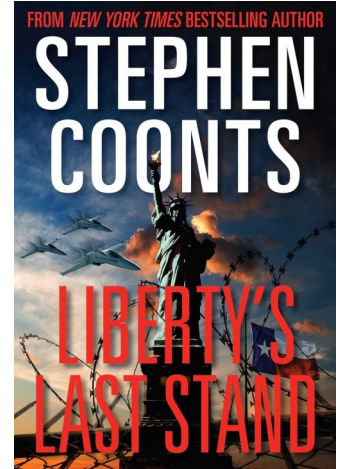

Kamala Harris pretends that Kwanzaa was a long family tradition that she grew up with. Kamala Harris was born in 1964. Kwanzaa was a fake holiday invented by a communist professor in 1966 and was not widely known until the early 80s after the FBI promoted it. Maulana Karenga created the fake holiday to counter Christmas so that blacks could shun "White religion" & "psychotic" Jesus.

Joe Biden and Dr. Jill also celebrated the "joy" of Kwanzaa.

Here's how Ann Coulter describes it:

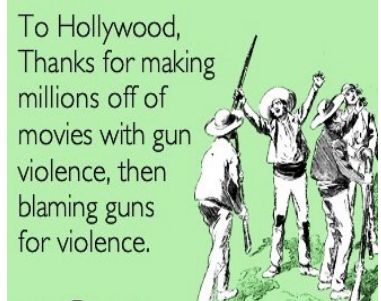

Celebrated exclusively by white liberals, Kwanzaa is a fake holiday invented in 1966 by black radical/FBI stooge Ron Karenga -- aka Dr. Maulana Karenga, founder of United Slaves, the violent nationalist rival to the Black Panthers. It's as if David Duke invented a holiday called "Anglika," which he based on the philosophy of "Mein Kampf" -- and clueless public schoolteachers began celebrating the made-up, racist holiday. Current position as the chair of the Africana Studies Department at California State University at Long Beach.

Book Report

From 2016, a plot based on a chilling and prophetic(?) premise: president opens all the borders to terrorists...they start killing people and blowing things up...so president then declares marshal law, cancels habeus corpus and the next election. Becomes dictator after he arms FEMA, IRS and other executive branch agencies to confiscate guns. I hope FJB doesn't read it. Maybe he did?

Coonts is as prolific as Clive Cussler. I have ordered all in the **Carmellini** and **Jake Grafton** series...total of 19 with eight more to read. His debut book, **Flight of the Intruder**, was made into a movie starring Danny Glover. The movie covered just a few chapters.

Constitutional carry laws allow legal residents to carry a concealed firearm without a permit, eliminating the need for citizens to ask the government for permission.

Last year closed with 25 states passing concealed carry laws without permits or cost. Florida had the honor of officially making America a constitutional carry-majority nation after the state Senate approved.

The FBI possesses over 13.9 million records tied to illegal aliens in a database used to run background checks on individuals seeking to purchase firearms. Between 1988 and 2023, there were only 47,930 denials of firearms purchases to illegal/unlawful aliens.

The United States has its lowest number of armed forces in nearly 80 years. Recruitment numbers were missed in the Army, Navy and Air Force; however the Marines and the Space Force reached their goals. In total, the military missed their recruitment goal by over 40,000 with the Army down nearly 9 percent in just the past three years.

Remember those forced vaccines on the military and the mandatory diversity training while anyone claiming to be "trans" was excused from physical training?
