

Recipe Corner I wish I had planted more popcorn this summer. With what's happening to the Democratic party, I'm going to need all I can pop.

Tip: the seeds into a paper bag with the microwave works. Don't include the cob...I damn near set the house on fire!

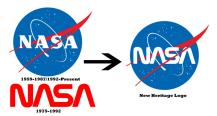

You'll like this one! It's made from an anti-diuretic hybrid grape and reduces the number of trips people your age go to the toilet during the night. It's called PINO MORE!

Sounds like a good wine to go with the popcorn?

Critics claiming the new Air Force Space Command logo is a rip off of the Star Trek logo...

...it's actually from the NASA logo *from 1956.* Do your research numbskulls!

Book Report

Been finding books with multiple JDM novels; all complete and unabridged. The source is www.thriftbooks.com. Free shipping with any order over \$10. With more than 70+, this will keep me busy until my 14 favorite authors publish new ones. Seems they all come out about the same time with C.J. Box up first next month. Also read where Lee Child's Reacher character is going to hit the screen again. This time without Tom Cruise since the Reacher character is 6'5" and

240 pounds. They are still looking for someone. DJT fits the description (see picture above) but I think he's going to be busy for next five years.

February 21st is the release date of the re-re-re-remake of this book by Jack London. Word is Harrison Ford wakes up in the woods after eating potent mushrooms and starts calling his dog Chewbacca.

The mayor of Kansas City says if the 49ers win he will send the San Francisco mayor a rack of ribs. And the San Francisco mayor says if KC wins he will take a dump on their sidewalk.

Lost a shipmate and good friend this month; **Dennis Jordan**. Military life is a fellowship which lasts long after the uniforms are hung up in the back of the closet. Roselee and Denny's wife Diane were just as close...sharing the uncertainty of the eleven months we spent on the carrier Ticonderoga in and out of Vietnam. Denny was soft spoken and always had a smile on his face. Wishing him a steady green and a number three wire with an angelic LSO.

SARCASM because beating the crap out of people is illegal.

Two students at St John's College wrote to Andrew Parker, the principal bursar, this week requesting a meeting to discuss the protesters' demands, which are that the college "declares a climate emergency and immediately divests from fossil fuels". They say that the college, the richest in Oxford, has £8 million of its £551 million endowment fund invested in BP and Shell. Professor Parker responded with a provocative offer. "I am not able to arrange any divestment at short notice," he wrote. "But I can arrange for the gas central heating in college to be switched off."

Welcome to even more new subscribers. I appreciate your appreciation of my "sense" of humor (whatever that is). Comfort zone for you...my daughter has power of attorney and can have me committed at any time. Tends to mitigate the thoughts I have before they wind up in this newsletter or on my blog: thefrankreport.net.
