

Recipe Corner
Leftover Croquettes
Ingredients

- 3 cups cooked, finely chopped chicken, shrimp, whatever
- 1 ½ cups seasoned bread crumbs
- 2 eggs, lightly beaten
- 2 cups sautéed chopped onion
- 1 tablespoon chopped parsley
- 1 teaspoon salt
- ½ teaspoon ground black pepper

Directions

In a large bowl combine the meat, bread crumbs, 2 eggs and onion and mix well; if mixture is too dry to form patties, mix in another lightly beaten egg. Then add parsley, salt and pepper to taste, mix well and form into small patties. Heat oil in a large skillet over low to medium heat and fry patties in oil until golden brown. *I added some shredded cheese and some garlic with the onions. Pinot Grigio recommended.*

It costs over \$235,000 for parents to raise a child today and that's just for the alcohol.

I'm not complaining because I am a Senager (*Senior teenager*). I have everything that I ever wanted as a teenager, only 60 years later.

THE FRANK REPORT

2.15.2020 #213

All the news I see fit to print.

Freedom of the press belongs to those who own one.

2020 Democratic presidential candidate Sen. Amy Klobuchar (D-MN) says that the 2020 election is not just about an economic check, but also a “decency check” on Trump and a “patriotism check.”

Ranking Member of the Senate Budget Committee, presidential candidate Bernie Sanders promised to fight for a nation where **no one can earn over \$15/hr.**

Pete Buttigieg supports the Green New Deal, is "all for" implementing a single-payer system and supports a pathway to citizenship for immigrants. He also uses the bible to justify abortion.

Elizabeth Warren says “*Medicare for All without raising taxes*”. Was that really just beer she was drinking?

Meanwhile, Joe Biden says Michelle will be his VP and he will put Obama on the Supreme Court.

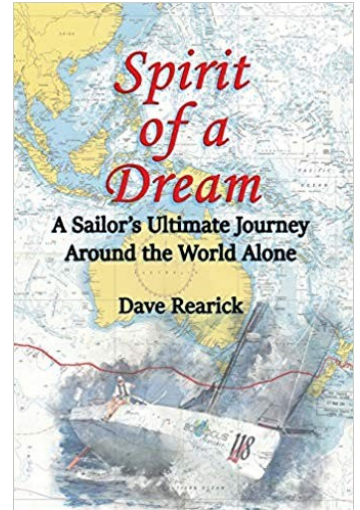

Is this the best the Democrats can come up with?

Don't ask...

Book Report

Alone at sea for 256 days around the world in a 40 foot boat. Billions of people yet only about 300 have ever done it. Makes you wonder what they learned and why they did it. Here's your chance to find out. Very well written and available on Amazon. Highly recommend. Thanks Kate for having Dave send me a signed copy. As that Navy recruiter told me...join the Navy and see the world. Sure enough. It's 90% water.

I thank Dave for the ride. I do feel guilty reading it in just one evening. Then again, it's one of those books I'll read again...and again.

In October of 1994, Pulp Fiction,
Forrest Gump, The Shawshank
Redemption, and Jurassic Park were
all in theatres at the same time.

Current offerings from Hollyweird total crap...what happened? Had some hope when they did a *Jack Reacher* movie but screwed it up by casting a midget for the 6 foot four hero. Latest idiocy is the fusterclucking by big name stars to bash half their fan base. Harrison Ford is the latest example denigrating America when he's in another country. Yeah, I'm sure to watch his next movie...NOT.

When you have people like Harvey Weinstein in charge of the business side, no wonder it goes to hell in a handbasket when both ends of the movie industry have never figured out they are in business for profit and not social engineering.

In case you've been wondering why Joe is so confused.

Roger Stone was arrested by a SWAT team with CNN cameras right there at 6am. Anybody know why DOJ wanted 7-9 years as sentence with four of the prosecutors resigning after sentence was questioned?

The primary charge was lying to congress...or was it the other way around? If you rob or rape someone, max sentence is 3-5 years. What was the lie? The Lame Stream Media made sure you knew Stone was arrested. Dig into it just a bit more and you'll find the definition of bias.

BTW: check out the credentials of the four prosecutors and the background of the foreman of the jury and the politics of the judge.

Amazing how this information is being leaked out bit by bit...maybe it will stretch into early summer about the time Barr lowers the boom!
