

Biden admin began by denying existence of Hunter laptop and ended by pardoning what was on that laptop.

Joe Biden's final jobs report is out - 589,000 jobs revised into oblivion - 70% of jobs created in the government sector - 99.2% of jobs going to foreign-born workers.

Biden threatened to withhold a \$1 billion USAID loan unless Ukraine fired the prosecutor investigating his son's company. He also funded the Ukrainian coup with USAID money. USAID is at the heart of the Ukraine and Russia war.

All those far left judges Biden let Soros install are now coming out of the woodwork to try and stop Trump and Elon's march to fiscal sanity. If the Supreme Court doesn't step in and chastise those judges, the cases will wind up at the Supreme Court.

Elon is responding by digging into the judge's funding asking how a judge can become a multi-millionaire. Trump ignores them and continues to fire people Biden put in places where they could do the most harm.

What's the red pill and why should more people be taking it?

2.15.2025 #475

***All the news I see fit to print.
Freedom of the press belongs to those who own one.***

The term "red pill" originates from the 1999 science fiction film *The Matrix*, where the protagonist is given a choice between a red pill and a blue pill. The red pill is the choice to uncover the truth, even if it is painful and challenging, while the blue pill is the choice to remain in a state of blissful ignorance.

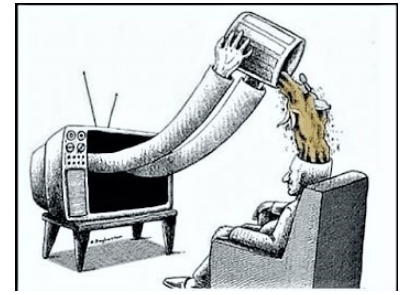

The FBI will need 38,000 red pills.

FBI officials have complied with demands to provide the Justice Department with details of employees who worked on investigations related to the January 6, 2021. Agents were required to fill out included questions about their positions at the bureau and specific roles in January 6 investigations, including whether they executed arrests, participated in grand jury investigations or testified at trials. More than 5,000 employee details were submitted, including employee ID numbers, job titles and their role in the January 6 investigations. There are more than 13,000 agents and 38,000 total FBI employees. So almost 40% of the entire FBI was dedicated to the J6 prosecution!

President Trump will get back all of his classified documents and personal belongings seized by the FBI in the Mar-a-Lago raid. The real reason why the raid took place. It was to prevent the disclosure of unclassified Russiagate documents that implicated the FBI and DOJ in the garbage investigation of candidate and then President Trump.

Democrats playbook: they can't convince the public, so they litigate. They lose the election, so they sue. And more often than not, they find an Obama-appointed district judge who, willing to take the bait, hands down an injunction to halt a duly enacted policy nationwide. The solution: amend Rule 65 of the Federal Rules of Civil Procedure to prohibit district courts from issuing injunctions that extend beyond the parties in a case.

Senator "DICK" Durbin has blocked the confirmation of Kash Patel to take over the FBI so Kash can start handing out those red pills. Maybe he'll even find the FBI agent who walked off with Melania's underwear?

Streaming services like Netflix and Amazon Prime are expected to outspend traditional broadcasters for the first time.

According to the Columbia Journalism Review, USAID supported 6,200 journalists, 707 news outlets and 279 media sector civil society organizations in 30 different countries. Why all the news sounds the same?

The Associated Press was furious after the White House wouldn't let their reporter at President Trump and the king of Jordan's press gaggle in the Oval Office because the AP refuses to officially and fully recognize Gulf of America's name change.

Red Seat Ventures, which hosts former Fox News stars Tucker Carlson and Megyn Kelly and popular true crime podcasts, has been acquired by Rupert Murdoch's Fox. He could have saved a bundle of money if he had not fired them! Tucker and Megyn must be laughing all the way to the bank.

Democrat-appointed and activist judges are doing what they were always going to do which is tie up and stall as much of Trump's agenda as possible by court order. The news media didn't anticipate the zeal with which Trump 2.0's legal team would fight not just Democrats but also their presumed authority on the Constitution.

Tech mogul Elon Musk, who chairs President Donald Trump's Department of Government Efficiency, is thinking about auditing the Internal Revenue Service. Sen. Joni Ernst, R-Iowa, had previously proposed Audit the IRS Act. The bill will audit the auditors and fire more than 800 IRS agents who owe millions of dollars in back taxes.

Radical Far-Left Rep. Ilhan Omar Caught on Tape Advising Illegal Alien Somalis in Minneapolis How to Avoid Deportation. Omar's father, Mohamed, and other Somalis like Yusuf Abdi Ali, who murdered thousands for Dictator Barre and then escaped to the West. They were not vetted before entering the country. Barre was connected to Cuban dictator Fidel Castro as well as other dictators around the globe. Omar is violating federal law by telling illegals how to evade ICE which is aiding and abetting criminal illegals and for that treasonous act, she can be immediately removed from congress, stripped of her citizenship and deported back to Somalia.

In April 2018, the Pulitzer Prize in National Reporting was awarded jointly to the New York Times and The Washington Post for their reporting on the Russia collusion hoax that was concocted by Hillary Clinton's presidential campaign. Subsequently, multiple investigations confirmed that the claim of collusion between the Trump campaign and Russia was false and, indeed, a complete fraud.

President Trump and others then called on the Pulitzer Prize committee to rescind its 2018 award. They didn't so he sued them individually and now they face huge legal fees after a judge rejected their motion to dismiss. It's ongoing and journalists are learning the backside of lawfare.

The United States Military Academy at West Point is withholding public records related to false claims the school made to the press regarding Defense Secretary Pete Hegseth's. Someone there claimed to the media that Hegseth was never invited to join but Hegseth produced his letter of acceptance. That "someone" needs to be identified and at least fired if not sued.

CMS (Centers for Medicare and Medicaid Services) has 6,710 employees and dispersed 1.5 trillion dollars in 2024 (22% of the budget). CMS made 100 Billion dollars of improper payments in 2023 according to the GAO.

That accounts for 43% of all improper payments.

Disaster recovery experts at Hagerty Consulting, which L.A. Mayor Karen Bass has just appointed to lead wildfire rebuilding efforts, pleaded guilty in 2022 and 2023 to defrauding New York City of Hurricane Sandy relief funds.

Tidbits

*(a small and particularly interesting
item of gossip or information)*

USAID gave \$27 million to the Soros prosecutor election fund.

the first EO (Executive Order) was by George Washington, June 8, 1789 requestion reports from dept heads. FDR made the most EOs (3.721)

The U.S. spent \$43 million on a gas station in Afghanistan that had no customers.

Bishop Mariann Budde, who famously criticized Trump during an inaugural prayer service, has been found to have pocketed a staggering \$53 million in taxpayer funds through her organization, Episcopal Migration Ministries (EMM).

Over \$4 billion to Haiti but Haiti only got 2% of it. The rest went to firms in DC and "other" (Hillary?)

USAID staff has been reduced by 97% with only 294 USAID staff out of the original 10,000 remaining

Chelsea Clinton Received \$84 Million In Taxpayer Funding from USAID.

Tens of thousands of angry liberals in D.C. had to drive to work today for the first time in four years, and their seething rage at having to go to work—for Donald Trump!—is making me laugh so hard.

Until next week...
