

## Recipe Corner

This time, for higher gas prices but not until after the election. The Biden administration is expected to ease seasonal restrictions on ethanol gasoline blends but has delayed the change until after the 2024 election to avoid a price spike. This will allow the sale of gasoline with 15% ethanol year-round, known as E15 gasoline. Top oil refiners, have warned against the change, saying that it would complicate fuel supply logistics and increase the risk of area shortages, possibly raising prices. The ethanol industry has lobbied for the changes, saying that the environmental concerns are exaggerated. Gas prices spiked nationally to over \$5 per gallon in June 2022. Prices receded to nearly \$3.10 per gallon in December 2022 before climbing up to just under \$3.90 per gallon in August 2023. The national average for a gallon of gas was \$3.276 as of February 20. Biden Admin has eased Electric Vehicle Goals for Union Support. *Election year more important than for what we need?*

## The Frank Report

2.24.2024 #423

*All the news I see fit to print.*

*Freedom of the press belongs to those who own one.*

Russian President Putin has further destroyed the Trump-Russia collusion narrative, stating a preference for Joe Biden over Donald Trump. "Biden, he's more experienced, more predictable, he's a politician of the old formation, but we will work with any U.S. leader whom the American people trust," he added.

Tucker Carlson also released a new video on his website that gives an inside look at a grocery store in Moscow, Russia. Tucker points out that sanctions by the United States and other European nations have had no impact on grocery stores in Russia despite the lame stream media claiming so. Tucker showed the large variety of food the Moscow supermarket contained and noted their prices are much more affordable than in the U.S. right now because of Bidenomics.

The Lame Stream Media is attacking Putin to downplay the Tucker Carlson reports. Putin critic Alexei Navalny was sentenced to nine years in a maximum security penal colony after being found guilty of large-scale fraud and contempt by a Russian court. Prosecutors accused him of stealing \$4.7 million of donations given to his now banned organizations, including his anti-corruption foundation. He died in prison with reports that the death involved a blood clot. Navalny's supporters denied the corruption charges stemming from the Navalny foundation just as Hillary's corruption charges for the Clinton Foundation have been dismissed...without indictment. Navalny's charges were indicted and the Russian court found him guilty.

Was COVID responsible for his death? Was he guilty of corruption? You're not going to find the answers until decades have passed and a source with attribution are made known. *See how this works? I made you think. You'll have to find the facts and make up your own mind. Hell of an idea!*

*BTW: Biden Suggests House Republicans Partially to Blame for Death of Russian Dissident Alexei Navalny. And...Navalny meeting (on video) with MI6 from England asking for \$10-20 million a year to start a color revolution in Russia.*

*Meanwhile, journalist GONZALO LIRA (American born in Burbank CA) died in a Ukraine prison. Bet you haven't heard of him.*

## Book Report

If pressed to name my favorite author, I would lean towards John D. MacDonald and the **Travis McGee** detective genre. The first three were written in one year (1964) because the publisher wanted all three finished before they would take JDM under contract. Maybe this quote from JDM made them nervous:

*"The early bird may get the worm. I'd rather own the worm factory and sleep late".*

JDM wasn't their typical 9to5 author who could crank out profitable crap like those by James Patterson (*most ghost written*). Instead, JDM said:

*"My purpose is to entertain myself first and other people secondly".* Works for me!

JDM's social commentary, cleverly hidden in the dialogue (usually **Travis McGee**), also makes sense:

*'...organized religion, the formalities and routines, is like being marched in formation to look at a sunset'.*

And this from 1968:

*"Now each one of us, black or white, is a symbol. The war is out in the open and the skin color is a uniform. All the deep and basic similarities of the human condition are forgotten so that we can exaggerate the few differences that exist".*

Some may remember the racial tensions of the 60's where local (D) jurisdictions came under federal control. The discrimination targeting whites today? Maybe the Democrats are taking another shot at dividing us.

**Minnesota citizens need your prayers!**

With the Democrats in charge of all the elected offices, here's a sampling of what they've come up with to make sure we fully understand that THEY are in total control:

SF 3554, sponsored by MN State Senators McEwen (DFL), Seeberger (DFL), and Hoffman (DFL), more tightly regulates, not only the sale of paint to Minnesotans, but also who could use that paint. "...no individual shall perform or supervise painting work unless the individual is **licensed by the commissioner** as a **master painter**, and the painting work is for a licensed paint contractor and the individual is an employee, partner, or officer of, or is the licensed contractor. *Well, next target could be all those bait shops in this 10,000 lake state so we can then license master baiters.*

A new Minnesota law requires universal background checks for private party transfers of pistols, handguns and semiautomatic military-style rifles. Police Chief Jeff Oxtan says a person's gun transfer could be rejected for three criteria: *One, they're not prohibited by state or federal law from possessing a pistol or military-style weapon. Second is they're determined not to be a danger to themselves or the public when in possession. Third is that they're not part of a criminal gang."*

**Like those MAGA gangsters?**

So...how will they enforce this? Democrats in CA have given the Democrats in MN the blueprint:

AB 3067, says: *"This bill would require an insurer, by January 1, 2026, to include questions on an application for homeowners' or renters' insurance seeking specified information regarding the presence and storage of any firearms kept in the household, accessory structures, or vehicles kept on the property subject to any applicable insurance policy."*

*265,728 MN citizens have a concealed carry permit at a cost of \$256.00 each bringing the total collected during the process to over \$68,000,000.00.*

**Tell me again it's about "safety" and not new taxes!**

**Tidbits**

*(a small and particularly interesting item of gossip or information)*

The U.S. government said in January 2017 that Russia favored Trump as president. The CIA "cooked the intelligence" to hide that Putin wanted Hillary Clinton, not Donald Trump.

Iran's top Navy Commander said that Iran owns Antarctica, and the regime plans to build a military base in the South Pole.

Bill Gates's radical plan to "save the planet" from "climate change" by blocking out the Sun has officially launched as scientists began pumping chemicals into the sky.

Obama CIA report asking foreign agencies to illegally spy on President Trump in Russia hoax . The raid at Mar A Lago was to find the missing top-secret binder that proved it.

Biden DOJ has filed a lawsuit against Tennessee because they made it illegal for prostitutes to knowingly spread HIV. It's a violation of the Americans with Disabilities Act!

Most clinical drug trials have found the effectiveness of antidepressants is ON PAR with placebo."

*In plain English: they don't work.*

Veterans Benefits are being cut to pay for illegal alien benefits. *Maybe that's why they want to take guns away from veterans?*

*Rino's but no Dino's wassup with that?*
