

The Supreme Court **did not** strike down the President's trade authority no matter what "journalists" are "reporting".
 The President retains authority from many statutes already approved by Congressional authority and explicitly worded in the Constitution.

"All tariffs imposed under those authorities remain fully in effect and all trade agreements and commitments secured during this period remain in place. The Court's ruling does not unwind negotiated deals, investment pledges, LNG purchase agreements, or manufacturing commitments." Clarence Thomas dissent explained. *"There is a hard line between domestic power and foreign trade authority. Congress holds the taxing power and the power to set domestic rules governing life, liberty, and property. Foreign trade regulation isn't a core legislative function, and delegating it to the executive doesn't violate separation of powers at all. In fact, it's actually consistent with how the Founders understood the relationship between the two branches".* SCOTUS *Actually Reaffirmed Trump's Tariff Powers and why they ruled against the wrong authority he used.*

Clintons to testify in closed session this week about Epstein

2.28.2026 #529

***All the news I see fit to print.
 Freedom of the press belongs to those who own one.***

Wonder how much is going to be leaked from the closed door session when Congress confronts the Clintons. There is the matter of Hillary having 56 "friends" who have committed suicide in weird situations that defy credibility...several who have died from multiple gunshots. Oh, and remember the Whitewater fiasco involving Hub Webber? Strange that the Oklahoma bombing of that federal building destroyed all those files just four days before she was to be indicted. Too bad they can't call Seth Rich to testify but at least the Clintons didn't claim his death as a suicide. Maybe cut Hillary some slack as she is the only presidential candidate to lose a rigged election.

Hillary had her hands on a \$50+Billion dollar budget as Secretary of State. Wonder if there has been any forensic audit with some interesting questions during this session? Benghazi, of course, was never investigated. The Clintons spent millions on their daughter's wedding. Was Epstein invited? We do know his sidekick, Ghislaine Maxwell, helped Hillary create the Clinton foundation with foreign donations while SecState. So many questions...so many brick walls.

And then there's poor Bubba who didn't have sexual relations with that woman in spite of the stains on the blue dress, description of his malformed body part and Matt Drudge grabbing the brass ring with exclusive reportage. At least Hillary "stood by her man" but didn't refrain from throwing objects as well as blush-worthy adjectives at him.

The Clinton years have been a target rich environment for any capable investigator but thoughts of suicide obviously brought some measure of restraint. Maybe this time will be different?

Just a couple of the many famous pictures of the Clintons. There may be more and maybe we'll find out after the Congressional hearing. Don't know why it's called a "hearing" when it's going to be behind closed doors.

More Election Tidbits

Assistant Attorney General Harmeet Dhillon has launched lawsuits against 25 states and DC for refusing to clean their voter rolls Think about this for a second, now why would 25 states refuse to clean their voter rolls. The states are California Michigan Minnesota New York New Hampshire **Pennsylvania*** **Maine*** Oregon Colorado Hawaii Massachusetts Nevada Delaware Maryland New Mexico Rhode Island Vermont Washington Illinois Wisconsin Georgia Arizona Connecticut Virginia and the District of Columbia.

*This last week, Democrats restored their 102-seat majority in the **Pennsylvania** House by winning special elections in Allegheny and Lehigh counties. Democrat won House special election for Lewiston seat in **Maine**. *Yes, they were very close races.*

California is the breeding ground for voter fraud in America, as millions of people vote with no ID, month-long election processes, inaccurate voter rolls, dead people caught voting, even a dog successfully registered to vote, and voter verification is all based on your signature — not who you are.

In the 2020 election, states using Dominion voting machines, connected to the internet switched 435,000 votes from Trump to Biden and deleted 2.7 MILLION Trump votes, including 1 MILLION in **Pennsylvania*** alone.

2020 Election: 158,000,000 registered voters with 66.8% turnout. That's 105,544,000 votes with 81,283,501 for Biden with 24,260,499 remaining BUT Trump got 74,223,975 votes. **Almost 50 million extra votes?**

You aren't doing it wrong if nobody knows what you're doing.

To the person who texted me "GM". Well, General Motors to you too.

Last week a look at California and Gavin Newsom. This week we look at New York City and Mamdani.

The new mayor of New York City, Zohran Mamdani campaigned on "tax the rich, not you". Now he's threatening a 9.5% property tax hike on EVERYONE to cover his massive budget hole from the \$127 Billion he's creating for the eight million citizens of that city. Some of the highlights of his budget include \$5.6M for Office of Racial equity • \$4.6M for Commission on Racial Equity • \$835K on the Commission of Gender Equity • \$260K on Dept. of Education Chief Diversity Officer • \$301K for 3 FDNY Civilian Chief Diversity Inclusion Cops.

To put this in perspective, Florida is a state of 23 million people and the budget for the entire state is \$117B. New York City, not the entire state, a budget of \$127B for just eight million residents.

To be fair, let's look at another large city, Tokyo, with twice as many people, cleaner urban environment, great public transportation, lower crime rates, almost no homelessness and better public education. Their budget? Less than \$61B.

Mamdani campaigned on four-year rent freeze on stabilized units, fare-free public buses, universal child care, city-owned grocery stores, and raising the minimum wage to \$30 by 2030. He supports tax increases on corporations and high earners to fund these initiatives. Reality hit and along with the 9.5 percent property tax hike, he also began drawing down approximately \$1.2 billion from the city's reserves, including the Rainy Day Fund and retiree health benefit trusts. New York already has the highest combined state and local income tax rate in the country and warn that additional increases will mean the loss of businesses and high earners.

Tidbits

(a small and particularly interesting item of gossip or information)

Somali community in MN is now demanding reparations over their trauma from ICE.

I guess that low IQ thing is real?

Chicago Taxpayers Stuck with Rising Costs for Obama's Presidential Center. *Well, duh?*

NYC Bill Seeks to Ban Young Criminals from Being Arrested as Teen Gun Violence Hits All-Time High. *Yeah, that'll help.*

Democrat Rep. Angie Craig Says She'd "Rather Stick Forks in My Eyes" Than Attend Trump's State of the Union Address. *We should send some forks to her?*

In California, 200 people cover 47% of all tax revenue. If they leave, and they NOW are, the state loses 50% of their tax income.

From Trump's State of the Union address: *"If you agree with this statement, then stand up and show your support: The first duty of the American government is to protect American citizens and not illegal aliens."* Every Democrat there remained seated.

Did you know: there are 193 countries recognized by the world. 177 of them receive our taxpayer money. That's 91.7%. Bet you the other 16 don't send us any money.

Irregular audio levels and deliberate overmodulation of President Trump's microphone, a tactic aimed at undermining the power of Trump's spoken word. There are NO mistakes in Washington; it was by design, and someone needs to be fired over it.

Until next week...
