

Elon Musk said that all US federal employees must justify their work or lose their jobs after the president pushed him to be “more aggressive” in slashing government. All federal employees received an email requesting at least five things they got done last week. *“Failure to respond will be taken as a resignation,”* Musk wrote. Great tactic to find all those “working” at home and haven’t responded to emails for months since they were busy with everything BUT work. Musk said he’s encouraged by the “good responses” he’s received so far to the emails where some federal employees have detailed their recent work efforts and suggests the employees who sent them be considered for promotion. There was some confusion at FBI and DHS but Trump stepped in and said: *“send the emails!”* Musk gave them another day to get ‘er done! This is aimed at EVERY federal employee who is getting paid, specially those still at home.

The Frank Report

3.1.2025 #477

*All the news I see fit to print.
Freedom of the press belongs to those who own one.*

Since Obamacare became law, the annual profits of the five largest health insurance companies in the United States have gone up by 230 percent. The six largest health insurance companies in the United States had combined revenues of over one trillion dollars. The CEOs of the five largest health insurance companies in the U.S. brought home approximately 75 million dollars in total annual compensation. There are five giant pharmaceutical companies that each make more than 10 billion dollars in profits each year. Meanwhile: The average family premium for employer-sponsored health insurance in the United States has skyrocketed to \$25,572 annually. More than 90% of all hospital bills contain errors that can result in “overcharges, unnecessary costs, and insurance claim denials”. Hospitals overcharge Americans “by as much as 18 times over their costs”. Approximately 100 million Americans are in medical debt.

Got an interesting battle brewing here in MN between Allina Health and Blue Cross Blue Shield insurance.

My doctor in the **Allina Health** network does what I call an annual warm body check. Allina charges me \$40 and who knows how much to my insurance at BCBS. My insurance company has started a program of in-home visits called **Signify Health** where a PA visits and does the same thing as that warm body check...at no charge and even gives me a \$25 gift card for scheduling the visit. BCBS has taken the next step by competing with the Allina urgent care facilities with a program called **Dispatch Health** that is as comprehensive as a visit to urgent care at the same cost as the deductible...and BCBS avoids the extra cost Allina would have charged for the service. The **Dispatch Health** service comes to your home. Both Allina Health and BCBS share all medical records. *It's going to get very interesting in the near future.*

Book Report

Finished the six Joe Ide **IQ** novels and will definitely follow this author. The hero and associates take on more color and depth with each book. Like the **Naegle** character in Lee Child’s **Reacher, Dodson** is a likely spinoff.

Found the latest **Joe Pickett** book at my front door today. Going to be an very enjoyable weekend. **Reacher** Season 3 is on but I’m waiting until final episodes March 27 to start. Yeah...I binge watch.

White House has taken control over the make up of the White House press pool, brushing aside the liberal White House Correspondents' Association (WHCA), which for 111 years was responsible for deciding who was allowed access to the president.

CURMUDGEON QUOTES

I used to have an open mind until people tried to put some really stupid stuff in there.

If I understand it, in the beginning there was nothing and then it exploded?

Too many people just sit there and wait for life to shower them with meaning and happiness.

My advice is to carpe the hell out of every damn diem.

Guy's grandmother started walking five miles a day when she was sixty. She's ninety-seven now, and he doesn't know where the hell she is.

The guy who invented the first wheel was an idiot. The guy who invented the other three, he was the genius.

Under certain circumstances, profanity provides a relief denied even to prayer.

My opinions may have changed, but not the fact that I'm right.

***Tip for politicians:
The ability to speak
does not make you intelligent.***

Do what you can, with what you have, where you are. Unless it's Minnesota. Then hide your money from the politicians.

Stubborn people were obviously bitten by a radioactive mule.

Liberals can't win by reason, so they go for volume.

An artist is somebody who produces things that people don't need to have.

The lack of money is the root of all evil.

New, suggested emblem for DOGE is based on several times it has been a result of liberals ignoring Trump:

F**K Around and Find Out!

Example: *"I read a story last night that the police commissioner of Boston, said you'd double down on not helping law enforcement officers of ICE. I'm coming to Boston, and I'm bringing hell with me,"* Border Czar Tom Homan said. Boston is a "sanctuary city" and, therefore, doesn't "enforce civil detainers regarding federal immigration law," according to Boston Police Commissioner Michael Cox. *"I looked at the numbers this morning,"* Homan said. *"I stopped counting at nine child rapists that were in jail in Massachusetts, but rather than honoring an ICE detainer, Boston released them back into the street."* *"You're not a police commissioner,"* Homan asserted. *"Take that badge off your chest, put it in the desk drawer because you became a politician, you forgot what it's like to be a cop."* Homan continued: *"We've got sanctuary cities. Now, if sanctuary cities don't help, we double the manpower in sanctuary cities. This is a never-ending effort that we're not going to slow down. We're going to increase. So this is what's happening. We want more arrests. We want more action. And I won't rest. I won't rest until every one of the 700,000 criminal illegal alien is eradicated from this country, every illegal gang member is eradicated for this country. Well, our numbers are high. They're looking good. Not good enough. I'm not satisfied. We're going to keep pushing."*

Immediately after being sworn in, Attorney General Pam Bondi filed lawsuits against New York, Illinois, and the city of Chicago for non-compliance and interfering with Immigration and Customs Enforcement's deportation plans. *It's going to get very interesting.*

Tidbits

(a small and particularly interesting item of gossip or information)

House Oversight Committee has uncovered that \$241 million in taxpayer funds were used to study transgender surgeries and treatments on animals, with Fauci personally authorizing 95%.

The 8th U.S. Circuit Court of Appeals blocked Biden's Saving on a Valuable Education (SAVE) plan, which would have transferred \$475 MILLION student loan debt from borrowers to taxpayers.

"The REAL reason so many Democrats are upset about entitlements (social security, medical, etc) fraud investigations is that they are using your taxpayer money as handouts to attract and retain ILLEGAL immigrants. Their future voters", Musk pointed out.

The only states that Kamala Harris won did NOT have voter ID. *Hmm.*

President Donald Trump is ready to deliver a monumental smackdown to the disastrous United States Postal Service (USPS), dissolving its leadership and merging it with the Department of Commerce.

DEMOCRATIC PARTY APPROVAL HITS A RECORD LOW AT 36%, NOW 15 POINTS LOWER THAN THE GOP

Pfizer hires top FDA official who resigned over Kennedy as the new boss for health agencies.

Until next week...
