

Recipe Corner
Pepper Beef Stew

Sweet onion chopped
Sweet peppers sliced
2-3 TBS garlic bits
Fry:
smoked bacon bits then...
...eye of round beef chunks
Teriyaki sauce
cup of salsa

All in crock pot in that order.
Quantities your choice.
On low for 4-5 hours.
Serve with rice cooked with
chicken stock.

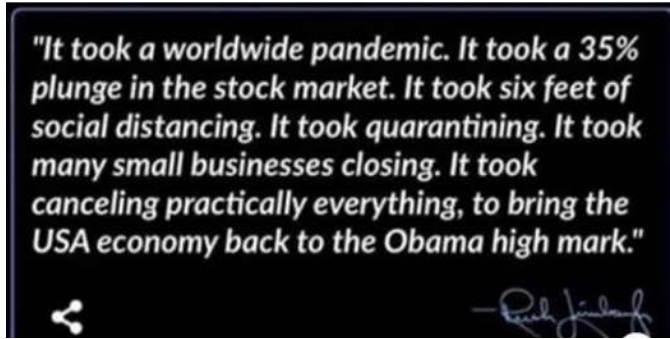

Went nuts this week with two different recipes for baby back ribs and a pinto bean crock pot recipe that is also a precursor for refried beans, using the planned leftovers. Kids and grandkids approved. Roselee's training kicked in as they cleaned the kitchen and did the dishes while I sipped some wine and smoked my pipe. Youngest granddaughter Gracie is the catalyst for our kitchen adventures as she suggests recipes from my collection of over 3,000. Life is good.

All the news I see fit to print.
Freedom of the press belongs to those who own one.

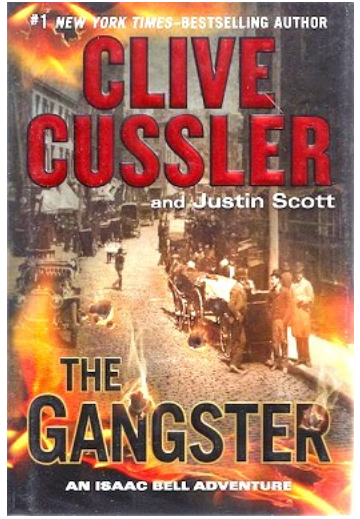

I'd like to take a moment to thank the subscribers to this newsletter for their comments about how lucky my children are to have a father so attuned to the evils of the world. As you can see from the above picture they take life as seriously as I do. If you have children, may I offer this advice: be nice to them for they will select your retirement home. And trust me when I say that if your parents didn't have any children, you probably won't either. If you do have children, you cannot make a donation to any Child Protective Agency. Doesn't work that way. I was going to add an ID caption to the picture, but I'm not very good with names lately. Except for cats.

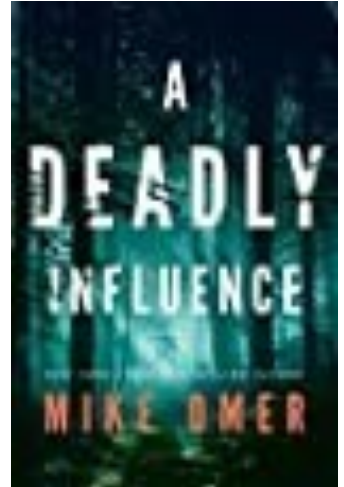

Bon Mots

Beauty is in the eye of the beer holder.

Book Report

Cussler is the most prolific author. *Isaac Bell* series is turn of the century with great historical insights as to how elements of modern society began. This one pits the birth of the US Mafia against Teddy Roosevelt.

New and noteworthy author for my list. This was a free Kindle book from Prime. Tracking down his debut for my collection. He has several characters already established. This one introduces **Abby**, a hostage negotiator and cult survivor. Great plot and supporting cast.

Mal Mots

Pizza comes in a square box but baked as circles and eaten as triangles.

You're welcome.

Here's what ***One Trillion dollars in \$100 bills*** would look like compared to the statue of liberty and a football field. The Democrats have just spent ***TWICE*** that with about 9% for Covid "mitigation" (*to quote that scarf lady wherever she is*)...and the rest for pet projects for their loyal sycophants. The column at left highlights just a few. Maybe that's why "they" are pushing for a paperless economy because there wouldn't be a tree left on earth if they had to actually print all that money?

Something to think about: half the voters are below average intelligence. ***What if only taxpayers were allowed to vote?*** Not such an outlandish concept as our Founding Fathers suggested that only landowners should vote. Just in case you are unaware of the tax burden and how it has grown over the last 100 years, I'm including an article I wrote (*and widely published*) in 2017. We having fun yet?

Switzerland bans face coverings in public, including burkas and niqabs worn by Muslim women. France, Belgium, Germany, the Netherlands, Austria and Denmark have all banned niqabs and burkas in public settings. However, those masks that the CDC says are "up to" 2% effective, are still required. Wonder what would happen if men started wearing burkas? Or the women claimed they were identifying as male? Some background on the Muslim tradition of covering women: seems they don't like to share. Main reason is to keep those nasty male lascivious thoughts from arising. (*Yeah...couldn't help myself*). Wonder when those Hollyweird women will start supporting their Muslim sisters. I can think of several women politicians who should definitely wear them just to save us from the need for eye bleach. Would also cut down on their huge Botox budget.

The daughter of the coronavirus task force director Dr. Anthony Fauci works for the social media platform Twitter. Twitter has been among the big tech companies who have shut down the spread of those arguing against the efficacy of masks and lockdowns to fight the spread of the coronavirus.

Democrats' 'COVID Stimulus Bill' Erases San Francisco's Debt for Speaker Pelosi and Eliminates New York State's Fiscal Year Budget Deficit for Senate Leader Schumer. Los Angeles mayor is getting \$1.35 BILLION. Union pensions (*underfunded and over promising*) are also getting \$86 BILLION of this "Covid" money to make up for the large amounts of union official salaries and benefits drained from the union pot.

Taxpayers will now foot the bill for gender reassignment surgery for active military personnel and veterans, with some treatments costing upward of \$200,000 under an executive order signed by President* Biden. (never...never...never...volunteer)

A Baltimore high school student almost graduated near the top half of his class after failing every class but three in four years. He has a 0.13 GPA. The problem is not standardized testing. It is the lack of education where a student with below a 1.0 GPA could qualify for cum laude recognition in Baltimore. Meanwhile, the head of the largest teacher's union sends her kid to a private school.

Have you noticed that the Lame Stream Media is now focused on how many vaccinations have taken place? And the "shortage" of the vaccine? No longer how many "cases" or lack of testing locations. Doesn't fit the narrative of fear. Bet you haven't heard the reports on the deaths directly attributed to the vaccines.

Remember when Gov Timmy Walz and the mayor of Minneapolis claimed the police murdered poor George Floyd? That trial is underway. Stand by for riots regardless of the outcome. The National Guard is in DC and not available but Timmy did spend millions for barricades around the courthouse.

Let me guess...the barricades were put up with union labor and purchased from one of his campaign donators.
