

Recipe Corner

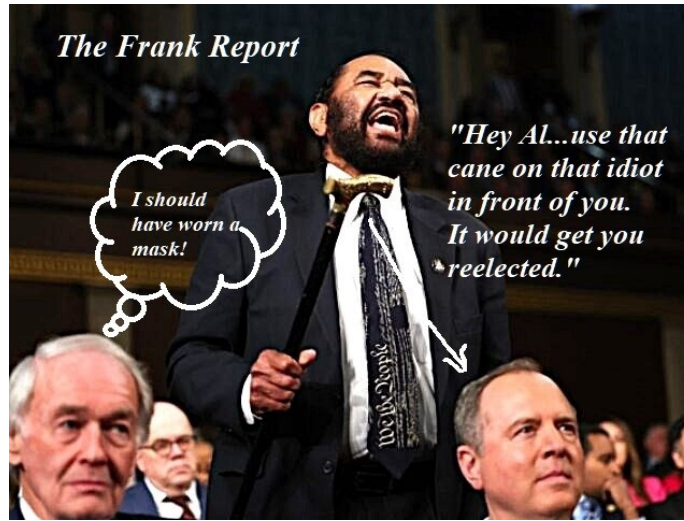

Recipe attached is my favorite as it produces 1 1/2 gallons of chicken broth. That store bought broth I swear is 50% salt. I use two cup containers and freeze it...good for months. One with cup of rice and you'll never use water to cook rice again. Really kicks wild rice up a notch too.

I also get about two pounds of cooked chicken ready for casseroles and soup. I buy the two fryer chickens offered by Sam's Club with total of 3 gallons of broth and about eight meals for about \$10-12.

Why don't eggs taste like chicken? *Maybe I should have saved that for the curmudgeon column.*

BTW: the attached recipe calls for paprika. Spanish is tart while Hungarian is aptly named sweet.

I've always thought cooking was a guy thing because you put pieces together and create something delicious. However, I have a friend who is a mechanical genius but can't even cook an egg. *(Sorry Ralph but Carol is laughing)*

All the news I see fit to print. Freedom of the press belongs to those who own one.

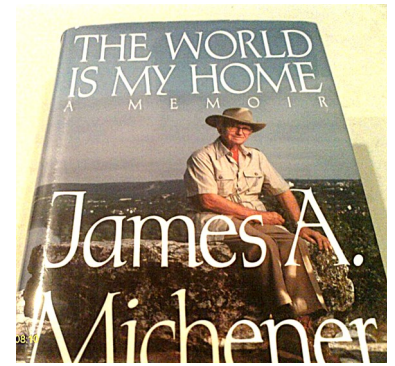

12 billion dollars was allocated to the Navy for submarines and not one submarine was built. 42.5 billion dollars was allocated to hook people up to high-speed Internet, and not one single person was hooked up to high-speed Internet. 7.5 billion dollars was allocated to build EV charging stations. 37 stations were built at \$200 million per charging station.

The Department of Homeland Security (DHS) is ending collective bargaining for Transportation Security Officers because the TSA has more people doing "full-time union work" vs. performing actual screening functions at 86% of US airports with 374 out of 432 airports having fewer than 200 TSA Officers to perform screening functions. The rest paid by the taxpayers but work "full-time on union matters" and do not retain certification to perform screening.

I wonder what would happen if only disabled veterans were allowed to run the Veterans Affairs Department?
Betcha those transgender surgeries would come to a screeching halt.

Book Report

Thanks to Dr. M for sending this to me as I discovered I have not read any of Michener's books although I could sing (OK...croak) most of the songs from the movie **South Pacific**. This book reveals some fascinating background on how the stage play and movie came to be. I have ordered more and, considering Michener wrote over 40, I'll need to build more bookshelves. Heads up for the good Dr...there's a book on it's way to you by friend Daniel Hauser. Will expect a review from Dr. M after reading.

Just one day before Trump was set to be sworn in as the 47th US President, Joe Biden issued a flurry of pardons to his family members, Fauci and others. All of the pardons issued had the same autopen signature. Who controlled that autopen? The pardons are going to be invalid?

AOC (D NY) got dance lessons on 12/13/2024 from Bombazo Dance Co and made the US taxpayer cover the \$850 bill for that "training." On the same day there was \$3,700 paid for more "training."

On 9/18/24, AOC spent \$3,384.74 for food at Taco Bamba Shirlington. AOC pretends to be for the working American, but what she's really doing is wasting tax dollars so she can dance and throw parties. An illegal immigrant who served as deputy communications director for Alexandria Ocasio-Cortez (D) has fled the United States for Colombia, So she was paying an illegal alien on her staff \$80,000 per year with taxpayer money and he likely had a fake Social Security number to receive the payments? eVerify?

Meghan McIntyre bought a foreclosed property in Plymouth MA and on the day she was moving in she got some bad news. A former resident asked her if she could move back in. McIntyre declined, but the courts overruled her decision, and now she has to pay rent for an apartment while also covering the mortgage on a home she has never lived in.

Where in hell do they find these "judges"?

Elon Musk, uncovered that the Small Business Administration (SBA) issued approximately 5,600 loans totaling \$312 million to borrowers listed as 11 years old or younger during the Covid-19 in 2020 and 2021 and also approved 3,095 loans worth \$333 million to borrowers over 115 years old. One 157-year-old scored a cool \$36,000.

Six Criminals Were Pardoned with Biden Autopen – *Signed in the City of Washington* – On Same Day Joe Biden Vacationed and Golfed in St. Croix. What else was "signed"?

Tidbits

(a small and particularly interesting item of gossip or information)

John Podesta, Biden's climate czar, doled out \$375 billion in spending, which had been sent to climate change charities founded only months ago.

Report: 341 federal grants totaling \$128 million for gender research including \$600,000 to study the menstrual cycles of "transgender" men.

Jobs Report Shows 284,000 More Americans Working and 87,000 Fewer Foreign-Born Workers.

Department of Veterans Affairs (VA) has uncovered and cancelled a \$56,000 contract it was paying to a "plant contractor" to water eight decorative potted plants. Elon Musk said DOGE would water them for free.

500M Europeans Are Begging 300M Americans for Protection from 140M Russians Who Have Been Unable to Overcome 50M Ukrainians for Three Years.

NASA has lost 42 spacecraft and 17 astronauts. DoD has lost 550 spacecraft. Space X has lost 9 spacecraft out of 477 launches, the ones lost are EXPERIMENTAL.

Elon Musk Says X Website Outage Caused by Cyber Attack from Ukrainian IP Addresses. FAFO?
I was guessing Bill Gates.

Until next week...
