For some reason, my kids don't like nuts. Here's a recipe for **Chewy Pecan Cookies**
I snuck past their bias:

Ingredients

- 1 cup butter, softened
- 1 cup sugar
- 3/4 cup packed brown sugar
- 3 eggs
- 1/4 cup milk
- 1 teaspoon vanilla extract
- 2-1/2 cups all-purpose flour
- 1 tablespoon ground cinnamon
- 1 teaspoon baking soda
- 1 teaspoon salt
- 1 teaspoon pumpkin pie spice
- 2 cups quick-cooking oats
- 2 cups mixed dry fruit bits
- Cup of milk chocolate chips
- 1-1/2 cups chopped pecans

Directions

In a large bowl, cream butter and sugars. Beat in the eggs, milk and vanilla. Combine the flour, cinnamon, baking soda, salt and pie spice; add to creamed mixture and mix well. Stir in the oats, fruit and nuts; mix well. Drop by TBS two inches apart onto greased baking sheets. Bake at 350° for 10-12 minutes or until light golden brown. Remove to wire racks to cool.

Caution: *wound up with three dozen...I should have read and cut the recipe? They freeze well.*

This is why 16 year olds aren't allowed to vote.

Weird Thoughts While Thinking About News Found On:

More people in US have died trying to testify against Hillary than from the beer flu.

First Point of Joe Biden's Coronavirus Action Plan is to Stop "Racism" (see thefrankreport.net/frogs-racism-and-the-n-word)

Majority of U.S. deaths to date (31 of 40) have occurred among the elderly in one nursing home. (*kids are calling it the "boomer remover"*)

Fights, Thefts, Arguments as Toilet Paper Mania Wipes Across Globe (*if they need that much toilet paper, they should have consulted a doctor sooner*)

Wonder what those people in Flint Michigan are washing their hands with?

Professors being forced to use dozens of personal pronouns claimed by their students. Gender "reassignment" surgery offers only two genders?

Starbucks has issued **coughy** filters for all baristas.

Given the public's reaction to the beer flu, maybe that's why they haven't told them about Area 51?

Disaster movies usually start with politicians ignoring scientists.

Beer flu doesn't kill children so Pelosi added funding for abortion to the pandemic bill.

Gasoline prices well below two bucks so President tops off the almost trillion barrel Petroleum Reserve. California prices highest in nation because of taxes on the nation's highest number of cars.

Democrats push for closing all schools but lobby for open borders. Duh?

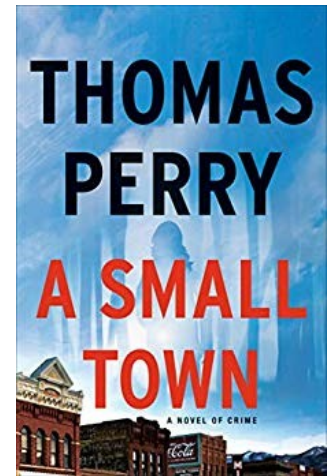

Christian megachurch has cancelled "faith healing" service due to beer flu.

Fourth grader working at CNN: *"there was this virus then the world ran out of toilet paper and then there was no school like for a month".*

Book Report

Perry is on my favorite list.

This one is a literal riot with a prison unleashing 1200 dangerous inmates unto a small town. Fast action as the hero tracks down the 12 ring leaders. **Jack Reacher** abilities in a tall female cop; sure to promise more from her in the future from Perry.

FBI agent Pendergast's only clue this time is 100 pairs of amputated feet washing up on a beach in Florida. This one will keep you guessing until the last few pages. Start read early or you'll be up all night.

Remember those people who bought all the toilet paper? Caught one getting ready for self quarantine.

With the bars closed on St. Patrick's Day, there's a terrifying consequence: sober Irishmen. God gave the Irish some amazing traits but invented whiskey to keep them from taking over the world.

Looks like the Democrats have picked Joe as their candidate. For a party infested with pedophiles and rapists, they would seem to add elder abuse to their reputation. They have coalesced a formidable group to include the lame stream media, academia, Hollyweird and attorney generals hell bent to prevent voter ID. They took for granted the black vote seemingly becoming woke to the broken promises of the past 50+ years. The coalition may not hold together?

THE DEMOCRAT PARTY & MAINSTREAM MEDIA

One of the stories these "journalists" have ignored: The **DoD Jedi \$10billion contract** awarded to Microsoft with Amazon protesting and now looks like it will be split. The top secret data involved will be with one or both companies rather than protected within the DoD. Dig deep and you'll find data processing (the cloud) by these two companies is main source of income ...60% for Amazon which explains how they can undercut competitors on the retail side of their business and ship a \$10 item free overnight while dictating price for any business using their retail service. Dig further how Amazon is trying to overwhelm India's local business community with pricing that is below manufacturing cost. Amazon's stock price (\$1700+) is direct result of Wall Street support which allows them to operate at a loss until competitors give up.

Your dictionary explains this with one word: monopoly.

Compare the business practices of Jeff Bezos with Elon Musk. Politicians hate Musk because he just launched space craft for 10% of the NASA cost. At least NASA is now contracting with Musk for rockets.

We now return you to regularly scheduled broadcasts featuring the shortage of toilet paper because President Trump.
