

Recipe Corner
Blueberry Cornbread

Ingredients:

- 1/4 pound butter (1 stick)
- 1 cup granulated sugar
- 2 eggs
- 1 cup yellow corn meal
- 1-1/2 cups flour
- 2 Tablespoons baking powder
- 1/2 teaspoon salt
- 1-1/2 cups milk
- 1/2 cup blueberries

With an electric mixer, cream butter with sugar. Add eggs and corn meal. Sift the flour, baking powder, and salt onto a sheet of waxed paper. Add 1/3 of the flour mixture to the corn meal mixture, then 1/2 cup milk. Beat. Repeat twice until you have used all the milk. Stir in the blueberries dredged with flour. Turn into an 8 inch greased square pan. Bake in a moderate (375o) oven for 40 minutes or until a toothpick or stiff straw comes out dry. Serve hot. *(This recipe freezes well, and when thawed in a microwave or oven on low heat, it tastes freshly baked.)*

This is a typical Facebook user who is **shocked...shocked, I say...** that Mark Zuckerberg would share their personal information with anyone who paid him. How do they think Zuckerberg wound up with a net worth of **\$72.5 BILLION**? Before the internet, this game was played with mailing lists. Direct mail was used. You can get any mailing list...and now, email list, by paying a list broker. Emails, BTW, are worth 10cents each thus the spam game.

THE FRANK REPORT

3.24.2018

*All the news I see fit to print.
 Freedom of the press belongs to those who own one.*

This is **Christopher Wylie**, a gay Canadian vegan who worked for Facebook for several years. He was a PhD candidate in "fashion trend forecasting" and used Facebook accounts to create psychological and political profiles.

This is **Mark Zuckerberg** who promised Facebook accounts that their privacy will always be protected. He then allowed **Carol Davidsen** of the Obama admin unlimited access to the database.

This is **Steve Bannon** who paid Cambridge Analytica to data mine the Facebook accounts they bought (2016) from Facebook to include all of the "likes" tied to the accounts to connect with voters for the Trump campaign.

This is **Carol Davidsen** of the Obama admin who did not share their (2012) Facebook database with Hillary Clinton.

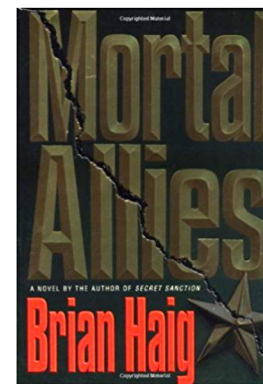

This is **Hillary Clinton** wondering What Happened? **Cambridge Analytica** happened...a name you'll see in the news but this should give you the basic story the lame stream media will screw up.

 you don't know you're dead.
 The pain is felt by others.
 Same thing happens
 when you're stupid.**

Book Report

Haig's 2nd book from 2002; spy networks in Korea. His Sean Drummond character very well defined. Read Haig's bio and you'll find likely source of his knowledge of the geo-political scenarios. This one kept me up until 4am...almost 500 pages.

Haven't read a Grisham novel for years since his political left leanings were blatant in the plots. Nothing has changed; illegal immigrants good...FBI and ICE bad. Fraud against big business good...bad guys live happily ever after. Consolation was getting it from the library while Haig novels are among my paid library on my eBook. While Grisham is good at creating characters, I wouldn't trust any of them.

Spring is here and in spite of a few snow flurries, the sun is a welcome treat for The Boys. The deck faces south so big windows and lots of rays.

Now have three apple trees growing from seed. The other pan is for cat grass...yes, they sell a specific grass seed for the spoiled little shtz. They'll probably express their gratitude by squatting in it...which is why I have the blinds down far enough to prevent that...I hope. Fully expect them to ignore the grass and eat the trees...then throw up.

Meanwhile...in Boston...

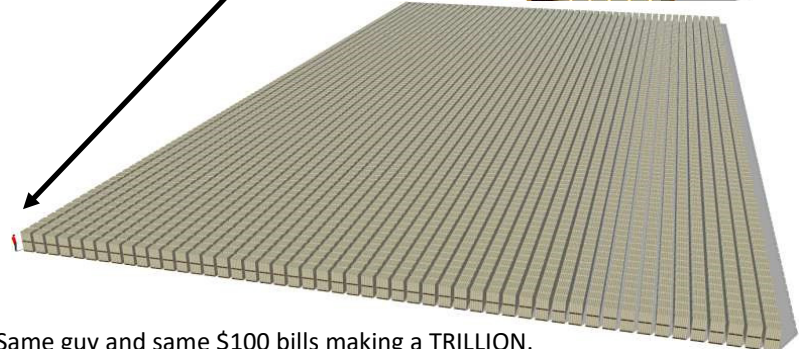

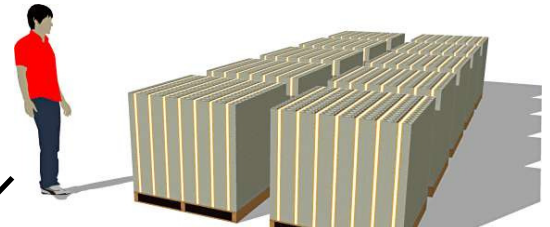

Past experience should have been a warning but, like they say, doing the same thing over and over expecting different results?

Slowly but surely purging old client and house files and creating new ones. Peter chews on the folders and spreads them out overnight. Paul (see arrow) is also very "helpful". Never a dull moment with them.

Those are pallets of \$100 bills making up one billion dollars. You ready for this?

Same guy and same \$100 bills making a TRILLION. Just to give you some idea of what those congress critters are doing. Do NOT tell them what comes after Trillion! I still think we should have elections end of April just after we've paid our taxes. No wonder Democrats want to confiscate guns. Rope next?
