IDIOT OUTSIDE

Been using a virtual private network (VPN) so my computer appears to be in another country and can't be traced back here. Selection of the countries available includes Ukraine so I use that when accessing any government website. Local newspaper websites block access when I do. Wonder what that's all about? The VPN is free with Norton.

If I turn up missing, put my picture on wine bottles and not milk cartons so my friends will know I'm missing.

Or single malt Scotch.

All the news I see fit to print.

Freedom of the press belongs to those who own one.

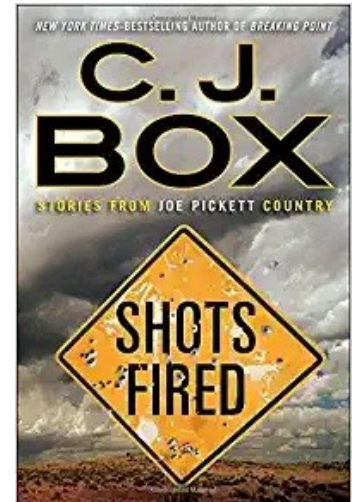

Why did Dr. Fauci's National Institute of Allergy and Infectious Diseases pay a total of \$7.4 million to the Wuhan Institute of Virology lab? Did the research on natural vs man made virus study transfer to Wuhan because natural virus cannot be patented and development of man made virus is against international law? Does Dr. Fauci have a monetary interest in the patents? Why is Dr. Fauci the highest paid federal employee? Why can Dr. Fauci profit from the patents developed by his federal agency? If Dr. Fauci has been vaccinated, why does he wear a mask. Why did Twitter hire Dr. Fauci's daughter? Where is Dr. Birx (*the scarf lady*)? Why does Bill Gates own vaccine patents?

(12) United States Patent Bickerton et al.	(10) Patent No.: US 10,130,701 B2 (45) Date of Patent: Nov. 20, 2018
(54) CORONAVIRUS	OTHER PUBLICATIONS
(71) Applicant: THE PIRBRIGHT INSTITUTE, Pirbright, Woking (GB)	Sperry Journal of Virology, 2005, vol. 79, No. 6, pp. 3391-3400.* Altschul et al., Basic local alignment search tool. <i>J. Mol. Biol.</i> 215: 403-10 (1990).

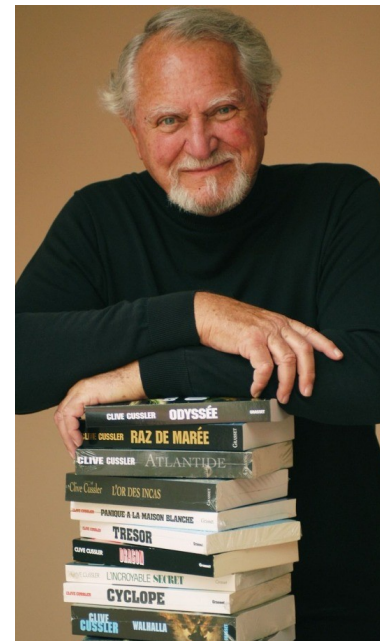

Again we ask...if natural virus cannot be patented...and man made virus is a violation of international law...what is this patent all about and who financed it and who owns it?

Bon Mots

Forgive your enemy but remember the asshole's name.

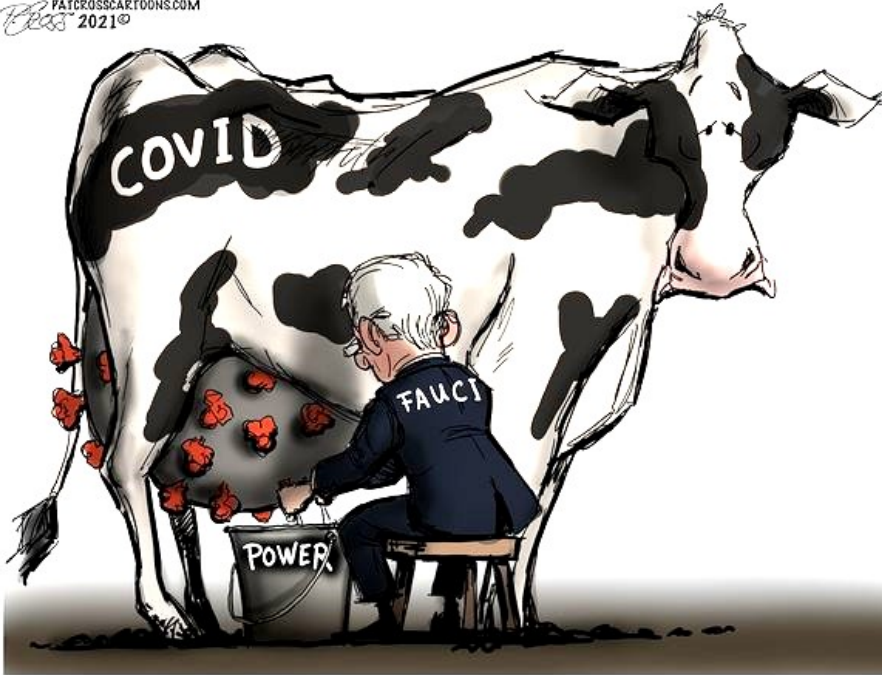

Collection of short stories. Harder to write and shows his talent. Some of them were expanded into full length novels or substantial elements of plots.

Binging on Cussler's 50 books and two movies. Sadly, he died last year. Check out his life. Very inspirational. Co-authors keep his characters going like Tom Clancy's? Hope so.

Fauci isn't the only one milking this COVID thingy for all he can. Gov Timmy Walz is up for reelection in 2022. He's hoping to hang onto his "dials" and that maybe HR1 will pass so Illness Omar (or whatever her name is) can show him how to harvest ballots. When President Trump quit the World Health Organization, Bill Gates became their main source of funding. This gave Gates GAVI vaccine alliance a special relationship with...well, I'll let you do the research so you'll believe your own facts rather than relying on me to document it. I'm just amazed at how much money Gates has but not a lot of common sense to go along with it considering the drastic "solutions" he has for assumed world problems. Then we have the unintended consequences from the Lame Stream Media's dire predictions about how the pandemic is going to kill you if you don't follow the governments edicts. With their approval rating in the gutter, why would we believe them that we should get the vaccine? The anti-vaxxers document the deaths and adverse reactions from the vaccine but the LSM have ignored those reports which automatically makes people think they are real since the LSM avoids facts. Then there are the politicians (which includes Fauci) who boasted about having received the vaccine but still wear a mask. Given the amount of confusion, I'll pass on both the mask and the vaccine until they test all three varieties of the vaccine on the Democrats and RINOs.

A bank is a place that will lend you money if you can prove that you don't need it. You're welcome.

More telemarketing fun

For some reason, AT&T keeps calling me to offer a new deal for "current" customers. After explaining half dozen times that I am not now and never have been an AT&T customer, they continue to call. I now provide the AT&T phone number to the spam emails asking me for my phone number so they can tell me about their new car insurance.

Y'all be sure to leave those Biden signs in your yard...so people will know where to siphon gas when it's \$8.00 a gallon.

'I'M SORRY SIR BUT YOU NEED TO MOVE ON IMMEDIATELY..'

'THE MIGRANTS IN THE HOTEL ACROSS THE ROAD HAVE COMPLAINED ABOUT YOU'

Joe Biden's plan to house migrants in hotels will cost taxpayers about \$72,000 per border crosser. Biden awarded an \$86 million contract to pay for hotel rooms for six months in the U.S. for about 1,200 migrant families.

I'm driving a 1992 Miata getting almost 40mpg so I don't pay too much attention to the price of gas but I checked and sure enough, it's gone up a buck already.
