

Hiding in plain sight?

President Trump has now publicly ordered federal agencies to start identifying and releasing government files tied to "alien and extra-terrestrial life," UAPs, and UFOs. That directive hit on February 19, and the message from the White House was basically: *"the public wants answers, so start opening the vault"*.

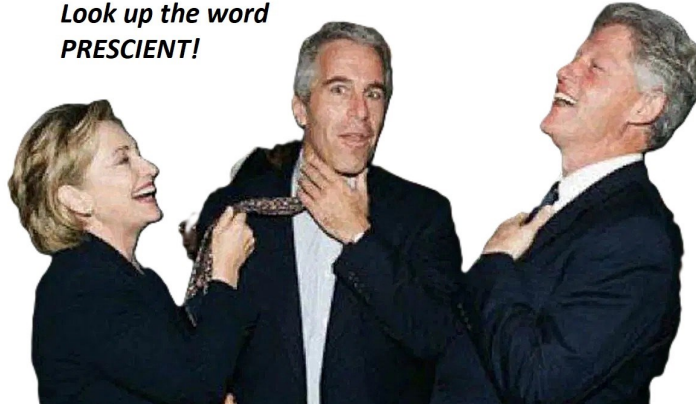

The FBI files are starting to trickle out, notably the 1947-52 Roswell, NM alien spaceship crash. The CIA, NSA and major alphabet agencies are reluctantly dribbling out their files which will keep the UFO enthusiasts busy for years to come. I always found the subject fascinating as it destroyed the hubris of humans thinking they were the only scient beings God may have created in the entire universe...and what a revelation for organized religion that fostered this hubris and insisted that the Bible proved it. *Ooopsie!*

At least space aliens learn English and eventually go home but lock their doors on the way back.

All the news I see fit to print.

Freedom of the press belongs to those who own one.

Epstein investigations have expanded globally following the release of over 3.5 million documents by the U.S. Department of Justice in late 2025 and early 2026 under the Epstein Files Transparency Act, which was signed into law by President Donald Trump after a near-unanimous congressional vote.

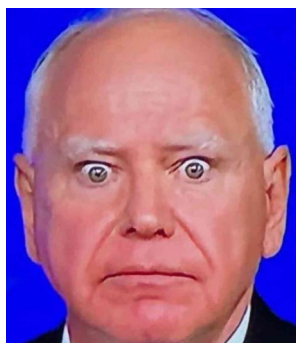

The **UK**, where Prince Andrew and former ambassador Peter Mandelson were arrested on suspicion of misconduct in public office. **Norway**, where former Prime Minister Thorbjørn Jagland was charged with aggravated corruption. **Turkey**, where prosecutors are investigating allegations that Epstein trafficked minors from Turkey and other countries.

The Lame Stream Media has focused on the sex while ignoring the larger issues of money laundering, drug trafficking and the blackmailing of politicians. Latest theories has Epstein still alive with a body double replacing him in that jail cell where he had an episode of one of Hillary's famous suicide events. Additional theories has him as a CIA agent thus the blackmailing theory.

Huge money laundering is also top of the list for his actions when you consider the expensive property he owned.

As usual, the Democrats had another shot to their foot when they tried to tie Trump to Epstein only to find out Trump was the one who blew the initial whistle on Epstein when he literally had Epstein thrown out of Mar A Lago.

Stay tuned as the Lame Stream Media will be forced to report (*late Friday nights*) of more facts about Epstein over the next decade. Makes you wonder where he's hiding right now.

Meanwhile, here in MN the walls are closing in on Timmy and his buddy AG Ellison. Beyond all the fraud already under investigation, new details have emerged about the autism treatment centers. There are 500 now identified and the taxpayer money involved grew from \$1 million to \$343 million while Timmy was in charge.

Bill Clinton got \$12 million for his memoirs. Hillary Clinton got \$8 million for her memoirs. That's \$20 million for memoirs from two people who have continually testified, under oath, that they couldn't remember anything.

Epstein visited the White House 17 times while Bill was president, Epstein also donated millions to the Clinton Foundation. Hillary says she never met him but she invited Ghislaine Maxwell to Chelsea's wedding? The millions spent on that wedding came from the Clinton Foundation which Ghislaine helped Hillary setup.

During her deposition for the House Oversight Committee's Jeffrey Epstein investigation, twice-failed presidential candidate Hillary Clinton stormed out of the hearing after it was discovered that photos from the hearing were being leaked to the public. The former first lady and Obama admin official told lawmakers she had no recollection of ever meeting Epstein and that she only briefly knew his accomplice, Ghislaine Maxwell.

Meanwhile, Bill Clinton denied any knowledge of Epstein's crimes and said : *"I saw nothing, and I did nothing wrong."* He described his relationship with Epstein as a "brief acquaintance" that ended years before Epstein's criminal activities were public.

Experts warn that we are running out of conspiracy theories and suggest using AI.

This is the roof of the US Embassy in Tehran in 1980. American hostages held for 447 days while Democrats pondered what to do. Reagan elected and hostages released after sanctions and frozen assets.

Now, almost a half century later, America had enough "Death To America" rhetoric and Trump launched Epic Fury. Some of the "kick the can down the road" actions taken prior to the ass whooping:

Hillary Clinton supplied Iran with uranium to enrich their nuclear program.

Barack Obama sweetened this Iran nuclear deal by giving Iran access to \$56B and said "Our best analysts expect it to improve the economy and benefit the Iranian people." That money fueled Hezbollah, the Houthis, Hamas, and the campaign to destroy Israel.

Joe Biden lifted the asset freeze and sent an additional \$16 billion to Iran. He probably thought they needed it to buy more American flags to burn?

Iran became hell bent to build nuclear weapons. Trump responded with a destruction of those known facilities. Iran then claimed they had saved enough enriched uranium to build eleven bombs.

Democrats are now aligning themselves with Iran and the religious fanatics that run it. Some primarily because of TDS (Trump Derangement Syndrome).

If you don't find that disturbing, consider this:

New York City Mayor Zohran Mamdani identifies as a follower of Twelver Shia Islam, the same sect as Iran's ruling ayatollahs. Mamdani has described the strikes against Iran as "a catastrophic escalation in an illegal war of aggression."

Closer to home, MN elected Ilhan Omar. Her father was a senior Somali Military official - Colonel Nur Omar Mohamed. Colonel Mohamed led the Isaaq genocide massacre of 200,000 civilians in Somaliland.

Now Rep. Angie Craig (D-MN) says she regrets supporting the Laken Riley Act, distancing herself from the legislation passed with bipartisan support after the 2024 murder of a Georgia nursing student by an illegal alien.

During Congressional testimony, turns out Gov Timmy ignored the fraud in MN because the Democrats relied on the (illegal?) alien vote.
