

WHO is not about owls. It's the World Health Organization and their decades of work bringing clean water, hygiene, nutrition and economic development to the third world. Gates and Fauci were able to infiltrate this organization and impose their vaccine fetish (and profit) motivations while diverting funds away from the key elements of proven success to vaccine testing that bypassed FDA regulations by using third world human test subjects.

This week's book documents how it literally killed many of the children tested while adding female sterilization as an added benefit for the Gates fetish: population control. Fauci seems to be a multitasker as we now have 69 doses of 16 vaccines for our children. None have been tested for safety but are required by some US school districts.

**MN requires:** "no less than one dose of vaccine each for measles, mumps, and rubella given separately or in combination; no less than four doses of vaccine for poliomyelitis, unless the third dose was given after the fourth birthday, then three doses are minimum; no less than five doses of vaccine for diphtheria, tetanus, and pertussis, unless the fourth dose was given after the fourth birthday, then four doses are minimum; and no less than three doses of vaccine for hepatitis B". **NONE have been tested for safety.**

## The Frank Report

*All the news I see fit to print.*

*Freedom of the press belongs to those who own one.*

Dr. Anthony **Fauci meet with Bill Gates** of the Bill and Melinda Gates Foundation to discuss research opportunities in global health in **June 2017** at NIH. Fauci has had a fetish for vaccines for 50 years while Gates has invested heavily in vaccine companies. Is it a coincidence that we had the following emergencies that required vaccine emergency use authorization with taxpayer money but no liability?

Above are the half dozen "emergencies" Fauci used to gather billions of taxpayer money for vaccines. The "emergencies" never met his level of hype even though the Lame Stream Media loved him for the headlines and click bait but never held him accountable for not delivering vaccines that could be proven effective against the threats.

With the COVID "emergency", Gates would show Fauci how they could maximize the emergency and profit...for both Gates and Fauci's domination of US Health Departments.

### Book Report

Don't let the size (964 pages) keep you from reading (or at least skimming) this one. It's the second of the three free eBooks I mentioned in an earlier newsletter. *Takeaway:* Kennedy still does not like Trump but he absolutely despises Fauci and Gates with proof of how they have literally murdered people to advance vaccines and other protocols that created 437 new billionaires during the pandemic (all directly or indirectly tied to Fauci and Gates). Big Pharma has led this assault as Fauci banned existing drug protocols in favor of the new ones.

*Example:* IVM and HCQ less than a dollar a dose versus Big Pharma's new (and proven very dangerous) remdesivir at \$3000.00 a dose. The Hippocratic oath was destroyed as doctors lost their license because they prescribed the "wrong" drug. Walmart and CVS pharmacists were given the "authority" by politicians to refuse to fill any Rx. The clueless Lame Stream Media and social media canonized Fauci and Gates while the facts (not opinions) documented in this book were ignored or condemned. Kennedy is running against Biden to increase awareness of these problems.

One conclusion of the book is the use of pharmaceuticals to replace health from your auto immune system. Given the deaths in third world experiments, it also will solve the population problem.

Ukraine's government has been caught embezzling "at least" \$400 million in taxpayer-funded U.S. aid that was meant to help the nation's war effort amid the Russian invasion.

Investigative journalist Seymore Hersh has revealed that President Zelensky, senior Ukrainian government officials and thirty-five generals embezzled funds meant to buy diesel fuel for Ukraine's army. The CIA discovered the scheme and found that the nation's leaders were stealing the money to buy luxury cars and other items and live lives of opulence.

*(I wonder if Joe got his 10%?)*

**It's not all bad news:** Apparently Mitch McConnell is going to retire from his duties as leader, and presumably the Senate itself following a nasty fall that hospitalized him last month with a concussion and broken ribs. One down and lots more to come before Trump returns to the White House. President Trump will appoint 100 U.S. Attorneys who will be the "polar opposite of the Soros District Attorneys" who are destroying the rule of law in America, overhaul the Department of Justice, and order civil rights investigations into Marxist local district attorneys.

Democrat state representatives switching parties and one special election over the last month gave Republicans three new veto proof supermajorities in state legislatures, bringing the total to 25 nationwide. The next paragraph will explain why this is so important.

If you older readers will make sure the kids today start reading history and the battle between Jefferson and Hamilton re: federal vs state control...they'll start to understand and support Governors like DeSantis of Florida and Sanders of Arkansas telling the federal government to butt out of state issues.

Douglass Mackey, the Twitter user "Ricky Vaughn", posted a meme in 2016 joking that Democrats could "text" their vote for Hillary to "save time" instead of going to the polls.

As soon as the Biden administration took over, the DOJ indicted him, over four years later, and sentenced him to ten years in prison. Now check that picture again.

That's not Ricky.

Well, at least those mask mandates are coming to an end as Biden signed a law ending the pandemic.
