Gourmet popcorn and butter flavored coconut oil

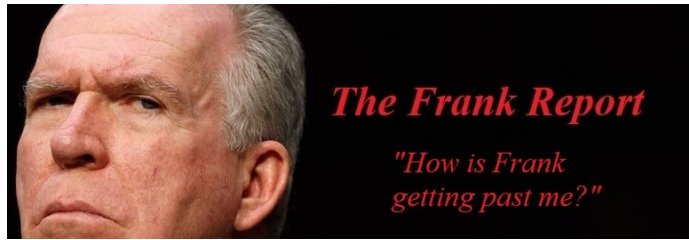

Ordered just in time for the box of dvd's friend Dr. Mike Marshall sent. The Boys enjoy popcorn...or at least the butter and salt. I also use popcorn salt but just the plain although they offer various flavors. Then there is powder you can add including cheese and jalapeno peppers. The "mushroom" designation for popcorn refers to the huge size of the popped kernel. Works best for candied or caramel popcorn. Also for packing material when mailing delicate items....like jars of gourmet popcorn?

Weather is getting better so wondering what to plant for this year's garden.

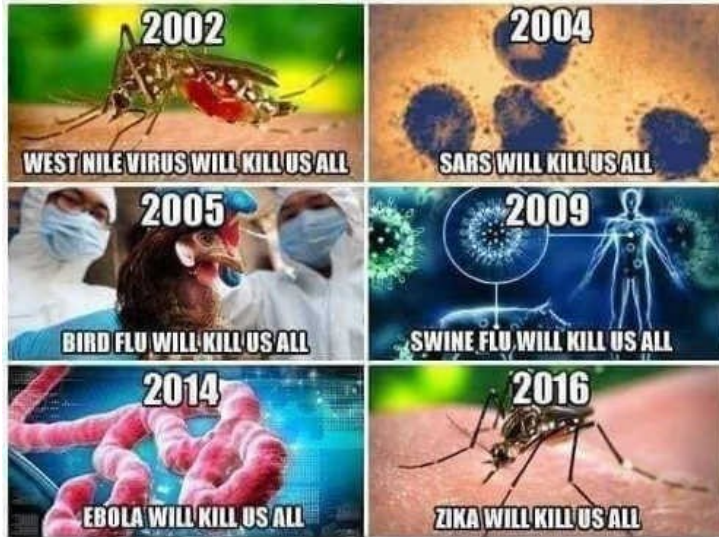

I'm sure DiL Brenda will keep me out of trouble.

All the news I see fit to print.
Freedom of the press belongs to those who own one.

Time to look in the rear view mirror.

Politicians (that includes you Fauci), "journalists" and anyone bereft of attention used the China flu as a foundation for click bait to bolster their "likes" and "followers". Knowing what you now know, how far would you have gone to reach lockstep with this crowd. Still wearing a mask after getting a shot? Thrilled that you got the shot when the Lame Stream Liars pushed the false news about shortages? Have you figured out that the flu has disappeared after the China flu showed up in the body count? Lame Stream Liars castigated real doctors while hypoing the medical expertise of Bill Gates...duh?

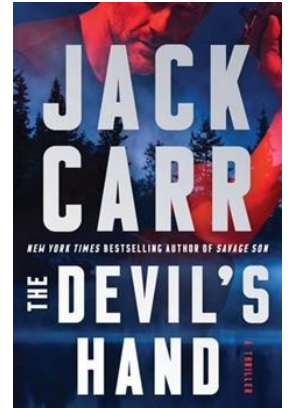

Remember to follow the money:

It would appear that Pfizer is putting pressure on the FDA to place holds on their competitors' vaccines. Pfizer was the company that President Trump dragged kicking and screaming into the vaccine development effort. They waited two days after the 2020 election to announce they had one.

Next comes the hold on everyone but Pfizer because of adverse effects of the vaccines. Only six reported but the hold is suspicious as over seven million vaccines had been pumped into arms. That's less than one in a million adverse effects... which leads to the suspicion that there are more than those reported..."reported" is the key word as the Lame Stream Liars are continuing to shame people because they haven't had the shot. While the pharma companies fight over which vaccine should be used, Fauci says it doesn't matter since you need to wear masks and maintain social distance if you get one of the vaccines. Then why in hell do you need a vaccine...or a mask?

Bon Mots

Why do politicians have ideas so good they have to be mandatory?

Book Report

Just released fourth in the series by retired SEAL who obviously has access to some of the scary scenarios in the anti terrorism battle. The book is great but the info he provides about his research is really scary.

Meanwhile on the internet, LeBron James claims to be an important voice in the BLM discussion. Best response: "You can shoot balls into a hoop...a trained seal can do that."

Then this from Special climate envoy John Kerry speaking at Joe Biden's Leader's Climate Summit:

"Even if we get to net zero, we still have to get carbon dioxide out of the atmosphere." Then where would his wife's Heinze company get the tomatoes since plants can't live without CO2?

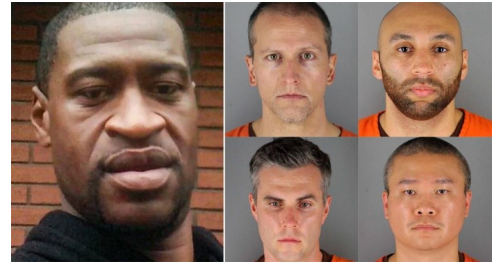

-more-

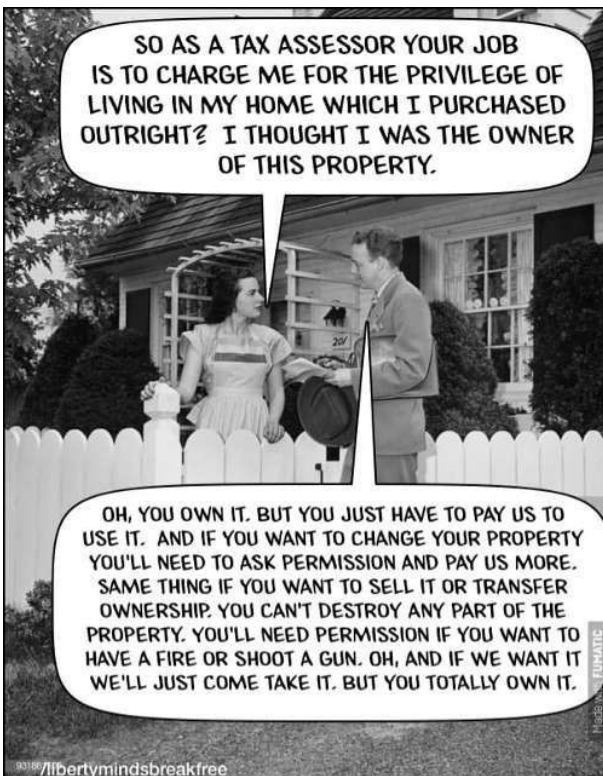

Who is that...uhhh...person giving Gov Timmy two thumbs up?

I did some digging and found out she...yes, she is Nic Zapko; one of many sign language “experts” the Democrats keep on hand to enhance their press conferences. Virtue signaling is better than common sense...why is the sign language lady better than closed captioning for these sessions? Is she there for the deaf reporters? Why isn't this lady available to the small percentage needing her services...on a split screen option as is closed captioning? My wife was in charge of the MN program for aid to disabled citizens including deaf and blind. That's why I know there are several sign “language” modalities and the two main groups are in constant battle to get access to the welfare budgets. Apparently Ms (I'm assuming that's her/she/it's preferred pronoun) is not listed in the 128,000 MN employees website so I couldn't find out what they are paying her. However, “experienced” sign language employees make six figure salaries or \$50/hr if contracted. Closed captioning costs that much? Fixing this technology gap would deprive the politician of the political optics value but would help a lot more hearing disabled people.

*You made mistakes when you were younger?
 Now that you're older, your mistakes will be far more serious.
 You're welcome.*

*“We have never seen a criminal proceeding with this level of pressure on the jury to convict. Everyone from the President to the Governor to the Mayor to the press to major corporations and social institutions—not to mention thousands of rioters and demonstrators—weighed in against Chauvin. Likely Chauvin never had a chance”...APRIL 21, 2021

About that scene at left: Property tax bills coming soon. Interesting that my taxes in MN are twice that of AZ on the same priced home. Also noticed that the tax evaluation of current one has gone up almost \$50K which may be a subtle way to force people on fixed incomes to sell their homes so the taxes can continue its climb upward. Getting lots of calls and emails wanting to “help” me sell. Interesting...

My two cents: justice is patient and will outlast the hysteria of the mob. How Chauvin can be guilty of killing someone who died of an overdose of drugs is bewildering. And guilty not once...but three times.
