

Health Update

Daughter Margaret chauffeured me for latest visit to VA headquarters for a CT scan for my double vision symptom. At the main entrance, we saw what looks like a body tucked into a corner. Yes, it's actually emergency equipment but it did cause a second look as we passed by.

We pointed it out to an obvious care taker in scrubs going by and was rewarded with laughter. Yes, they have a sense of humor.

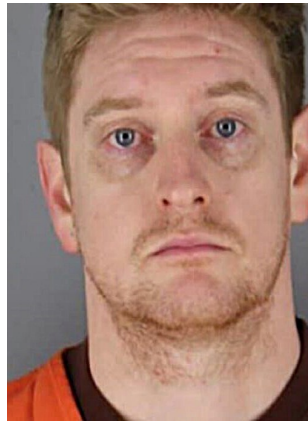

I'm experimenting with a bread recipe : all ingredients (3 cups warm water, 1 tsp kosher salt and 6 1/2 cups flour) into a pot...let it sit for five hours, then into the fridge **for two weeks**.

No explosion yet and it's supposed to be great for fry bread. Ready next week. Fingers crossed!

33-year-old Dylan Bryan Adams caused \$20K+ damages across the Twin Cities. The kicker: Adams works as a Fiscal Policy Analyst for the State of Minnesota. He was caught on camera yet a Soros Backed County Attorney Mary Moriarty Says He Won't Face Criminal Charges For Vandalizing at Least 6 Tesla's – Police Blast Her Decision. Moriarty received over \$500K from Soros.

This is just one of several attacks on Tesla and the result is an insurance company pays Elon to replace or repair the damage. Digging deeper, I found the following very interesting back story involving Obama: **Obama gave out \$2.4 billion in loans to EV companies, including \$465 million to Elon's Tesla. Every one of them folded, filed bankruptcy and robbed the taxpayer of the money. Elon Musk's Tesla paid back \$465 million loan early, including the \$20 million interest.**

If you're wondering if those attacks on Tesla vehicles had any impact: TESLA OUTSOLD THE NEXT 10 EV BRANDS COMBINED IN Q1 2025 Tesla remained far ahead of the competition in Q1 2025, selling 128,100 EVs — more than the next 10 brands combined. The Model Y and Model 3 continued to lead the charts, showing Tesla's strong grip on the U.S. electric vehicle market. Overall, EV sales in the U.S. grew to nearly 300,000 units, with Tesla driving the momentum forward. Democrats are destroying Tesla's owned by other Democrats so insurance companies will buy another one from Elon to replace them.

Elon hopes this is one stupid that won't get fixed?

Disney remake of the movie "Officer and a Gentleman"?

That "officer" is obese and thinks he's a woman...and was put in charge of our health. The "gentleman" thinks he's a woman and was put in charge of our nuclear waste program.

High road or psychopath?

With a record-setting \$19 billion surplus in 2022, larger than the full budgets of 20 U.S. states, Minnesota learned earlier this month that it faces a staggering \$6 billion budget deficit. In 2023, Walz and his Democrat allies in the legislature embarked on the most reckless spending spree in Minnesota history, funneling billions into pet projects and giveaways for every left-wing constituency imaginable. The surplus wasn't used to shore up Minnesota's long-term financial stability or to return the surplus money to taxpayers.

Timmy is undecided right now whether he will run for Tina Smith's senate seat or go for president in 2028.

Let's help him decide!

About those COVID vaccinations: 38,541 deaths. 220,494 hospitalizations. 73,311 permanently disabled. All after mRNA shots. This is from the CDC's own data. They want us to still think they're "safe and effective"? mRNA injections may reduce life expectancy by up to 37% , a loss of nearly 30 years. Timmy did spend millions on a refrigerated warehouse to store the bodies in Minnesota but never got the bodies so he sold it at a huge loss.
