

Recipe Corner

Have a son-in-law (Scott Watry) who shares venison sausage; then introduce grandson to venison with sauerkraut and boiled potatoes. He liked it. (Note the German "lemonade").

Hunting is a big tradition in our family. My mother's younger brother Mike is 92 and has hunted deer every year since he was ten; last year too. Daughters Margaret (left) and Mary also good shots; Mary beat me last time I competed. Son William (below) and the famous double clay shot that cost me the price of a new shotgun for him at the Newcomb family reunion many years ago. He still has it.

THE FRANK REPORT

4.28.2018

All the news I see fit to print.

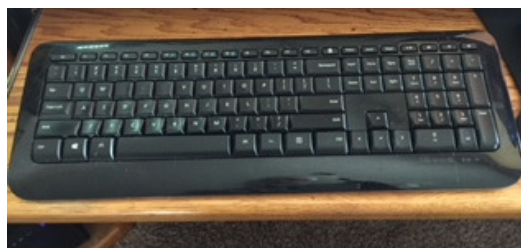

Freedom of the press belongs to those who own one.

Uncle Chris helps grandson Shane zero in on 25 yd target at a local gun range. First time with gun.

Nice grouping even with trouble we had calibrating the scope. Guy in lane next to us was firing 50 caliber so ear protection mandatory. Some interesting comments on Facebook when he gets back to Boston? I'll head slap any teacher who complains.

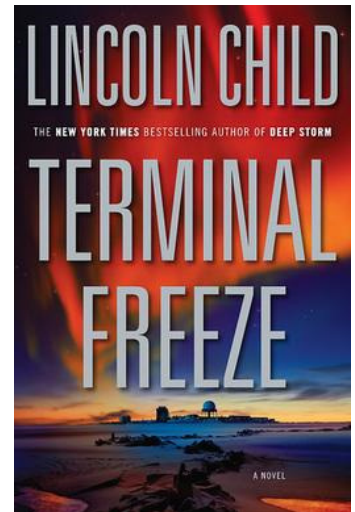

Got tired of my old plastic keyboard...

...new one is like old fashioned metal keyboard with click sounds and back lit with LED's. I used to pound on a manual typewriter so this should be fun. Still doesn't spell worth a damn!

Bon Mots

Reality is the leading cause of stress among those in touch with it.

Book Report

Been a while since I read one of his books; same formula: evil creature comes alive while scientists complain about global warming. Made it through 3/4 of the book before I gave up. Just this book as grandson here. I asked if he had seen *Hunt for Red October* with Sean Connery. He didn't know who Connery was! Further discussion and his suitcase then filled with classics including *Godfather* trilogy and *Indiana Jones* series.

Moving Vans

Seems people are voting with their feet. Truck rental fees tell the tale: from Los Angeles to Dallas? \$2,558. Returning back? \$1,232. Texas is the No. one state people move trucks to, with states like Florida, South Carolina, Tennessee, North Carolina and Colorado were in the top 10. MN had a 5.5% growth from 5,303,925 to 5,576,606.

The Russians Are Coming?

From 2001 to 2005 there was an ongoing investigation into the Clinton Foundation. A Grand Jury had been empaneled. Governments from around the world had donated to the "Charity". Yet, from 2001 to 2003 none of those "Donations" to the Clinton Foundation were reported to the IRS.

James Comey took over this investigation in 2002.

At the same time, **Lois Lerner** was transferred in to the Internal Revenue Service to run the Tax Exemption Branch of the IRS by **Rod Rosenstein** who ran the Tax Decision Branch inside the Justice Department. **Robert Mueller** was the Director of the Federal Bureau of Investigation during this timeframe. These four were briefed and/or were front line investigators of the Clinton Foundation.

James Comey left the Justice Department in 2009 to work at Lockheed Martin while **Hillary Clinton** was running the State Department using her own personal email server when the Uranium One "issue" came to her attention. She supported the decision to approve the sale of 20% of US Uranium to the Russians.

Prior to the sales approval, **Bill Clinton** goes to Moscow, gets paid 500K for a one hour speech then meets with **Vladimir Putin** at his home for a few hours. The FBI had a mole inside the money laundering and bribery scheme. **Rod Rosenstein** was handling that case within the Justice Department out of the US Attorney's Office in Maryland. The Department of Justice placed a GAG order on the mole and threatened to lock him up if he spoke out about it while **Robert Mueller**, FBI Director during this timeframe, delivered a Uranium Sample to Moscow in 2009.

After the sale was approved, 145 million dollars in "donations" made their way into the Clinton Foundation from entities directly connected to the Uranium One deal. **Lois Lerner** was still at the Internal Revenue Service Charitable Division.

Fast forward to 2015.

Trey Gowdy who was running the *10th investigation* as Chairman of the Select Committee on Benghazi discovers that the Hilary Clinton ran the State Department on an unclassified, unauthorized, outlaw personal email server.

In the meantime, **James Comey** is at Lockheed Martin and gets 17 no bid contracts from the State Department. In gratitude, Lockheed Martin awarded a six million dollar bonus when **Comey** left Lockheed Martin to...wait for it...become FBI Director in 2013.

As the FBI Director in charge of the "Clinton Email Investigation" and the Lois Lerner "Matter" at the Internal Revenue Service, **Comey** exonerates both...then, in the middle of the election, **Comey** doubles down on July the 8th of 2016 and again exonerates **Hillary Clinton** from any wrongdoing.

Then MAGA happens.

Rosenstein becomes Asst. Attorney General, **Comey** gets fired based upon a letter by **Rosenstein**, **Comey** leaks government information to the press, **Mueller** is assigned to the Russian Investigation by **Rosenstein**. The Clinton Foundation, in its 20+ years of operation, has never been audited by the Internal Revenue Service. **Rosenstein's** wife is a major lawyer for the Clinton Foundation specializing in fighting all FOIA requests. **Robert Mueller** is laser focused on the pee pee dossier created by the Clinton Campaign.

Are we having fun yet?

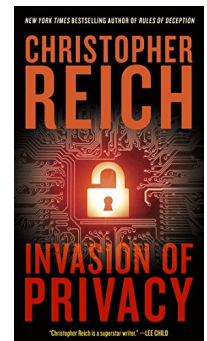

Does make you wonder what the end game will be. Several of the swamp people in the Justice Dept will be leaving; either resigning or indicted. In the meantime, the DNC made a BIG mistake with their lawsuit as that allows the new Justice people to subpoena Hillary's server as well as the DNC server that was hacked but not turned over to the FBI to verify who hacked and what was on it.

Another Book Report

New author for me. Given the Facebook invasion of privacy, this one from 2015 scary premonition of what could happen. Reads fast and has great characters.

New C.J. Box and John Sanford books due next week. Mary was at Sanford's book signing. Share your favorites!
