

Total Democrat Votes

2004 KERRY - 59.0M
 2008 OBAMA - 69.5M
 2012 OBAMA - 65.9M
 2016 Clinton - 65.9M
2020 Biden - 81.3M
 2024 Harris - 69.0M

Why was Biden forced to quit when he is the most popular candidate the Democrats have had in the past 20 years? In fact, Biden got 10 million more votes than there were registered voters.

He even got more Democrats to vote for him than for Obama or Hillary. Common sense would tell you that those numbers don't lie. Maybe it was something else?

***All the news I see fit to print.
 Freedom of the press belongs to those who own one.***

Great Britain Department for Education (DfE) data show a child, **aged three**, was suspended from a state school in the 2022-23 academic year for "abuse against sexual orientation and gender identity" and 94 pupils at state primary schools were suspended or permanently excluded for transphobia and homophobia during the same academic year.

The vast majority of British Muslims identify with their religion over their nationality. The annual Islamic month of fasting (Ramadan) is over, so the British Army celebrated Eid al-Fitr and "honored the dedication of our Muslim personnel, their families, and communities across the UK and beyond".

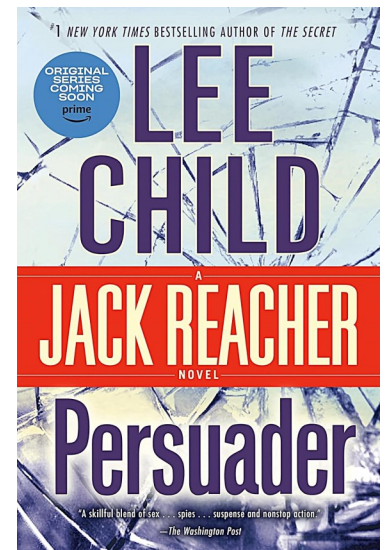

The globalist Macron regime has imprisoned French opposition leader Marine Le Pen and banned her from running for office. Le Pen was leading the polls for the next French presidential election as the leader of the conservative National Rally.

Nicaraguan Ortega communist regime seized the Episcopal Curia of Matagalpa and turned it into a social security-affiliated company and stole all of the relics housed there.

Six police officers in Britain arrested two parents, in front of their children. Their "crime" was complaining about their local school on the internet the police must be monitoring.

Information received by the Tehran Times indicates that Iran's missiles are loaded onto launchers in all underground missile sites and are ready for launch. *Betcha we got more!*

Arizona's Secretary of State declared his intent to resist federal efforts aimed at enhancing voter election integrity with proof of citizenship for voter registration, suggesting it could disrupt Arizona's voting system. MN Tim Walz publicly suggested Democrats should establish a shadow government in order to create a parallel government to oppose the Trump administration. Clearly, Democrats are preparing to defy any efforts to secure American elections, all they have left is to cheat.

Reacher 3 Review

This is the book season three was based on...and the book is a ten while the TV movie is a five. Season three is the third based on a revenge plot. Tom Cruise grabbed the two best books and made acceptable movies if you can believe a 5 foot nothing actor is a 6 foot five hero. The author remains executive producer so at least we got a five out of this one. Still much better than Hollyweird's *Snow White*.

Centennial

I mentioned last week that the 900 page book by James Michener was developed as a tv miniseries from NBC in 1978 and released as a six volume DVD set in 2008. I'm almost through the series and ready to answer the question: did they do it justice? Yes, BUT only if you've read the book. Huge all star cast and the dialogue does fill in the blanks. Was surprised that my interpretation of the characters was very close to the casting. Best was Alex Karas who showed more talent than he did by punching a horse as Mongo.

Just because you've seen 'My Cousin Vinny' doesn't qualify you to be a federal judge.

Senator John Neely Kennedy R-LA

Don't let his *aw shucks* persona fool you. Graduated *magna cum laude* from Vanderbilt, where he studied philosophy, economics and political science. He was elected president of his senior class and named to Phi Beta Kappa. He received a Juris Doctor from the University of Virginia School of Law where he was an executive editor of the Virginia Law Review and elected to the Order of the Coif. He also earned a Bachelor of Civil Law degree with first class honors from Oxford University. Sen. Kennedy serves on the Judiciary Committee in the U.S. Senate responsible for vetting federal judge appointments. Here is what he has to say about those Democrat judges using lawfare to kill the MAGA agenda:

There is no statutory basis for a federal judge issuing an order that affects people other than the parties before the court. There isn't one Supreme Court ruling that interprets the Constitution to allow such injunctions. If you have a plaintiff and a defendant, and the plaintiff files a lawsuit in federal court, the judge has jurisdiction over those parties. How can a federal judge issue an order that affects everyone else outside of that courtroom unless they file a class action suit? The universal injunction has become a weapon against the Trump administration. There is no basis for universal injunction in Article III. There were 86 issued against President Trump in his first term. So far in President Trump's second term, 30 universal injunctions have been issued against him.

Lawfare judges are about to face reality when they have to digest the facts presented by more than just Senator Kennedy.

Maybe force them to watch "My Cousin Vinny"?
