

I'm skipping the recipe this issue for more on COVID.

Dr. Malone (*above*) gives you some idea of his ability to boil complications down to facts. See the **Book Report** for more. According to a report compiled by Ed Dowd and his research team at Phinance Technologies, 300,000 people in the United States were killed by the mRNA jabs in 2022 alone. Dowd and his team, which includes Yuri Nunes (Ph.D. Physics, MSC Mathematics) and Carlos Alegria (Ph.D. Physics, Finance), have focused their research on the 148 million Americans between the ages of 18-64 who are employed. The researchers note in The Vaccine Damage Project report that, aside from the devastating death toll, 1.36 million people were also disabled by the shots while 26.6M suffered injuries.

While the corporate media will likely attempt to blame COVID-19 for the deaths and injuries, the research assert that the damage was caused by the vaccines and not the virus.

The fact that the CDC has been hiding the flu death-vax data from the public for over 60 years is a pretty good indicator that we aren't going to see their COVID death-vax data anytime soon. They will soon learn they can't hide facts from us because of the internet.

*All the news I see fit to print.*  
**Freedom of the press belongs to those who own one.**

One of Soros's newest DAs, Bragg was elected in 2021 as the DA of Manhattan, largely thanks to approximately \$1.1 million given by Soros that year to groups supporting Bragg. After Bragg released a memo stating that his office would not be seeking prison sentences for crimes such as armed robbery, drug dealing, and burglary, more than nine prosecutors in Manhattan quit. **But wait, there's more!**

Just last week, a Manhattan parking garage attendant who was shot twice while confronting an alleged thief — then wrestled the gun away and opened fire on the suspect — has been charged with attempted murder by Bragg. This follows the Manhattan bodega owner who did the same thing. Both spent a week in jail before the cases were thrown out.

Bragg is just one of 30 District Attorneys Soros has installed using \$30million to do so. Soros will be 93 in a few months so he must feel pressure to finish his goal of destroying a country...because he can. It's not money that fuels his ambition. It's power that most politicians are also addicted to.

The following countries have banned Soros:  
**Russia—Pakistan—Turkey—Hungary—Poland—Philippines**

So now Soros, using Bragg, is after President Trump. The judge in the case? Judge Juan Merchan, the judge in the Trump court case, has made multiple contributions to Act Blue, the payment processor for the majority of Democrats political contributions, in the 2020 campaign cycle. FEC data shows that among the 3 contributions made to Act Blue, one was earmarked for "Biden for President," another earmarked for "Stop Republicans," and the last one earmarked for "Progressive Turnout Project." BTW: His daughter is a Democratic political strategist who worked on the congressional campaign of Democrat Rep. ADAM SCHIFF, who led the first impeachment of Trump.

### Book Report

If you missed this free ebook, it is worth the cost. Over 645 pages of facts shining a very bright light on more than the COVID lies. There are enough facts to fill the prisons with politicians and bureaucrats for the next 20 years...and some (*one in particular*) for a firing squad. Don't let the heavy science bog you down. I found skimming the scientific formulas and getting to each conclusive fact demonstrates his ability to communicate. Nodding my head throughout the 645 pages and I felt like a bobble head doll. Verifiable facts wrapped in common sense covers decades and motives of what a government can do to any of the governed. They are about to become as fearful of citizens as citizens have been fearful of the government. Almost hidden in the text is The Malone Doctrine. Wrap your arms around it! *In case you missed the 60 Minutes pathetic attempt to intimidate Marjorie Taylor Greene. She blasted Leslie Stahl and left her speechless.*

*Annd...that 60 Minutes program was sponsored by Pfizer!*

*If taxes aren't theft why does the IRS need guns?*

*There's a reason there are "leftovers" after you cook. Just saying.*

*I'm not as sarcastic as I could be. I hope people are grateful for that.*

*The Majority are not silent. The Lame Stream Media are silent about the Majority.*

*Democrats don't scare me but they are really starting to piss me off.*

*Term limits a good idea? Indictments would be hell of a lot better.*

*Your eyesight may weaken as you get older but you can see through people's bullshit better.*

*Sometimes people come into your life and they have to stop doing that.*

*If Social Security is a joke you probably won't get it.*

*I have my own little world. But it's OK ... they know me here.*

*I don't approve of political jokes... I've seen too many of them get elected.*

*How come we choose from just two people to run for President and fifty for Miss America?*

*Someone who thinks logically provides a nice contrast to the real world.*

**About that indictment:** Bragg has shut down the entire city, called up 38,000 NYPD police officers, closed down the FDR Drive and is spending an estimated \$200 million of city funds, all for a \$130,000 NDA Stormy Daniels signed and ignored. The 9th Circuit just awarded Trump \$121,962.56 in attorney fees from Stormy Daniels in addition to the roughly \$500k she already owes him. Trump was hit with a criminal charge by Bragg for every payment he made to his former lawyer Michael Cohen in connection with the 'hush payments'. Bottom line...Bragg says Trump put the payment into the wrong column in his ledger. Bragg's biggest problem...there are no laws in his district that say you can't pay someone to shut up.

As bad as George Soros has proven, we have our own version. Bill Gates said "The world has 6.8 billion people...that's headed up to about 9 billion. If we do a really great job on vaccines, health care, reproductive services, we could lower that by perhaps 10 to 15 percent." What has Gates been involved in doing? Stopping people from being able to have children is one of his tactics in this while also killing people in the process. Many who are becoming wise to the experimental COVID shots need to learn that this kind of thing has been going on a long time and back in 2014, Kenyan doctors discovered that the tetanus shot provided through funding from The Gates Foundation contained anti-fertility drugs in them.

ICYMI: **Gone With The Wind** (released two months before I was born) now has a "white supremacist" warning label. That black lady won an Oscar for her role.

Had an epiphany last week that verified my preference for real books versus eBooks. I've got about 200 eBooks on my eReader. I lost my internet connection and Spectrum couldn't figure out how to fix it. Since I couldn't work on the computer, decided to read one of the older books on the eReader. Seems you need internet connection as only the most recent half dozen "downloads" remain on the device. All the rest are in the cloud...which is actually somebody else's computer. Should I expect a "thank you" from the FBI agent who is monitoring my reading habits?

There are now 26 states where conceal carry does NOT require a permit.

There are 38 states where it's **legal** for gender affirming care and surgery for minors...for now.

Let's get prioritized people!
