All the news I see fit to print.

Freedom of the press belongs to those who own one.

Biden could not flee Afghanistan without getting 13 Marines killed and giving the terrorist Taliban \$50 billion in munitions, a billion-dollar embassy, and a \$300 million huge airbase.

But Biden and his handlers proved far more capable when their target was Americans. They stopped congressionally approved building of the border wall, ignored federal immigration law, emasculated the border patrol, and ensured that millions of people around the world could simply walk into the U.S....illegally, unaudited and with impunity. There was no "due process" to bring them in but now the Democrats want "due process" to throw illegals out.

Angie Craig: "Trump and Musk are burning our government down. Rising costs threaten the middle class. And for too many, hard work isn't paying off like it used to. We must do better." Craig has a record voting with Joe Biden 100% of the time during the 117th Congress, opposing efforts to ban biological males from female sports, and opposing efforts to establish protections for babies who survive attempted abortions. She's my congress critter now running for Senate to replace Tina what's her name. There's a plethora of D's after her seat since they see no threat from the MN GOP nor the Lame Stream Media locally since they claim D's walk on water without getting their feet wet.

Disney re-released **Snow White** movie and it did even worse the second time around at the box office. Also, average cost of one day at Disneyland with five kids reported to be \$1,400.00. Maybe that will finance the third re-re-release?

CNN's Jake Tapper Uncovers Startling Evidence That Biden's Decline Was Covered Up By Jake Tapper. **Babylon Bee's** exclusive shocker report! Jake has written a book and hopes we all agree that he didn't see Biden's decline and we will believe everything Jake tells us so he can cash in on his book.

AND: "Can't Hate the Media Enough": Rasmussen Survey Shows Growing Bipartisan Hatred for Lame Stream Media but LSM refuse to report the results of the survey citing "sources" and unidentified "experts" that the survey was disinformation...at which they are the "experts".

Can't hate them enough?

Ever wonder why the Democrats love all those illegal immigrants? The Census counts the population. Population numbers are then used to determine how many congressional seats are allocated to each state. Given illegal aliens aren't citizens and ineligible to vote, they should not have representation in Congress and Democrats shouldn't benefit from additional congressional seats based on an illegal population.
But they do.

The moment Kamala Harris lost the election, Biden began sending Democrat-aligned NGOs & companies \$1.3 billion per day, almost \$100 billion before Trump took office. How many Biden relatives ran them?

President Donald Trump is making good on his campaign promises. New fiscal data shows that under Trump's leadership, the growth of the national debt has slowed by a staggering 92 percent compared to the Biden era, undermining the LSM narrative pushed by Democrats and the mainstream media...public debt rose by nearly \$37 billion between January 22 and May 6. In contrast, during the same period in 2024 under Biden, the debt surged by over \$478 billion.

Also: Receipts from U.S. tariffs hit a record level in April as revenue from President Trump's trade war started kicking in. Customs duties totaled \$16.3 billion for the month, some 86% above the \$8.75 billion collected during March and double the \$7.1 billion a year ago, Treasury Department reported.

Treasury also reported a funding need for the current quarter that was \$53 billion lower than it had initially forecast in February... "indicates that DOGE is indeed working and the US funding needs are declining."

Meanwhile, A recent poll found 71% of Democrats support creating a law that would send Elon Musk to jail. Good luck with that during the next election.
