**Why We Need the Marines**  
The Department of the Navy is now assigning females to quarters in a separate, private, and off-limits area on all aircraft carriers.  
Addressing personnel at Pearl Harbor, CINCPAC advised, *"The female sleeping quarters will be out of bounds for all males. Anybody caught breaking this rule will be fined \$50 the first time. Anybody caught breaking this rule the second time will be fined \$150. Being caught a third time will cost you a fine of \$500. Are there any questions?"* A Marine Gunnery Sergeant from the security detail assigned to the ship stood up and asked, *"How much for a season pass?"*  
h/t to Tim M. for that one.

**OK, one more:** Marine gets a "Dear John" letter from girl friend and she wants her picture back. Marine gathers pictures of buddies girl friends and sends dozens to his girl friend with note: *Don't remember who you are...please pick your picture from the stack and send the rest back. Thanks".*

## The Frank Report

"What should we name it"?

**All the news I see fit to print.  
Freedom of the press belongs to those who own one.**

The Department of Justice has finally taken formal action against one of the key figures in the federal government's handling of the COVID-19 pandemic. David Morens, (*on the right at top*) a longtime senior adviser to Anthony Fauci at the National Institute of Allergy and Infectious Diseases, was indicted on charges including conspiracy against the United States, destruction or falsification of records, concealment of records, and aiding and abetting.

The reason that NIH closed ranks on this issue is obvious: Fauci and his gang had a massive conflict of interest. If the virus leaked from WIV, NIH's funding of highly relevant research through the intermediary of EcoHealth Alliance would come to light, and there was a real danger that NIH and its "scientists", from Fauci on down, would be blamed for the epidemic. Fauci's minions were desperate to avoid that.

Fauci oversaw U.S. tax funding of the virology lab in Wuhan, China, that was making animal viruses more contagious to humans in clear violation of U.S. law. When one of those viruses got loose, it killed MILLIONS of people and plunged the world into chaos for years. Fauci covered up his involvement and positioned himself as 'the science,' using his authority as director of the National Institute of Allergy and Infectious Diseases and medical advisor to the president to control national policy that violated Americans' liberty and rights. He then made the rounds on media and even Congress to justify that tyranny with more bad science and lies.

BTW: David Morens was co-author with Fauci of the Aug 2020 CELL article calling for the overthrow of civilization.  
*Damn near did it didn't they?*

President Trump is being urged to immediately review and overturn any Biden auto-pen pardon granted to Anthony Fauci so he can finally face justice.

The auto-pen, not Biden, was used to grant Fauci pardon and you might wonder how that happened.

See the column at the right for a possible answer.

Lester Bolt (*sic*) is a so called journalist at NBC News. He interviewed Joe Biden...here's a transcript of what happened:

Joe slipped up and admitted that Barack Obama was called in to run the county "when I got a little worn out". Lester was stunned and asked:

"You're saying that when you weren't feeling up to it, an unelected former President was making decisions for the country?"

"Well...I guess that's true," Biden replied, "It doesn't sound so good when you put it like that."

*Immediate cut to commercial and Biden's handlers whisked him away from the interview.*

Maybe this is how the "Biden" Admin Used Code Word 'Benghazi' to Hide \$90 million Loans to Abortion Giant Planned Parenthood It Was Not Eligible for, Then Forgave the Loans.

Maybe "Biden Admin" we saw in the Lame Stream Media is nothing more than a nickname for Obama? They didn't quote Biden directly on a huge list of dubious decisions.

BTW: Thomas Jefferson invented an auto pen that created multiple copies of documents in one session. It's on display at his home Monticello.

SCOTUS has destroyed gerrymandering based on race. Republicans could pick up as many as 27 additional House seats from the ruling.

Far-left Minnesota Governor Tim Walz tried to steal credit for massive federal raids targeting the rampant fraud plaguing his state – fraud that exploded on his watch while he and his radical administration looked the other way. Federal agents executed 22 search warrants across the Twin Cities as part of an ongoing investigation into massive taxpayer-funded fraud schemes involving day care centers, autism programs, Medicaid, and other social services, the very programs Walz's administration has overseen for years as billions in federal dollars vanished into the pockets of fraudsters. Star Tribune almost let him get away with it until Kash Patel weighted in.
