

## Recipe Corner

*That weird bread recipe  
from last week:*

3 cups lukewarm water

1 to 1 1/2 tbs yeast

1 to 1 1/2 tbs kosher salt

6 1/2 cups flour

Mix with a spoon in a food-  
safe bucket, let it rise at  
room temperature for 2 to  
5 hours, then into the fridge  
**for two weeks.**

Tear off chunks, shape, rest,  
and bake as needed. It's  
great for fry bread too.

I tried various sizes letting it  
rise for several hours after  
two weeks in the fridge.  
Then into a 450 degree  
oven for ten minutes then  
down to 375 degrees for  
another 20 minutes.

Tomorrow will be the  
official switch from heat  
to cool on my Honey-  
well thermostat. Yes,  
they still sell the old  
fashioned one I bought  
to replace the Apple  
computerized gadget.  
This one does exactly  
what I ask it to do,  
unlike any computer.

*Freedom of the press belongs to those who own one.*

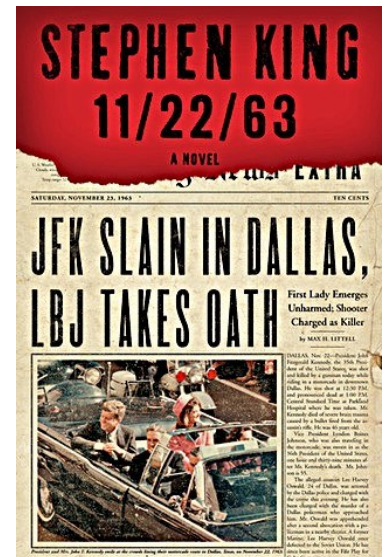

This older meme should be updated to eight years...not  
counting what Susan Rice did with that auto-pen.  
What we are seeing is a "dealignment", from traditional politi-  
cal, intellectual and economic allegiances that have developed  
over decades. It's a rejection of the governing institutions and  
the people who lead them."

How do all these [members of] Congress and senators become  
millionaires when they're supposed to be working for the peo-  
ple? 'I'm a public servant.' Bullshit. You're an inside trader.

You're getting kickbacks.

We're watching a metamorphosis of the Democratic Party that  
is out of power. The old guard: Nancy Pelosi, Joe Biden, Chuck  
Schumer, Dick Durbin—that old guard did not deliver the 2024  
election. And they lost the House. They lost the Senate. They  
don't have a majority in the Supreme Court. They lost the  
popular vote. They lost the Electoral College. So, in the eyes of  
Democratic youth, they're discredited.

## Book Review

At almost 900 pages, Stephen  
King *let 'er rip!* I came to the  
conclusion that King wrote  
primarily to interest producers  
into making movies from his  
efforts, but this one was back  
on track as a novel that will  
grab and maintain your interest  
for all 900 pages. It's one of the  
best "what if" I've read.

Lame Stream Media is hard  
pressed to focus on any  
Democrat "leader" as their  
volunteers seem to be coming  
out of the woodwork with  
names unpronounceable and  
faces beaming as they grin and  
experience their first time in  
the media spotlight and there's  
no one around to keep the  
idiocy from flowing from their  
mouths. Common refrain is to  
impeach Trump for Making  
America Great Again.

When Fauci joined the NIH in 1968, only about 6% of American children had a chronic condition. By the time he became director of NIAID in 1984, that number had doubled to 11.8%. Now, after 40 years of his "leadership", over 60% of U.S. children suffer from at least one chronic illness. Their risk of death increases between 8100% and 30,200% following COVID 19 vaccination compared to unvaccinated children according to official ONS data.

Fauci didn't lose a war on disease.

He waged one on our kids.
