

Doorbell rings...I open door to find guy with a clipboard who starts a sales pitch. Hold my finger up to stop him...

Me: "Are you at my front door trying to sell me something?"

Him: "Uhhh...yes."

Me: "What's your address?"

Him: (his smile is replaced with a frown...suddenly gets it and slowly walks away).

For those genius sales managers who send these guys out knocking on doors...if this is so successful, wouldn't Jehovah's Witnesses be the world's largest religion?

And a word about customer service: USAA decided to "de-bank" John Eastman, Trump's personal attorney. I contacted the USAA CEO and asked why? Got a very condescending response so... after 63 years as a member, I have "de-banked" USAA of a checking account, savings account, three insurance policies and their credit card before they "de-bank" me. They must have forgotten they offer financial service and not political advice.

5.4.2024 #433

All the news I see fit to print.

Freedom of the press belongs to those who own one.

\$61 Billion For Ukraine Was Just The Beginning – Ukrainian President Zelenskyy Announces 10 Year Funding Agreement with U.S.: "GLORY TO UKRAINE" and glory to the CIA as allegations surface that the CIA is operating Ukrainian online anti-Trump 'troll farms' to influence American voters and the 2024 election. To keep this cacophony one sided, the Deep State has launched an unprecedented lawfare attack on Trump with this current list of their all-in effort:

Hush money case in New York
34 felony counts for a total of 136 years

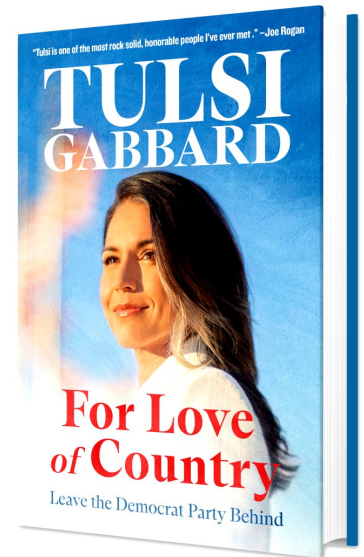

Classified Docs case in Florida
40 felony counts for total of 450 years

Jan 6 case in Washington D.C.
Four felony counts for a total of 55 years

Election interference case in Georgia
13 felony counts for 76.5 years

With four simultaneous trials, the Biden gang are trying to keep Trump off the campaign trail. They place idiots like Fani Willis, Alvin Bragg and Jack Smith (not to mention two idiot judges) up front to attack Trump and wind up shooting themselves in the foot. Trump's positive polls rise every time these useful idiots show up on the Lame Stream Media.

The credible legal scholars who make it to the news cycle are actually cringing when they discuss the obvious errors in the lawfare clown show. DA hires a lawyer she's sleeping with and pays him almost a \$million as he totally screws up the proceedings. Then there's the DA who filed a misdemeanor that was moot because of the statute of limitations and insists it's a felony at the federal level when it's actually at the state level. And let's not forget the prosecutor hired by our illustrious Attorney General without checking on whether that hiring was even legal since it lacked congressional approval. I'd need another page to describe the judges involved.

Book Report

OK...another politician writing a book during election season.

However...when someone I admire recommends a book, I check it out. Jack Carr, author of *The Terminal List* (and one of my top authors I follow) reinforces what others are saying about her. Those include Joe Rogan and Meghan McCain...those two have very disparate political positions but agree with what Tulsi has to say in this book.

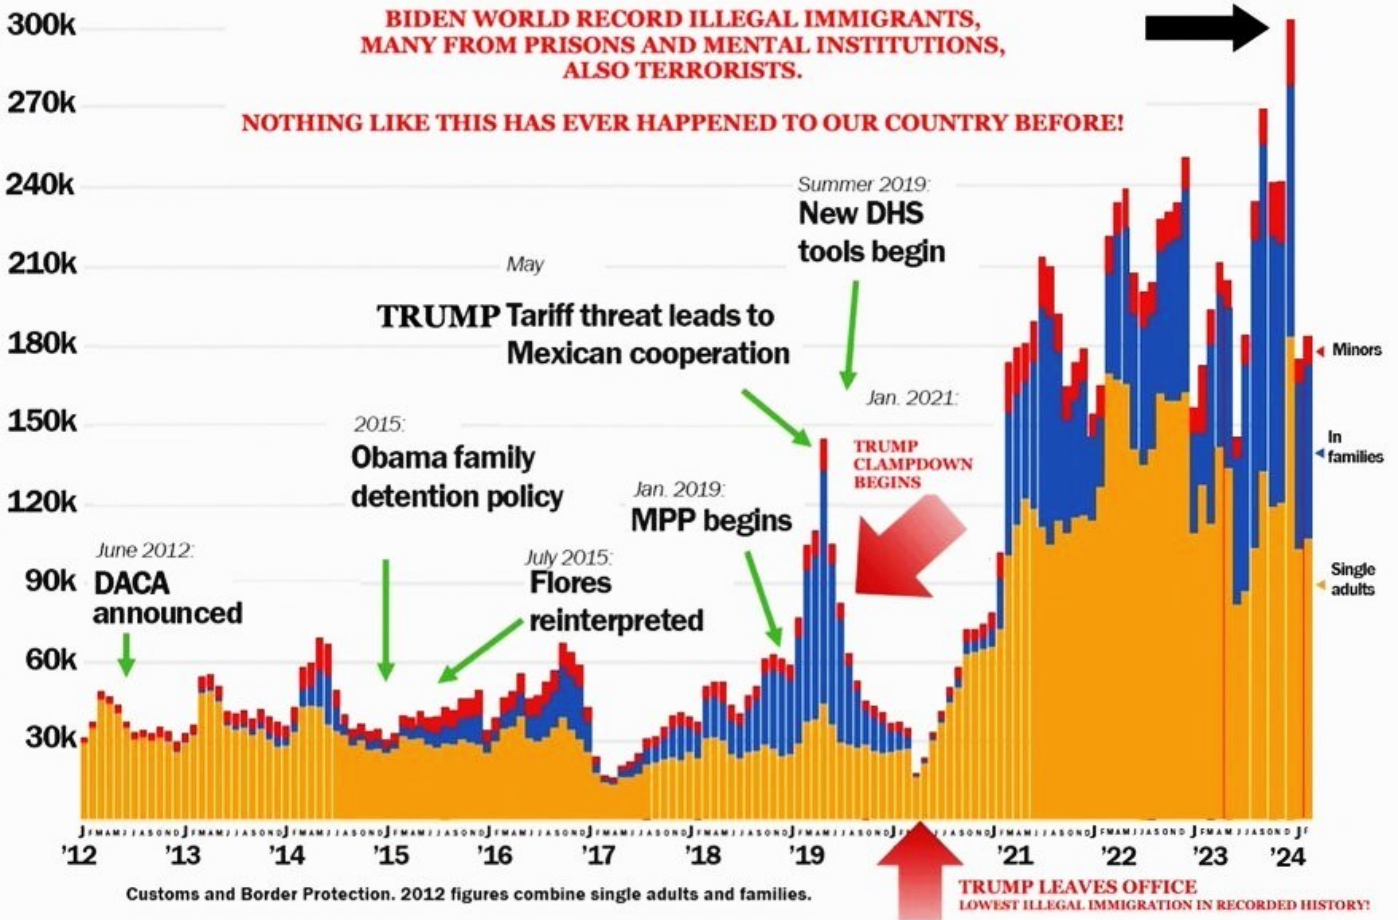

Tulsi was deep inside the Democratic party as vice chair of their National Committee and served Hawaii's Democrat 2nd congressional district from 2013-2021.

She has 20 years in as an Army officer with three deployments to the Middle East and Africa.

Tulsi quit the Democrat party in 2022 and wasn't afraid to say why. This book is one of many venues she is using to shine spotlight on what's happened to the party she left.

Even Trump is listening.

ILLEGAL IMMIGRATION INTO THE U.S.

As the Biden gang has been busy trying to keep Trump off the campaign trail, the above is a snapshot of what's been going on with ILLEGAL immigration. If you tie the lawfare with the above chart, it looks like the Democrats have come up with a two prong approach to the next election. Now couple that with the mysterious bridge destructions on major routes, food supply centers and other infrastructure disaster anomalies, I think you'll be able to figure out what's going on.

Well, Georgie is supporting Democrats financially so naturally there is a method to the madness of hiding his toxic manipulation of politics, society and any group he creates. It's no wonder he is banned in Russia, Pakistan, Turkey, Hungary, Poland, and the Philippines.

Why not here?

Kids are afraid of the dark. Adults are afraid of the light, after seeing their electric bill.

Never do stupid things without including me.

What idiot bureaucrat ruled nutritional information must be placed on bags of ice?

Stop expecting "normal" from me. Ain't gonna happen!

Kids will be kids? Nope.

Bad parenting results in assholes.

I pretend to like some people. It's called being an adult. Also the main reason they invented alcohol.

Let's use the border wall money and buy Mexico, then fix it and flip it.

Once weapons were manufactured for war. Now war is manufactured to sell weapons.

Apparently, following the science will lead you to the money.

I'm socially awkward. I'm privately awkward too.

That Diversity, Equity and Inclusion psycho babble will fix your flat tire by letting the air out of the other three.

My Christmas wish list this year may have to include more ammunition.

If life has its ups and downs, where in Hell are the ups? I've been waiting for decades!

Years	Flu cases	Covid cases
2016-17	29 million	0
2017-18	45 million	0
2018-19	36 million	0
2019-20	38 million	0
2020-21	0.0015 million	32 million

The role that a key ingredient in the COVID-19 mRNA vaccine plays in cancer development has been analyzed in a comprehensive review newly published in the International Journal of Biological Macromolecules. The conclusion: The specific form of this ingredient, pseudouridine, that **Pfizer** and **Moderna** use to make their vaccines aids cancer development.

Several companies are selling vaccines **to offset COVID-19 vaccines**. Some of the notable ones include:

Pfizer, which has developed the Comirnaty vaccine against COVID-19 and **Moderna**, which has developed the mRNA-1273 vaccine against COVID-19.

Words fail me!

BTW: Remember when we called it the "clot shot" and they called us conspiracy theorists? **AstraZeneca** just admitted in court that their vaccine can cause deadly blood clotting.

Tidbits

(a small and particularly interesting item of gossip or information)

Biden Admin Wants To Force Companies To Hire Criminals In The Name Of Equity. The Equal Employment Opportunity Employment Commission (EEOC) suit is aimed at Sheetz, the gas station where Biden had a disastrous campaign stop. Nobody showed up and anyone there ignored him. *Gotta love the Biden bureaucrats!*

The Taliban jihadists have been invited by the UN to discuss the threat of climate change.

The Minneapolis City Council approved a \$150,000 settlement with a man who alleged "emotional distress" after witnessing the George Floyd incident in May of 2020.

The number of athletes who have died from cardiac arrest in the last two years is about the same as the total for the past 38 years.

There are 19,000 border agents and 175,000 IRS agents (*the IRS also has a huge budget for guns and ammunition*).

The Democrat mayor of Denver defunds police to the tune of \$8.4 million and funnel those funds to illegals and wants to spend a whopping \$89.9 million, including cuts to firefighters, to provide services to the influx of illegals.

Until next week...
