

Recipe Corner

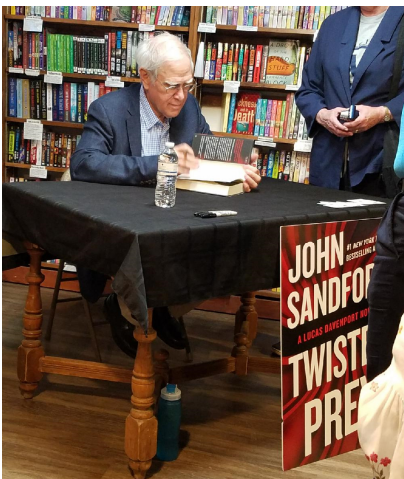

Weird bread

As you know by now, I like bread. The following is a rather weird recipe that is fun and delicious to play with.

3 cups lukewarm water
 1 1/2 tablespoons granulated yeast (can decrease to 1 tablespoon if you prefer the flavor of slower-risen doughs)
 1 to 1 1/2 tablespoons kosher coarse salt (adjust to your taste)
 6 1/2 cups unbleached all-purpose flour.

Mix with a spoon in a food-safe bucket, let it rise at room temperature for 2 to 5 hours, then into the fridge for up to two weeks...then, tear off chunks, shape, rest, and bake as needed. The main batch will last over five weeks.

For fry bread: roll thin and fry in covered pan 2 1/2 minutes each side in butter at medium heat.

Daughter Mary attended John Sanford's recent book signing and I now have a signed copy of his latest.

My MN Neighborhood

I think my neighbors are liberals and seem wary of me. They do wave when I leave the house so I wave back after I put my guns in the car.

Son Christopher and Brenda wedding anniversary (May 5, 1995). Ro called her Brendapher.

THE FRANK REPORT

5.5.2018

All the news I see fit to print.
 Freedom of the press belongs to those who own one.

"Civics was a class that used to be required before you could graduate from high school. You were taught what was in the U.S. Constitution. "And after all the student rebellions in the Sixties, civics was banished from the student curriculum and was replaced by something called social studies. Here we live in a country that has a fabulous constitution and all these guarantees, a contract between the citizens and the government – nobody knows what's in it..."

"And so, if you don't know what your rights are, how can you stand up for them? And furthermore, if you don't know what's in the document, how can you care if someone is shredding it?"

- Frank Zappa

Meanwhile, an oak sapling originally sprouted at the WWI Battle of Belleau Wood in northern France was planted on the White House grounds by Macron and POTUS. It disappeared and the lame stream media went nuts...

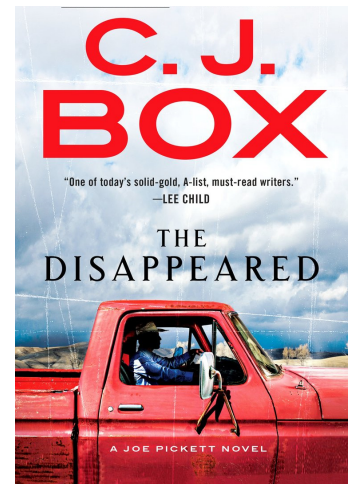

...then suddenly became quiet when they found out the tree is in quarantine like all immigrants are SUPPOSED to be to avoid disease...like the very dramatic increase in TB, smallpox, etc. that are now rampant because of illegal human immigration. Apparently, trees are easier to catch?

LSM tried to ignore this tree planting.

Bon Mots

I don't always learn my lesson, but when I do, you can bet I learned it the hard way.

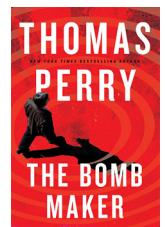

Book Report

Joe Pike uncovers some very disturbing facts about the wind industry. If you've ever seen one of the blades being transported (*below*), this book will fill in the blanks while providing a great plot.

This one will tell you everything you ever wanted to know about bombs.

Perry also introduces a pair of new heroes with hints of the next book in this new series sure to rank right up there with Cotton Malone and Cassiopeia Vitt (Steve Berry)

-more-

Went from 14 inches of snow to 80 degrees in ten days.

Gotta love MN!

Meanwhile, in Wisconsin

and 265,728 people in Minnesota have been successfully processed for a concealed carry permit.

FBI statistics confirm Illinois has a much higher crime rate than Wisconsin or Minnesota.

Busy week which kept The Boys nervous and in hiding...replaced the original water heater with a tankless water heater that delivers 4.5gpm on demand rather than that huge tank keeping 40 gallons hot all the time. Then an air filtration system with a filter that's 100 times more effective than the one inch filter that needs to be replaced every month. The garage will be insulated to make the heater more effective next winter. And with 80 degrees hit the other day, Miata got four new summer tires and I drove her home with the top down.

This guy has cost us \$17 million and counting...if he doesn't find anything, can we ask for the money to be returned? Just asking.

Stormy's lawyer has been on CNN 59 times in the last month. Probably explaining what happened to that Malaysian airliner? CNN kept that going for six months! In the meantime, CNN has reached lower levels of viewer counts even at airports.

Attribution in the Lame Stream Media has assumed a new definition...usually just one of their fellow reporters becomes a "reliable source". The White House press briefings will give you some idea of what's wrong when a governor's daughter and mom with little kids can run verbal rings around them as they frantically flail for headlines.

The three trees planted last year are budding so the Japanese beetles apparently didn't kill them. Hoping that plague doesn't repeat this year...trapped over six pounds of the little devils. The specific trees were chosen because they grow 8-10 feet each year. Rabbits did manage to kill six shrubs...pellet gun locked and loaded. Daughter Mary may get some calls (911 dispatcher) about the old guy sitting on his deck drinking wine and aiming a gun. Could be worse...hang the rabbit carcasses on the neighbor's fence?
