

## Recipe Corner

### Mint Brownies

#### Bottom Layer:

- 1 stick margarine melted
- 1 cup sugar
- 4 eggs
- 1 can chocolate syrup (16 oz)
- 1 cup flour

Mix and bake at 350 for 20-25 min: use a large rectangular jelly roll pan  
Cool

#### Middle Layer:

- 1 stick margarine melted
- 4 cups powdered sugar
- ½ tsp peppermint flavor
- Green food color

Mix and add milk to make creamy enough to spread over the bottom layer  
Cool

#### Top Layer:

- 1 box semi sweet chocolate (since they come in smaller size boxes, I use 2 boxes- I think it's probably a total of 8 oz)
  - 1 stick margarine
- Melt together til smooth and spread over middle  
Cool  
These freeze well also!

The Minnesota House and Senate, controlled by the Democrats, voted to transform American presidential elections by abandoning the Electoral College. The Senate voted to pass an elections omnibus policy bill that includes a provision that would have Minnesota award its presidential electors to the candidate with the most votes nationwide.

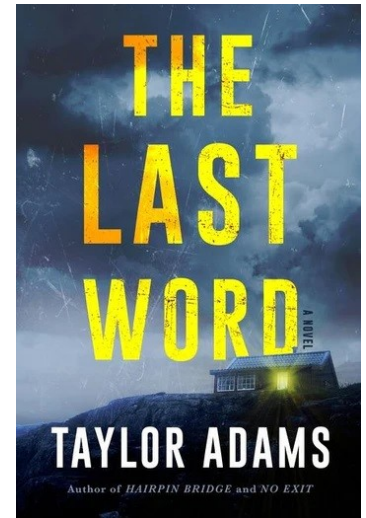

Rep. Dawn Gillman, R-Dassel, retweeted a post regarding legislation that would have stipulated that pedophilia is **not a protected sexual orientation**. She was "yelled at and intimidated" by Rep. Leigh Finke (D) who claims pedophilia is protected.

Minnesota and Washington states enacted laws to become "havens" for those seeking to thwart other states' laws against abortion or gender "transitions."

Gov Tim Walz (D-MN) has signed a bill into law authored by transgender Rep. Leigh Finke (D) that allows state courts to take "temporary emergency jurisdiction" if "the child has been unable to obtain gender-affirming health care." The law, referred to by Lt. Gov Peggy Flanagan (D) as the "Trans Refuge Bill," (HF 146... Finke again) requires that Minnesota not enforce or apply "A law of another state that authorizes a state agency to remove a child from the child's parent or guardian because the parent or guardian allowed the child to receive gender-affirming health care."

Minnesota Gov. Tim Walz signed a bill that bans private conversations between therapists and patients struggling with their sex and sexuality. Now Minnesotan therapists who help those with gender dysphoria accept their sex and those with unwanted same-sex attraction are banned from helping willing clients. HF 16 bans these private, uncoerced conversations as illegal "conversion therapy" for children and adults despite studies suggesting such conversations can be helpful and welcomed.

Meanwhile, MN has lost \$1.6 BILLION of taxable income because 13,500 people moved from Minnesota to other parts of the United States from April 2020 through July 1, 2021, making it the eighth highest state for population loss through domestic migration, according data from the U.S. Census Bureau. Minnesota's State Demographic Center admits that every year, around 113,000 residents left Minnesota, while only 101,000 arrived from other states (with a further 24,000 coming from foreign countries). That's a median 6.8% tax rate on that lost income that current residents will have to match (**and I'm sure the Democrat controlled MN legislature...is already working on it**).

## Book Report

His fourth outstanding book...and when you reach **The End** as the only words on the page, keep reading and prepare to be amazed at how Adams twists and retwists the plot. This is the one that kept me up until 2am trying to figure out how he was going to get the hero out of the seemingly impossible situation. That, after leaving a trail of dead bodies and a dog in danger at **The End**. The next few pages after will have you thinking...wait...what? Highly recommend anything this guy writes!

Tucker Carlson's video the day after his firing from Fox News had more than 41 million views in the first 24 hours. That's more than all the cable news programs on all the networks combined. The LSM gnashing of teeth continues as cables are cut.

**Here we go agan...Sudan's National Public Health Laboratory, whose recent seizure by militants, has prompted warnings of a "huge biological risk" and received financial and personnel support from U.S. government bodies including Dr. Fauci's National Institutes of Health agency. Nima Saeed Abid, the World Health Organization (WHO) representative in Sudan, admitting the situation was "extremely dangerous" because "we have polio isolates in the lab, we have measles isolates in the lab, we have cholera isolates in the lab." U.S. federal funding has directly supported research conducted by researchers from this high-risk laboratory into cholera. "There is a huge biological risk associated with the occupation of the public health lab in Khartoum by one of the fighting parties," he added. **I didn't even know there was a war going on in Sudan...did you?****

In a rare move acknowledging a death caused by the COVID jab, a Minnesota family has received \$9,000 **from the federal government** to reimburse them for funeral costs. Ford executives announced that the Lincoln Nautilus will be made in China and imported to sell to Americans in the United States. Previously, the SUV was made in Ontario, Canada before being shipped to the U.S. market for sale. The internal-combustion engine vehicle unit, made \$2.62 billion last quarter. Ford Pro, the commercial vehicle unit, added \$1.37 billion. **Ford's electric vehicle unit lost \$722 million. Not to worry. They'll just raise the price on the other models that aren't woke and blame it on inflation.**

During the Republican National Committee's big donor meeting in April, Bud Light was offered as a beverage. This was after boycotts of the woke beer had begun following Anheuser-Busch taking on transvestite Dylan Mulvaney as a spokesperson. **The RNC is absolutely clueless!**

Another day, another lawsuit. That's the life of former President Donald Trump, who continues to be targeted by lawsuits. This time, Trump is being sued for third-degree burns a diabetic man suffered at a beach resort that Trump doesn't even own but the lawsuit claims the resort 'touts its collaboration' with the real estate mogul. This guy needs a psychiatrist as well as a better sunscreen. Maybe Pfizer or Fauci can help?
