Ricotta Cheese Cake

Ingredients

- 1 (18.25 ounce) cake mix
- 3 cups ricotta cheese
- 3/4 cup white sugar
- 3 eggs

1/4 teaspoon vanilla extract

Directions

Preheat oven to 350 degrees F.

Lightly grease one Bundt pan.

Make cake mix according to package directions. Pour batter into the greased pan.

Mix together the ricotta cheese, sugar, eggs and vanilla extract and spoon over cake batter.

Bake at 350 degrees F for about 45-60 minutes. Sprinkle cake with powdered sugar when cool.

I used a chocolate cake mix. Yellow or white cake mix may not take as much time. You'll have to experiment with this recipe but it's worth the effort once you find the adjustments.

THE FRANK REPORT

6.1.2019 #176

*All the news I see fit to print.
Freedom of the press belongs to those who own one.*

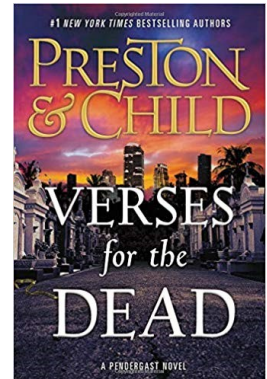

Of course, CNN became an echo chamber for his "reporting". There was just one problem...

The next few weeks are going to be interesting when these same "news" organizations try to ignore the Barr investigations. They may have to start interviewing their heroes in prison? They also interview people I've never heard of or about. Which leads me to the conclusion that idiot statements are made to get attention rather than agreement.

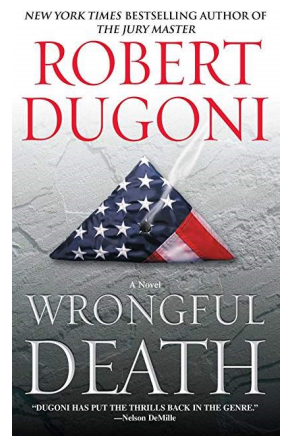

Bon Mots

**You can't fix stupid.
But, you can manipulate it.
Just ask CNN.**

Book Report

Always a good read with FBI agent *Pendergast* in the plot. Lots of action and plot twists in this one.

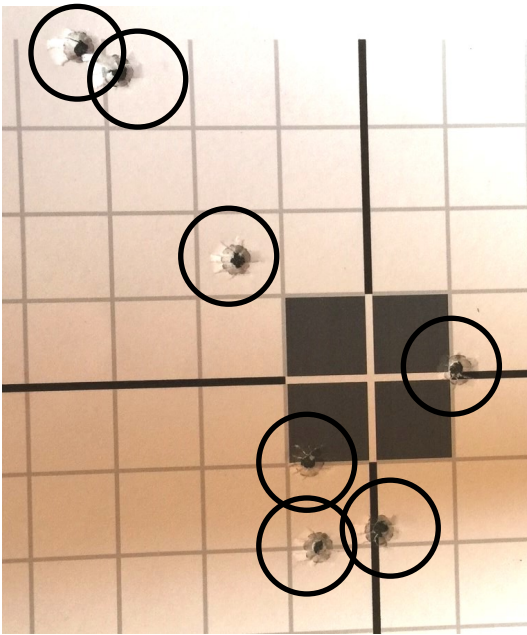

Much gooder than Grisham as Dugoni takes on the military's complex court system and wins.

At the gun range this week...not a bad grouping but did discover I do better using my computer glasses than the regular distance glasses. Key to accuracy is to focus on the gun sights with both eyes open and the target in background. Those are one inch squares on the target. Off center shots usually due to wrong placement of trigger finger. Did not realize how many factors come into play to become a good marksman. My old USMC DI Gunny Sargent Joe Montleon would be proud of me!

Major criticism has been focused on how he has not bent to the "norm" of the typical politician. The Lame Stream Media has learned to tread softly after he counter attacked CNN in a relentless focus on their lies. Realizing a growing loss of millions of dollars and viewers then laying off hundreds of employees was finally CNN's clue that they were losing the battle.

If the eyes are the window to the soul, then his enemies are in trouble because no one is home in their eyes.

Been working on an article for my blog hoping "someone" will take notice. The articles are always picked up by whatfinger.com so might be noticed. It's going to embarrass a few people at the VA but I doubt if they would be dumb enough to challenge my ability to challenge them. I'll send notice when it's up and ready...
