

Iran: Now What?

The Lion and Sun flag is the historic national flag of Iran, used from 1907 until the 1979 Islamic Revolution. The revolution has just experienced a major setback as President Trump has put in place a monitoring system while having Iran's neighbors engage in the transformation of Iran as an economic partner rather than an Islamic fanatic.

The mullahs are going to feel as I did with a nun watching my every move. Trump is the one holding more than a ruler as he has brilliantly initiated a pause while we replenish our supply of bombs should they be necessary for behavior modification for the mullahs...or what would then be left of them. The downside is the Lame Stream Media parroting the Democrat doomsday messages and the Republicans like Ted Cruz who think they would be a better president than Trump or Vance as the 2028 election is getting closer. Watch what happens rather than what "they" think will happen.

All the news I see fit to print.

Freedom of the press belongs to those who own one.

Some examples of what's fueling that fire...

The FBI thwarted a drone attack targeting Sunday's Freedom 250 event on the White House South Lawn. Five suspects are in custody after allegedly plotting a multi-phase terror attack that involved using explosive-laden drones to strike buildings and drive the fleeing crowd toward a sniper team.

The Bill and Melinda Gates Foundation, has donated hundreds of millions of dollars to the National Institutes of Health (NIH), allowing Gates to shape the direction of the country's health strategy in ways that have benefitted his priorities and pet causes while polishing his image as a global do-gooder.

As Sec State, Hillary Clinton approved selling 20% of US uranium to a Russian company. Coincidentally, that company donated \$2.5 billion to the Clinton Foundation and sponsored Bill Clinton's \$500,000 paid speaking tours. Another coincident was Obama's "gift" to Iran of billions of cash which enabled Irfan to fund their nuclear weapon program. Want to guess where they got the uranium and why President Trump is laser focused on getting it back even if he has to dig it out? Obama and friends know that is the smoking gun that will indict them.

Remember the Elon Musk D.O.G.E. program and how it eliminated \$6 billion from USAID and effectively eliminated them? Democrats howled so Elon offered to cut a check for the \$6 billion with the condition that there be public accounting for the money USAID insisted would "eliminate World hunger". Nobody would accept his offer.

The corruption of our judicial system and the lawfare aimed at MAGA is best known for a character by the name Judge James Boasberg who literally ordered Trump to turn around planes that were deporting illegal aliens. His wife is the founder of an abortion NGO funded by George Soros and USAID. His daughter works for a non-profit called "Partners For Justice" giving free legal advice to illegal aliens and gang members.

1963 – The United States Supreme Court rules 8 to 1 in *Abington School District v. Schempp* against allowing the reciting of Bible verses and the Lord's Prayer in public schools.

Now we can't have the Bible in the classroom but "Drag Queen Story Hour" is perfectly fine.

Abraham Lincoln paid reparations thru the Freedman's Bureau in 1865. It gave all free Black men 40 acres and a mule, plus food, clothing and farm tools over a seven year period until 1872 and was then ended by Democrats. Look it up. Congressional Democrats are ignorant of this piece of history. Now YOU know.

Found this while I was getting info about Juneteenth.

So a Republican president established a reparations program for slaves and the Democrats cancelled it. The Democrats also tried to block the Civil Rights Act of 1964.

Juneteenth is a celebration of the Union Forces freeing the slaves after the Confederates surrendered because of the Emancipation Proclamation by a Republican president.

Black voters overwhelmingly support the Democratic Party, with 83% identifying as Democrats compared to just 12% aligning with the Republican Party as of 2024.

Juneteenth happened in Texas and ironically this clown was a Democrat Rep from Texas until his antics finally got him tossed from SOTU and he lost his seat.

Bet You Didn't Hear This from the LSM:

Democrats governors can't stop ICE from enforcing the law because Obama sued Arizona in 2012 and as a result of that lawsuit, SCOTUS gave feds ultimate authority over immigration enforcement.

The Fed found that illegal immigration alone accounted for increases in home prices of 30% and in rental prices of 20%. The real impact is likely much higher when factoring in authorized immigrants who were given generous financing.

Democrats killed a bill for tuition assistance for children of veterans who were killed in battle. Then they turned around and approved a tuition assistance bill for illegal immigrants.

The ***Save America Act*** is designed to virtually eliminate election fraud. More than 80% of Americans of both parties support it. Why do politicians of both parties oppose it? With mail-in ballots the key component of election fraud, consider this:

France banned mail-in ballots in 1975 due to fraud. Mexico banned mail-in ballots in 1992 due to fraud. Belgium banned mail-in ballots in 2018 due to fraud. Sweden, Italy, Japan, Russia, Latin American countries and the Middle East do not permit mail-in ballots.

Key elements of the Save America Act:
Proof of citizenship and photo ID to vote.
*No mail-in ballots except for illness, disability,
military or travel.*

Democrats were losing voters so they imported millions of illegal aliens to replace them.
145 Democrats voted against mandating deportation of illegal aliens who commit sex crimes.
160 Democrats voted against mandating deportation of illegal aliens with DUIs.
186 Democrats voted against mandating deportation of illegal aliens who commit welfare fraud.
190 Democrats voted against mandating deportation of illegal aliens who harm police animals.
