### Pizza Secrets

Although I'm fairly versatile in the kitchen, the grandkids are focused on my pizza. I've probably created hundreds from scratch over the years. By "scratch", I mean the dough, the sauce and being very picky about the cheese and meat. I'd need several pages to chronicle all the steps. I'm focused on just my secret Marinara sauce in this issue:

Start the sauce early in the day by cooking garlic bits in extra virgin olive oil. Be careful not to burn the olive oil. Use a very low heat. The garlic takes on a sweet flavor when cooked so don't be afraid to pile it on. Use Romano tomatoes for the sauce. Contadina® if you can't find fresh tomatoes. The tomatoes should be lightly blended (*I use a hand blender*). Contadina again with their tomato paste to thicken the sauce. Here's the spice recipe I use with the sauce:

- 4 tbsp. oregano
- 2 tbsp. thyme
- 2 tbsp. sweet Basil
- 1 tbsp. paprika
- 2 tbsp. Onion flakes
- 1 tbsp. Garlic powder
- 1 tbsp. of red pepper flakes

How much spice you add depends on how old your taste buds are. I add some sugar and red wine for additional flavor. And be sure to make plenty as it freezes well and is great for any pasta recipe. I do a gallon at a time and freeze in two cup containers.

*All the news I see fit to print.*

*Freedom of the press belongs to those who own one.*

In January, Joe Biden signed an executive order lifting the ban on most transgender people serving in the military. Then, the Department of Veterans Affairs announced the beginning stages of enacting a new policy that will pay for transgender veterans to get sex changes.

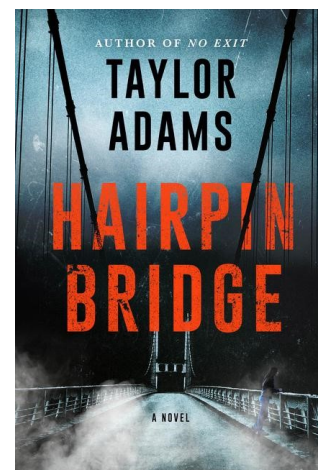

VA Secretary Denis McDonough spoke at a Pride Month event in Florida and said that the agency was "taking the first necessary steps to expand VA's care to include gender confirmation surgery." *Paying for the expensive surgeries will allow transgender vets to go through the full gender confirmation process with VA at their side*" McDonough said.

**Dr. Fauci will perform the surgeries?** Which would make sense since Dr. Fauci is very publicity conscious and he may want to save his "clippings". (*Stop groaning...! only report the news.*)

**Guess they don't care about the 37,252 homeless veterans?**

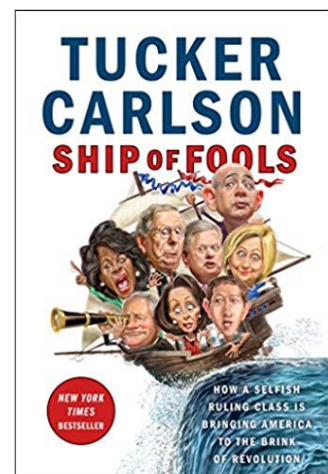

## Bon Mots

I've learned so much from my mistakes, I'm thinking of making a few more.

## Book Report

Fourth book by Adams and still amazing how his film background provides a writing style you can almost see as the plot thickens and congeals. His best is *Eye Shot*.

Definitely one of those books that will get you pissed off and involved.

Well researched and factually documented, the elite of Washington DC exposed and found wanting.

OK...I snuck a few in there that the LSM should have warned us about. However, seven decades of warnings from the Lame Stream Media and the only thing they accomplished was to get congress critters to raise and create new taxes. **Cut the cord!**

Some of you know I don't really mind the telemarketing calls. I try to keep them on the line as long as possible before they figure out what's happening. My record is 14 minutes and eleven seconds. That car warranty outfit is a real challenge. I finally hit a bit over four minutes with them as the young lady tried to figure out why I owned six Ford pickups from 2016 and only one has any mileage on it.

Daughter Susan gave me the perfect answer if asked if I had the shot. In deference to friend Hawk...yes, it's Glenfiddich and not that \$10 Scotch from Trader Joes. Wonder how much that beer company paid Fauci to stop calling it the Corona virus? Sheeple actually stopped buying Corona beer because of the name. Bless their little hearts!

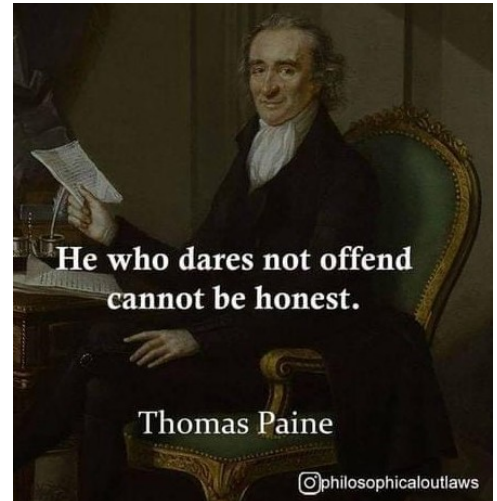

I've had this one in the hopper for some weeks now but figure a few covid shots from above and I'd be brave enough to include it. I'm still working up enough courage to use the pregnancy joke nephew David sent. His sense of "humor" is as warped as mine. Probably why I love the guy. Maybe if I get enough requests, I'll have a few more of those special covid shots and share his story.

Let me know if you're ready for some diversity and equity concerning birthing people.

## Mal Mots

**If you think it's expensive to hire a professional, try hiring an amateur.**

**You're welcome.**

**Thanks Tom! I'm offending as many as I can as fast as I can!!!**

Democrats are scrambling for a crisis for the Lame Stream Media to offset the AZ fraudulent vote report. I'm guessing they will say POTUS Trump is responsible for the vaccine deaths because they were not tested. Or maybe Biden will get a new dog; Harris gets a cat for diversity.

**Final note...**Gin & Alley may sound like a great name for a bar but it's the names of the ladies who help me keep my home clean so the kids can't start shopping for a retirement home for me. Thought I'd include a shout out of thanks to them this issue.

**Until next week...**
