

### Recipe Corner *Leftover Chicken?*

Did you hear about that poor Mexican who became the first “victim” of the bird flu? Well, he was also bedridden with Chronic kidney failure, Type 2 diabetes and High blood pressure. Mexican health officials have reassured their public that there is no reason to avoid eating chicken and its products or to be worried about the bird flu. In fact, they said there is no evidence to suggest that the bird flu was transmitted from person to person. The patient’s relatives and healthcare workers did not contract the virus. Evidently Mexico hasn’t received the talking points from WHO and the CDC as well as the Democrats who are using the bird flu as a distraction to whatever the hell they are up to. Democrats are claiming that the bird flu impacts men and women more than all the other genders combined. Republicans are drafting strongly worded letters objecting to the false reports on bird flu and sponsoring bills they know will be ignored by the Democrat majority or vetoed by senile Democrat pResidents. Maybe we should support politicians who ignore the journalists and focus on what should be legislative authority by congress rather than “regulators” and their “rules” as the source of our pseudo “laws”.

6.29.2024 #441

*All the news I see fit to print.  
Freedom of the press belongs to those who own one.*

**6.26.2024:** CNN will host the first presidential debate between President Donald Trump and Joe Biden. Jake Tapper and Dana Bash will “moderate” the debate. There is no word yet if CNN has leaked the questions early to Joe Biden’s camp as they did for Hillary Clinton. Moderator Dana Bash’s former husband is an attorney and was Chief of Staff at the CIA also one of the 51 liars from the intel community who signed a letter in 2020 claiming the Hunter Biden laptop was Russian disinformation. Jeremy Bash is currently the national security analyst for NBC News and its cable counterpart MSNBC.

#### ***Then there’s this from Sept 2018:***

*CNN’s Jake Tapper Dedicates Segment to Trump’s Penis*  
This was one of 15 outrageous “news” by Jake Tapper equaled by another 15 by Dana Bash chronicled by Breitbart News.

According to CNN: *“There are no two people better equipped to co-moderate a substantial and fact-based discussion and we look forward to the debate on June 27 in Atlanta.”*

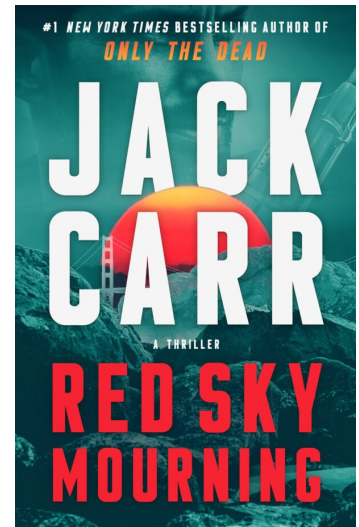

NEXT NEWSLETTER WILL COMMENT ON THIS DEBATE.

#### ***There was something that happened this week at the Supreme Court that is much more important:***

In a 6-3 decision on MURTHY V. MISSOURI, the U.S. Supreme Court has ruled that the Biden Administration’s policy of deleting, suppressing, and deplatforming specific people, topics, and ideas, is immune from suit leaving no one able to challenge it in court. The key conclusion by SCOTUS:

*“Platforms had independent incentives to moderate content and often exercised their own judgment. To be sure, the record reflects that the Government defendants played a role in at least some of the platforms’ moderation choices. But the Fifth Circuit, by attributing every platform decision at least in part to the defendants, glossed over complexities in the evidence.”*

The key takeaway: Farcebook, Google, CNN and others are free to focus on any subject...and delete others...because they can. Other “news” organizations are free to focus on the subjects deleted by Farcebook et al. We don’t need lawyers to tell us which source of “news” is legitimate. We need the “news” organizations to return to real journalism and ignore the “news” offered by “journalists” like Jake Tapper and social media like Farcebook. **So I ask: what the hell is Trump doing on CNN?**

### Book Report

Book #7 in the series and another session into early morning keeping up with **James Reece**, Carr’s hero. From the book’s jacket: *a quantum computer that has gone dark, retreating to the deepest levels of the internet, learning at a rate inconceivable at her inception. But during her time in hiding, she has done more than learn. She has become a weapon. She is now positioned to act as either the country’s greatest savior or its worst enemy. She is known as “Alice” and her only connection to the outside world is to a former Navy SEAL sniper James Reece who has left the violence of his past life behind.*

Carr’s books are getting better and the interview with Breitbart News (attached) spells out several reasons. His acknowledgements at the end of this one is a study of the genre and how he sees it evolving even more.

**Highly recommend all seven!**

Biden's newest associate communications director, Tyler Cherry moves up after over three years as the Department of Interior communications director.

**OK...what in hell is  
he/she/it  
communicating?**

The Obama/Biden freak show continues as this "person" joins the White House communications team. This has got to be a deliberate "in your face" continuing harassment of average (read normal) Americans.

Or maybe if they surround Biden with abnormal, we'll figure he's normal? Sorry Joe...if you surround yourself with clowns, you own the circus.

My theory: it's Obama's "transformation" of America still underway with added satisfaction of getting a corrupt and senile white dude (s)elected as pResident while Obama's gang continues to ruin things beyond the public's view hidden by the idiots of the Lame Stream Media.

Obama's got to be giddy at this point because of how much he has been able to accomplish. He knows Trump's MAGA movement is the backlash coming BUT Obama has a backup plan. All those single male military age illegal immigrants from terrorist countries will begin to create a reason Obama's gang will declare Marshall Law and "delay" the election.

**Then what?**

**Strongly worded letters from the Republicans?**

### **Tidbits**

*(a small and particularly interesting item of gossip or information)*

**LA City Council Removes 'No U-Turn' Signs in Gay Neighborhood, Claiming They're Homophobic**

In 2021, the Biden Administration got \$42.45 billion from Congress to deploy high-speed Internet to millions of Americans. Years later, it has not connected even one person with those funds. No construction projects will even start until 2025 at the earliest.

There is no federal law requiring proof of citizenship on voter forms. Voting laws are specific to each state. If anyone says they are a US citizen, that's enough to register to vote. Voter registration forms are available in every state except Arizona - which passed a law barring the practice on state forms.

**Why haven't red states passed a voter ID law?**

**Until next week...**
