

Bread Rolls

This has become my go to recipe for bread rolls.

- ! ½ cups (120F) water
- 2 TBS sugar
- 1 TBS active dry yeast
- 1 TBS gluten

Stir these together, let stand about ten minutes until frothy. Add 2 cups bread flour, 2 TBS vegetable oil and 1 tsp salt and mix until absorbed.

Add 2 more cups bread flour, ½ cup at a time until dough pulls away from sides of bowl. Switch to knead attachment and knead for about eight minutes. Lightly oil bowl, place dough in bowl and turn over to coat. Cover with GLAD or damp cloth.

Let it rise until doubled (about an hour). Deflate and divide into 16 equal pieces. Form into round balls and place on two parchment paper/cookie sheets...about two inches apart. Cover with damp cloth until they rise double in size, about another hour. Bake in preheated 400F oven until golden brown (about 18-20 minutes). Cool on racks and then into plastic bags and into the freezer. They go from the freezer into a 30 second microwave for perfect dinner rolls. Make them bigger... you've got great hamburger buns.

All the news I see fit to print.

Freedom of the press belongs to those who own one.

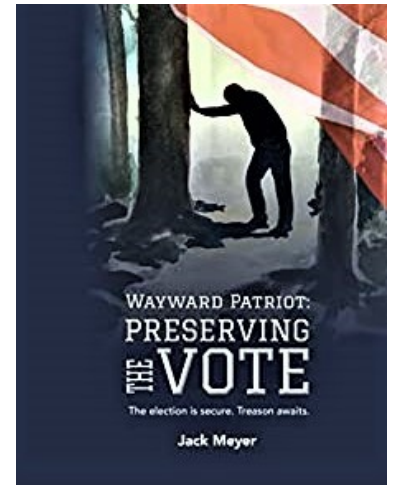

Above is the gang that is hell bent on destroying our country. No real motive, just exercise of the power they have grabbed when no one was looking. Financed by George Soros, the District Attorneys he has added to this gang with all focused on one thing only: election fraud. They also created a shroud of secrecy as the lame stream media is also under their control.

Districts with Soros-funded DAs:

Their control of the judiciary will ensure years of battles to maintain any semblance of justice while these DA's turn criminals loose with no bail or refuse to charge them for crimes. Will it be ballots of bullets that resolve this?

Book Report

Debut novel and not too bad. Less than 300 pages that could have been expanded with better development of the characters. Believe he took too much advice but believe his writing skills will improve as he finds his own voice. Interesting explanation of the way technology can steal the election with very little effort and how it can escape detection.

Wonder what's happened to your cable or even OTA TV?

Research confirms how three organizations (*The Council of Foreign Relations, the Bilderberg Group, and the Trilateral Commission*) have maneuvered their members into the key publisher, editor, and reporter positions at dozens of ostensible unaffiliated media organizations. Jefferey Epstein was a member of these three organizations. Over 75% of all advertising revenue is from major pharmaceutical companies. When you consider the current programming, specially the news, Big Pharma must be giving a lot of free psychedelic drug samples to the Hollyweird writers and news producers.

Grandchildren are the reward you get for not strangling your teenagers.

Only in America can liberals remove a real black woman from a syrup bottle and place a fake woman on a beer can.

Is Target having a sale on Bud Light beer yet?

There is safety in numbers. .22, .40, .45, 9mm, 30-06.

George Floyd. Three years drug free. Atta boy!

Also three years ago: Gas was \$1.89.

A rock killed Abel. A rock killed Goliath. Rocks bad or good?

Those who beat their swords into ploughshares, end up ploughing for those that kept their swords. (Ben Franklin)

If your voice isn't important, why are they trying to silence you?

Congress has an 18% approval rating and a 90% re-election rate. Let's reverse those numbers.

There are two kinds of people in this world. Avoid them.

Tip: at home DNA test not a great baby shower gift.

Joe Biden may be the reason God created the middle finger?

Join the Navy, see the world. Sure enough, it's 80% water.

For other military: despite the relative lack of media coverage in both Peru and the United States, US military will shortly be arriving in Peru...they authorized US troops onto Peruvian territory with cooperative activities with Peru's armed forces ...to guard American* Lithium's Falchani lithium mines. It's a *British Columbia company! Now tell me more about that debt ceiling. BTW: Pelosi moved \$2.4 billion from Social Security funding to cover the cost of Trump's impeachment proceedings. Now they have to figure out how to put it back. Raise debt ceiling?

Ray Ebbs...that clown that led the violence on J6 but has still not been arrested? His wife is Robyn Ebbs, national director of Dominion Voting Systems. Nadeam Elshami, Pelosi's former chief of staff, works as part of a lobbying team that represents Dominion Voting Systems. Peter Neffenger worked with Biden's transition team and served as the chairman of the board of directors for the other voting technology firm Smartmatic.

A recent audit has found that NASA's Space Launch System (SLS) rocket, which is intended to transport astronauts to the moon, is \$6 billion over budget and six years behind schedule. When NASA started sending astronauts into space, they discovered that ballpoint pens would not work in zero gravity. To combat this problem, Congress approved a program and NASA scientists spent a decade and over \$165 million to develop a pen that writes in zero gravity, upside down, on almost any surface and at temperatures ranging from below freezing to over 300 degrees C. *The Russians used a pencil...*

Journalistic Support of Idiots

Greta ("how dare you") Turdberg is a prime example of how "journalists" encourage idiots in order to create click bait for their "news" stories.

Here's the latest example: A federal grand jury indicted a pair of climate activists on Wednesday for smearing paint on the display case holding Edgar Degas's sculpture 'Little Dancer Aged Fourteen' at Washington, DC's National Gallery of Art. Timothy Martin and Joanna Smith and a group of unnamed conspirators allegedly entered the museum on April 27 at 11:30 a.m. to make a political statement on climate change by spreading paint on the "case, base and floor" of the exhibit. "If"* they are convicted they could face up to five years in prison and a \$250,000 fine. *Will Soros DA's do that?

Chicago schools will now allow illegal migrant children to enroll in schools without health records. American students will still require over 16 different shots before they can enroll. Last year Chicago Public Schools chief Pedro Martinez called for state and federal regulators to mandate the Covid vaccine before your kids could enroll. He has no issue with illegals enrolling with zero vaccines. *Hey Pedro...did you get a thank you check from Big Pharma?*

Sai Varshith Kandula drove a U-Haul truck in an attempt to ram his way through a White House barrier. Police pulled a Nazi flag from the U-Haul truck after the crash and laid it on the street for the media. Prosecutors dropped the charges. *Sai forgot the ammonium nitrate?*

Mayor Adams signed a bill banning weight discrimination in New York City. The chair of the National Association to Advance Fat Acceptance applauded Mayor Adams for signing the new legislation. *Just in time for the nationwide food shortage?*

What the hell is a debt CEILING? It's a GD FLOOR...and it's getting deeper. God help us if they ever find what comes after TRILLION. If we shut down the government and built a wall around DC...it would take TEN YEARS of continuing taxation at the current rate just to pay the current dept of \$30 TRILLION.

Until next week...
