

Crap they're finding:

Two Minnesota Muslim Women Arrested In \$21 Million Autism Program Scam. Taxpayer Cash!

Deep blue states are quietly pulling back from their generous programs of "free" healthcare to migrants as federal dollars dry up and their budgets continue to spiral into the red.

SBA found \$200 Billion in fraudulent PPP loans that the Biden Administration tried to hide, and forgive, and sweep under the rug. They turned the first \$22B of that over to Treasury for collections, and to DOJ for prosecution.

In FY 2025, 15 federal agencies reported a total estimate of \$186 Billion in improper payments across 64 programs, an increase of \$24 billion from the prior fiscal year. Most of these improper payments were a result of overpayments.

Improper payments have been a government-wide issue for more than 20 years, with estimates since FY 2003 at about \$3 trillion.

\$46.6 million scheme to defraud Minnesota Autism Program, of which \$21.2 million was paid.

Miller summed it up:

"What we've found since President Trump took office is that Democrats have set up a system to funnel hundreds of billions – ultimately trillions – of dollars to migrants in our country, effectively with the sole intent of overthrowing the Constitutional Republic of the United States."

Also note that Democrats get a House seat for every 700,000 illegal aliens since they insisted they be included in the census.

The Frank Report

OMG! How long has this crap been going on?

All the news I see fit to print.
Freedom of the press belongs to those who own one.

There are two million non-government and non profit organizations in America that handle \$3.7 TRILLION every year. Taxpayers contribute about half of that.
Nobody has been watching them....until now:

Stephen N. Miller is an American political advisor serving as White House deputy chief of staff for policy and homeland security. He praised the Anti-Fraud Taskforce led by Vice President J.D. Vance, saying the effort has moved faster than a typical government initiative and has already produced indictments, recovered funds, warrants, raids, seizures, investigations, and new legal actions.

"Within weeks of this task force being established, we've seen the largest ever slate of indictments, recovered funds, search warrants, raids, seizures, investigations, and new legal actions to stop, disrupt, and prevent fraud," Miller said.

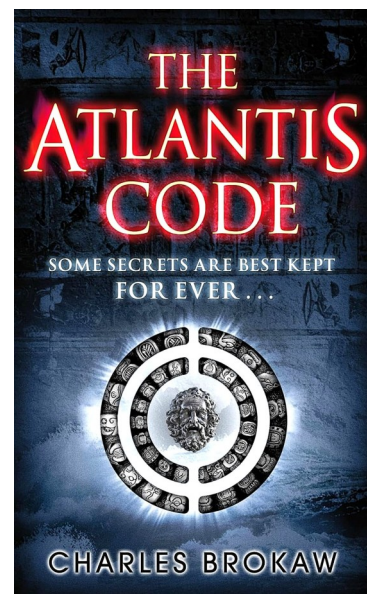

"All of the systems in our country, whether you're talking about voting, whether you're talking about entitlements, whether you're talking about welfare benefits, were set up based on the honor system. They're set up based on the idea that you could trust the average person through their own morality to abide by the rules and comply with the law. Many welfare systems rely on statements from applicants without sufficient verification. We could balance the federal budget if the only dollars that went out of the treasury went to individuals who are properly, lawfully, correctly eligible to receive them" Miller added.

The federal government already spends more on debt interest than on Medicaid, national defense, and all non-defense discretionary programs **combined**.

The taxpayer is revenue. Politicians are expenses. Politicians will continue to be expenses and we will remain revenue controlled by tax rates established by politicians.
Voting is the only thing controlling politicians.

It should be very obvious why politicians (well, Democrats) have focused on election fraud and blatant cheating to prevent voting from eliminating the national debt.

President Trump is aiming at that too.

Book Report

One of four in the **Thomas Lourdes** series by a mysterious author, an anonymous college educator, academic, and author from the Midwest. The title character is a Harvard linguist and anthropologist, and Brokaw seems to have drawn most of the inspiration of the chief protagonist from real life experiences on college campus. You might see a similarity to the Dan Brown novels like **The DaVinci Code**, but Brokaw goes much deeper into the background and has, quite frankly, better action in his plots. Unlike waiting for years between Dan Brown books, Brokaw gave us one every year, the fourth in 2012. He has disappeared from the internet and I can't find anything about him. Let's hope he runs out of royalty money and comes back soon.

Dem states tax guns, alcohol, tobacco and the books you buy. Makes you wonder what they're afraid of?

Property taxes fund public education. Another reason to get rid of property taxes?

How is Florida able to end property taxes when MN and CA raise them every year?

This is just ONE Trillion dollars, 100 dollar bills stacked on pallets...like the ones Obama used to ship money to Iran. Almost TWO of these are needed to pay the interest on the national debt.

We rely on politicians to fix this problem.
Here's an interesting fact about that situation.

In 1983, the US Capitol was bombed.

- THIS BOMBING WAS CARRIED OUT BY A LEFT-WING GROUP CALLED THE M19.
- THE M19 WAS RADICALIZED BY THE SOUTH LOS ANGELES VENCEREMOS BRIGADE.
- THE SOUTH LOS ANGELES VENCEREMOS BRIGADE WAS FOUNDED BY THE COMMUNIST DEMOCRAT LOS ANGELES MAYOR, KAREN BASS.

Now, factor in what CA Gov Newsom has done to that state and compare what Gov Ronald Reagan achieved for California.

Next, look back to Minnesota before the Democrats took control. We then got Gov Timmy and a fraud problem caused by room temperature IQ illegal aliens while the MN Democrats claimed ignorance.

Ask a Democrat what they have accomplished. The first word out of their mouth is "Trump". Then they ask you for money so they can fight Trump. Ask them what they will do with your donation, and Trump's name comes up again. If you bring up the cost of illegal immigration, they'll call you a racist or a bigot.

The Supreme Court (with the exception of Democrat appointed members) have blown a hole in the Democrat's gerrymandering and they have lost seats from new districts drawn in states by population rather than race. Ironically, they call that racist too. The weirdest argument is that they don't know what a woman is but women won't be able to get an ID to vote and they claim it's even worse if that woman is not white. So...they call non-white people dumb but expect them to always vote for them?

Angie Craig will not seek the DFL endorsement in her race for a U.S. Senate seat. Craig heads straight to the August primary election. Peggy Flanagan (Craig's DFL opponent), said, "if you can't show up and face your own party, then you're not ready to face Republicans." *Get the popcorn!*
