

## Recipe Corner

### *Crispy Baked Walleye*

Last week's batter recipe would work but here's a gooder one:

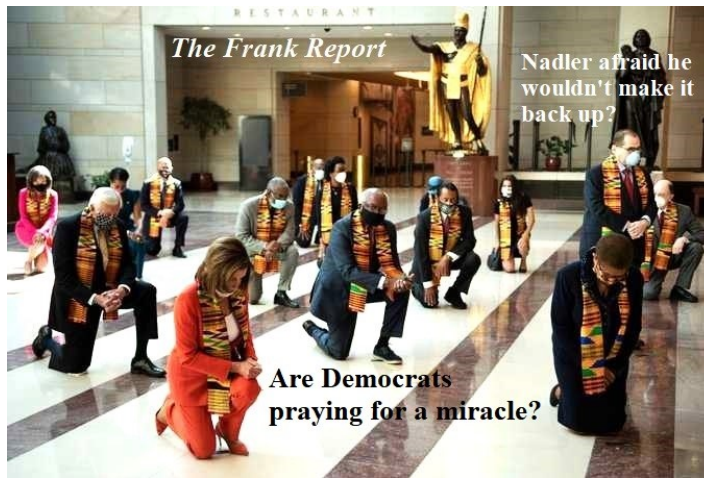

#### **Ingredients**

- 2 eggs
- 1 tablespoon water (I use some buttermilk)
- 1/3 cup dry bread crumbs
- 1/3 cup grated Parmesan cheese
- 1 teaspoon seasoned salt
- 4 (4 ounce) fillets walleye

#### **Directions**

Preheat an oven to 450F  
 Beat the eggs and water together in a bowl until smooth; set aside.  
 Combine the bread crumbs and Parmesan cheese in a separate bowl with the seasoned salt until evenly mixed. Dip the walleye fillets into the beaten egg, then press into the bread crumb mixture. Place onto the prepared baking sheet. Bake in the preheated oven until the fish is opaque in the center and flakes easily with a fork, 15 to 20 minutes.

*This is the reward for having taught son Chris to not only fish, but to know how to filet the fish.*

*All the news I see fit to print.*

***Freedom of the press belongs to those who own one.***

Democrats have discovered their mistake...allowing Biden to emerge from the basement. While he was still down there, they managed to accumulate more votes than there were registered voters. Proclaiming him pResident, Obama's staff remained in the power loop and Biden became their tool to run Obama's third term as they continued the "transformation" of the United States and the overhaul of the Constitution. But then...they realized that even a pResident must be visible when running for re-election. ***Whoops!***

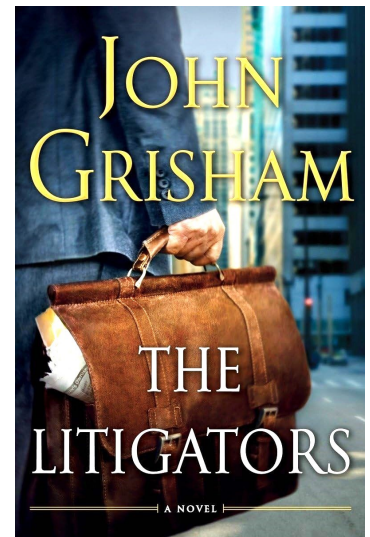

The elites in the Democrat party have had a lifetime commitment to never admitting a mistake and have gaslighted Biden's dementia while the newbies to the D party realize Biden might be a risk to their new power position. The result is a fracturing that has begin to split into two camps. The useful idiots of the D party are turning on each other in this confusion with gays hating trans, BLM hating Antifa and D city mayors backing off from support of illegals streaming into their cities and demanding that free tax money.

Even the largest group of useful idiots, the Lame Stream Media, has fractured to the stage where facts are slipping through the propaganda.

Now you know why Trump seems less strident this time around. He obviously subscribes to the doctrine "Never interfere with an enemy that's in the process of destroying himself."

Now is a very dangerous time...the Democrats are desperate to maintain power. Lawfare is crumbling. The public is laughing at their bird flu and monkeypox warnings. The Republicans are gearing up to thwart election fraud efforts.

One of those useful idiots groups may be developing an incident so horrific that the Democrats can declare Marshal Law...cancel the election...keep control of the White House and continue the "transformation".

## Book Report

Grisham is a lawyer who weaves his plots around a strange phenomenon...an honest lawyer surrounded by bad lawyers. Most of his almost 50 books share this basic theme. A few years in politics as a state rep was just as frustrating for him as his legal career. His second book, ***The Firm***, hit it big and he was on his way to fame and fortune. An avowed Democrat with TDS, he hasn't let those two idiosyncrasies diminish his masterful control of the plot in every one of his books.

FYI: an interview of Grisham a few years ago focused on his TDS (Trump Derangement Syndrome) and I walked away from his book offerings. Dr. M recently sent me a selection of Grisham books thus the second shot. Let's hope he keeps his political views out of his books. So far, he's been successful. His readers want entertainment. Political views are best left to politicians.

Denigrating lawyers? Now that's a safe position and with large audience approval.

Senator Amy Klobuchar (D/MN) is up for election this year. She got the job because of the Klobuchar name...her dad was a sports writer for the (red) Star Tribune. I'm sure that way left leaning newspaper in Minneapolis provided equal treatment of any Republican who ran against her.

The other MN Senator is Tina Smith. She told reporters on Capitol Hill Monday that she has "a lot of concerns" about President Joe Biden amid continued fallout from Biden's debate performance last month. Watch how fast she back tracks on those comments now that the D elites have decided they're stuck with Biden.

Then my congress critter, Rep Angie Craig (D): "Given what I saw and heard from the President during last week's debate in Atlanta, coupled with the lack of a forceful response from the President himself following that debate, I do not believe that the President can effectively campaign against Trump," she said.

**Ooops? Well, they needn't worry. They're MN politicians. We don't have any Republicans here.**
