

Recipe Corner Salsa Beef Stew

Some crock pot magic starting with chopped sweet onion on bottom and garlic bits. Then eye of round beef chunks (raw). Couple shots of Worcestershire sauce, salt and pepper. Add a couple of Bay leaves. On high for about two hours then baking potato chunks. I give the potatoes a light spray of oil to prevent turning brown. Another hour and add salsa then frozen vegies. It's ready when the potatoes are done. Freezes well.

Ronna has contacted me “exclusively” for my view on what those nasty, devious Democrats are trying to do...AND without my financial help, she won't be able to stop them. It's the second very expensive direct mail solicitation received from her this month. I'm sure it's working well with her fellow Trump-haters. It's written like a note passed in a High School class when the teacher isn't looking.

Still have my “VIP card” from the election...told them my local liquor store wouldn't accept it.

← Ronna Romney McDaniel and her Uncle Mitt Romney

Ronna is the current chairman of the Republican National Committee which controls all the money donated to the Republican Party. Attorneys for President Trump ordered the Republican National Committee and the other leading GOP organizations to stop using his name and image on fundraising emails and merchandise without his express permission. The RNC raised \$220 million to (allegedly) fight the 2020 election fraud...but that money was never used and nobody knows where that money went. The GOP establishment went out of their way to block any immediate election fraud investigation. Their conclusion? They can generate more money fighting Democrats to reelect President Trump. It's beginning to backfire big time as Trump supported GOP candidates get donations direct bypassing the RNC and Rino Ronna. Many of the candidates supported by Trump will be in primaries against the RINO's. Some, like Murkowski, will see the writing on the wall too late and will not run for reelection. Either these idiots have egos bigger than common sense or they are just stupid.

Deep State corruption has no party boundary.

Book Report

Stieg Larsson's Swedish best seller made into a movie...in Sweden...starring Noomi Rapace and Michael Nyqvist. Hollywood took notice and tried cashing in with a remake of the movie. Even casting Daniel Craig (**James Bond**) could not match the Swedish version (and sequels)...with English subtitles the Swedish sound track used instead of voice over dubbing. The three Swedish movies are: **The Girl with the Dragon Tattoo, The Girl Who Played with Fire, and The Girl Who Kicked the Hornets' Nest.**

Larson had planned on ten books in the series but died after three. **The Girl in the Spider's Web** is the fourth movie but doesn't come close to the brilliance of the first three. It could have been worse...Harvey Weinstein could have been involved.

Got Spam?

Never unsubscribe to spam...that just tells them your email address is active. They then sell your email address for about a dime...and when they're gathering thousands, it only takes a few days for them to gather some serious money at your expense.

I've been tracking some of them. If you scroll down to the bottom of each spam, you'll find the name and address of the company that is gathering and selling the spam addresses.

Here's the biggest thief:
Six Soldiers (6)
40 E Main Street #1204
Newark, DE 19711

That (6) is the number of spams I received traced back to them in just one day. There is one consolation...the poor fools who actually pay them to generate spam which has their product/company name in the body of the spam while the real culprit just smiles and takes the money...from multiple fools including the fool's competitors who buy the same list.

BTW: Delaware is famous for the ease and cheap establishment of corporate entities. That address: 100 corporations with 100 people listed....must be a really big building?

Best defense? My spam filter works well so I just delete all as part of my shut down procedures end of sessions. For more than you ever wanted to know about spam...here you go: knowyourmeme.com/memes/spam

VFW has a list of 1.165 million veterans. I'm now getting spam and direct mail aimed at veterans. Asked the VFW if they are selling their list. MN State level denies. National said yes but wouldn't say how much they get from the ten cents for each listing the list broker gets from **each time** the list is used. Hope the VFW has a good calculator.

An audit versus a recount

If you have a basket of 30 apples and do a recount...you still have 30 apples. However, if you do an audit...and find 10 of the apples are actually plastic...you only have 20 real apples in that basket.

See why the Democrats (*and RINOs*) want recounts and are deathly afraid of audits? Arizona is the first forensic audit and given the hysteria in the Lame Stream Media, the results so far jeopardize the eleven electoral votes given to Biden. With Georgia's 16 electoral votes being questioned as well as Pennsylvania's 20 electoral votes, it would appear the forensic audit of just these three states could result in a stalemate in what happens next. Biden would not have the 270 electoral votes needed.

Meanwhile, the Air Force and fleets of buses are scattering a million illegal immigrants into battleground states as a prelude to the 2022 congressional vote where the Democrats are expected to lose control. Dems are also fighting any voter ID law...wonder why?

Until next week...
