You may recall my answer to the mask mandate. It comes in white also. Look back on the memes and the news reports mid-pandemic to find beer drinkers had a solution that was just as effective:

Recipe For Success

Democrats have no message but they have technology edge over conservatives. ActBlue.com is their main fund raising tech. Conservatives like Hung Cao (check him out) are using WinRed.com as counter to ActBlue...and seems to be working. BUT, (you knew that was coming) the IT "help" for the Republicans are either using Tandy computers or some of the internet search engines are blocking R websites. Most website developers I've used forget to check back once the websites go live. Brave is best alternative to Bing or Google.

Biden's Military Readiness

7.22.2023.2023 #392

All the news I see fit to print.

Freedom of the press belongs to those who own one.

The \$886 billion defense spending bill that the GOP-led House is poised to vote on in the coming days is \$26 billion more than the previous year, as the national debt climbs to \$33 trillion. The administration's request also included an additional \$44 billion for "defense-related programs" at federal agencies such as the Energy Department and Federal Bureau of Investigation.

So what are they going to do with this funding?

Biden's pick for the Chairman of the Joint Chiefs of Staff is worried about the sexuality of soldiers, not winning wars. Military readiness is collapsing. Recruitment is collapsing. Moral is collapsing. The Chinese Communist Party is gearing up for war. Our southern border is wide open - we are under invasion. Our pResident admits we have no ammunition. The U.S. military enabled COVID bioweapon use on its own troops. Those members who refused are still being persecuted. Diversity hiring is rampant. DEI is the goal - not close air support. Military leaders are cheering, enabling a useless border conflict in Asia, expending our weapons and resources, while the People's Liberation Army prepares to move on Taiwan, which will destroy the American economy. Biden activates the IRR, for Europe, not our southern border, or Asia. Yet, the senior officer corps of the U.S. armed forces acts like nothing is wrong. Activating 3,000 reservists now gives Biden and the Pentagon a precedent to call up more and more troops. Like a frog boiling in a pot, Americans won't know they are in a war until it's too late. Biden said last year that we would not send troops or weapons, then we started sending weapons, then tanks, then cluster bombs, and now troops to the Ukrainian border. America's military suicide crisis: active-duty US soldiers kill themselves at a rate of more than one per day. Nearly 17 former US troops kill themselves each day. DOD recommends banning gun purchases by soldiers under age 25 and a seven-day waiting period on ammunition sales.

Book Report

From 2015; the third in the series by J.K. Rowling's (**Harry Potter** author) and she has jumped with both feet into the detective genre. Obviously she enjoyed every twist and turn of the plot. It was sheer coincidence that I used the broomstick military picture at the left reminiscent of Rowling's **Harry Potter** magic:

Now that I'm a Rowlings fan, I may have to read (or watch) some of the **Harry Potter** book and film offerings. Only reason I ignored them was Hollyweird's fascination with them. They love franchise like **Rambo** though he died in the book to underscore the author's message.

I asked myself if I was crazy and we all said no.

Does a sarcastic comment qualify as advice?

Whatever life throws at you; duck and let it hit someone else.

When you're done holding a cat, you can just drop it on the floor. That doesn't work with babies.

People keep confusing my "wows" for compliments.

I may be going to Hell on a full scholarship.

Don't be mad at lazy people. They didn't do anything.

If you can't say something nice...make it clever and devastating.

Politicians can be bought. So can scientists. They just cost more.

If you trust the government, you should sue your history teacher.

Have you noticed that the IRS targets people who can't afford lawyers?

If voting made a difference why would they let us?

If a man wants to pretend he's a woman, that's up to him. If he wants us to pretend he's a woman that's up to us.

Exposing illegal things the government is doing is illegal...wait...what?

If we gave more people IQ tests, there would be an alarming rise in the number of idiots.

Now for the latest headlines you didn't see...

More than five million barrels of American oil obtained from the Strategic Petroleum Reserve (SPR) were exported to Europe and Asia in May 2022. One million barrels were sold to Unipech, a state-owned Chinese gas company in which Hunter Biden's private equity firm held a \$1.7 billion stake. A White House fact sheet revealed that 180 million barrels were emptied from the SPR, which means that Biden's policy drained the U.S. emergency oil stockpile to the lowest level it had been in nearly 40 years and will take decades to fill.

Donald Trump planned to fill the Strategic Petroleum Reserve to take advantage of record-low oil prices.

The price of oil was **minus** \$37.63/b. Democrats **blocked** the Department of Energy's plan to buy up to \$3 billion of domestic oil to fill the stockpile as part of Trump's post pandemic economic stimulus package.

Democrats (and RINOs) have intensified their push for gun control. Meanwhile, Americans use their firearms in self-defense between 500,000 and 3 million times annually, as the Centers for Disease Control and Prevention has acknowledged. In 2021, the most comprehensive study ever conducted on the issue concluded that roughly 1.6 million defensive gun uses occur in the United States every year.

Since January 2022, those "died suddenly" cases worldwide that are reluctantly reported in corporate media in a particular week...there have been 1,884 athlete cardiac arrests with 1,310 of who died.

More than two decades after Islamic terrorists exploited the U.S. government's inefficient system for tracking foreigners who overstay visas, (**the 9/11 attack**), the problem is worse with 853,955 visa overstays in fiscal year 2022.

NOT A Book Review

Supreme Court Justice Sonia Sotomayor collected more than \$1.9 million for her memoir, **My Beloved World**. Justice Sotomayor didn't recuse herself from multiple cases involving a book publisher that paid her more than \$3 million since 2010. Sotomayor's staff also pushed public institutions that have hosted the justice to buy her books that have earned her at least \$3.7 million since she joined the court in 2009. The late Supreme Court Justice Ruth Bader Ginsburg accepted a \$1 million prize from a liberal billionaire's foundation. The bounty far exceeded the \$2,000 limit placed on honoraria by Judicial Conference regulations.

Old "white privilege" woman smarter than the "wise latina"? Ruth didn't have to work for the money...Sonia did.
