

Recipe Corner

Marijuana Crunchies

Now that it is legal in MN, as a public service, we offer the following leaf batter recipe :

- 1 cup flour
- 2 teaspoons salt
- 1 teaspoon garlic salt
- 1 teaspoon lemon pepper
- 1 teaspoon baking powder
- 1 cup beer
- 1 or 2 eggs, as desired

Directions

Combine eggs and beer, then mix in dry ingredients. Stir. Batter is too thick if it sticks to a finger without dripping slightly, too thin if it runs off altogether. Adjust by adding more beer or more flour.

- Prepare leaves by drying on paper towels so the batter sticks to them.
- Using oil of your choice, deep fry until golden brown (either in a deep fryer or deep skillet).

If you actually use this recipe, let me know what happens after your smoke alarm goes off and you have taken a deep breath.

Meanwhile...

The U.S. Department of Health and Human Services pay Moderna \$176 million for a bird flu vaccine containing the same mRNA as it's COVID-19 vaccine.

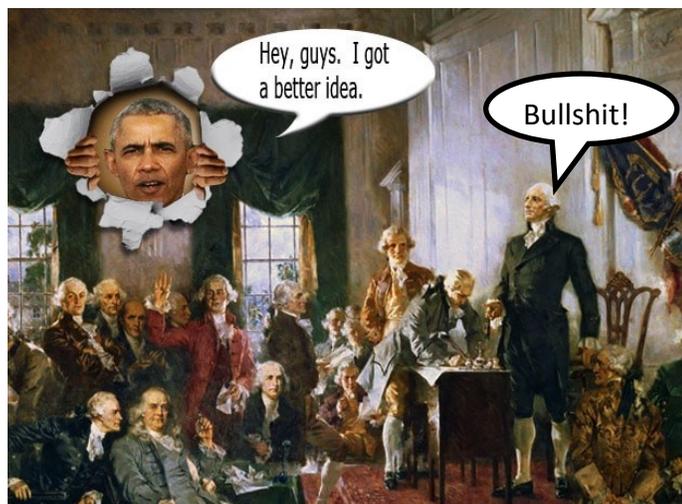

7.6.2024 #442

All the news I see fit to print.

Freedom of the press belongs to those who own one.

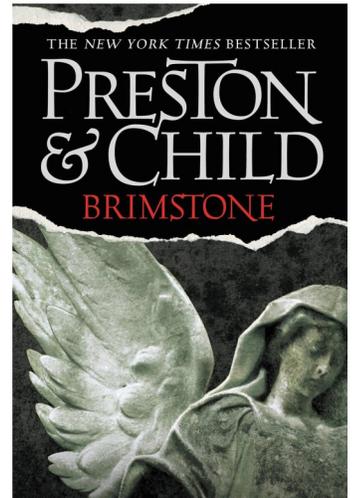

It would appear the ringmasters of the Democrat circus were having so much fun with their primary clown that they never noticed that their audience went missing. The circus barkers, aka the Lame Stream Media, haven't been able to convince the audience to come back for their next big show in November, 2024. The barkers lost their megaphone after an elephant sat on it.

The Federal Government is **broken down*** into fifteen departments, each of which consists of a number of sub-departments and organizational groups tasked with accomplishing the Department's overall goals.

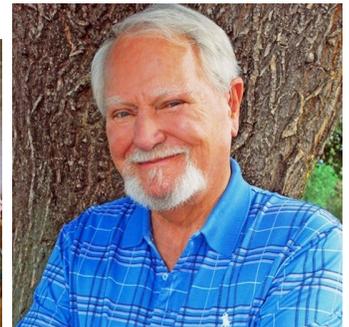

***Ironic choice of words!**

The Democrat's better idea was to create rules from these departments and hijack congressional law making powers. The most egregious result was a government of unelected people like Anthony Fauci controlling our freedom. Known as the Chevron deference, the Supreme Court abolished it last month and prevented department bureaucrats from creating rules with the Judicial branch unable to adjudicate them. Our congress critters are now, after 40 years of this bullshit, forced to pass laws rather than just meekly accept the rules.

Book Report

First book in the trilogy by Preston&Child followed by *Dance of Death* and *The Book of the Dead* from 2004-06. *Agent Pendergast* is the main character with his brother *Diogenes* the main and ingenious villain.

We lost Clive Cussler a few years ago but he left a legacy of dozens of adventure novels as well as a stable of co-authors who have now gone on to their own careers.

One is Jack Du Brul who co-authored seven of the Oregon novels with Cussler.

I just finished his 2015 *The Lightning Stones*.

There are seven previous offerings in this Philip Mercer series. I found him through a recommendation during a Lee Child (*Reacher* author) interview.

the newest Bugatti Turbillon for
\$4,832,325.00 of your taxes?**

**Tip: you don't really need
anything from Amazon today.
(You're welcome.)**

*Here's an example of President Donald Trump,
during a negotiation with the Taliban leaders,
defining his foreign policy prowess. The incident
occurred during discussions about a potential
American withdrawal from Afghanistan:*

Rep. (R/TX) Wesley Hunt's recounting of a memorable power move as American troops gradually pulled back as long as the Taliban adhered to specific rules. "It's President Trump talking to Taliban leadership in the room, and they had one translator in the room."

During these negotiations, President Trump looked directly at the Taliban leader and warned him, "If you harm a hair on a single American, I'm gonna kill you." He then reached into his pocket, pulled out a satellite image of the Taliban leader's home, handed it to him, and left the room without another word. "For 18 months, not a single American was killed in Afghanistan," Hunt said. "That is the definition of strength."

Then there's this: Biden spent a week at Camp David prepping for the debate. President Donald Trump, wasn't just campaigning in the days leading up to the debate. Ten minutes before it started, he called the parents of a child murdered by illegal aliens in order to give them comfort.

Meanwhile...

The gaslights at the White House have run out of gas and resumes are being updated as Democrat leaders are bumping into each other trying to find the narrative that will relight them. The 2020 election "conspiracy theory" will finally receive the scrutiny next year that congress has ignored. The 2024 election results will be very interesting.

Tidbits

*(a small and particularly interesting
item of gossip or information)*

The debate left viewers wondering as the microphones picked up a 'suspicious noise'. Social media speculates that Biden farted.

The first Montana judge to identify as homosexual, is striking down a state law defining "sex" as either male or female, claiming the law violates the State Constitution.

The U.S. Supreme Court issued a ruling that ordinances prohibiting homeless people from sleeping on public property are constitutional.

LA City Council banned traffic signs that read **No U Turn** as homophobic.

Wait till they see

Wrong Way Do Not Enter.

Donald Trump's ex-lawyer, Michael Cohen declared he's running for Congress. Cohen is a certified thief, liar, convicted perjurer and backstabber, so he may be overqualified to serve in Congress?

Hamas no longer throws gay people off tall buildings now that there are no longer any tall buildings in Gaza.

Donald Trump's trial Judge Juan Merchan altered his gag order two days before the debate...to gag and muffle Trump in the debate until he and Biden sound equally intelligible?

Boeing just hired to take over the Biden campaign?

Until next week...
