Democrats insist that Trump is racist...

...Trump is so racist that he won an Ellis Island Award for "patriotism, tolerance, brotherhood and diversity" along with Muhammad Ali and Rosa Parks. (oops!)

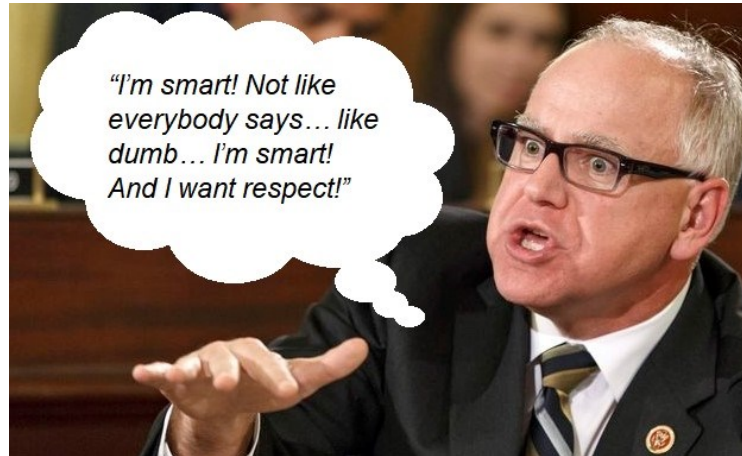

I've had my eyes on Gov Timmy and have offered comments via this newsletter during the fake pandemic and riots. I invite you to revisit previous newsletters on my website using dates of the various embarrassments Timmy provided as his version of leadership at www.franksiegler.com

All the news I see fit to print.
Freedom of the press belongs to those who own one.

Trump's reaction to Heels Up Harris picking MN Gov Timmy as her running mate was just two words... "Thank You!"

My advice...stop being so sure of a Trump victory.

While the Republicans are prematurely counting electoral votes, the Democrats are busy filling out mail-in ballots with Haris/Walz names and registering illegal aliens to mail them in key states.

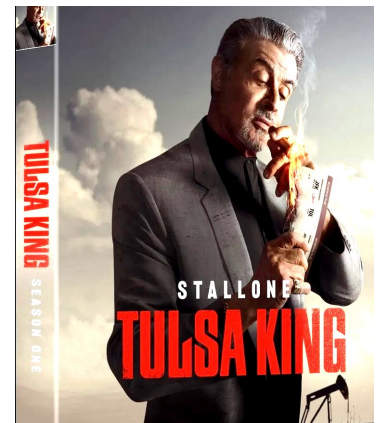

The Lame Stream Media is backing the Democrats as they receive the money illegally generated by the ActBlue organization.

The Federal Election Commission ignores the fact that registered voters are donating an illogical amount of money to the Democrats reported by various watchdogs like James O'Keefe.

Speaking of fund raising, I am getting several daily requests for donations from the Trump campaign...with the most juvenile examples I have ever seen in my 50+ years marketing experience.

I would strongly suggest that Trump dust off his book *Art of the Deal* and get back to basics: *get out the vote and make sure it's protected from fraud*. He won't be able to fix it unless he does it NOW rather than think he can fix it after it causes him to lose another election the Democrats are already rigging in their favor.

Immediate application of tar and feathers as well as mandatory federal prison sentence for election fraud would be a great starting point. We'll hold on the firing squad suggestion for now.

Book Report

I haven't been able to find any author tied to this TV show. Paramount used at least half dozen script writers. The key element that makes it great, surprisingly, is Stallone. He's been underrated for years but shines in season one with plot twist at end to perfectly set up season two scheduled for release on September 15th. He's still Sly at age 78.

Paramount seems to have the few binge worthy programs. I found the common denominator: Taylor Sheridan. Prior to creating *Yellowstone*, he was (and still is) an actor. *Mayor of Kingstown* and *Lawmen: Bass Reeves* are other notable hits.

Sheridan just signed a five year deal with Paramount so maybe there's hope for the boob tube after all.

PIC-COLLAGES

Makes you wonder what Biden is building.

Yesterday marks the 50th anniversary of one of the darkest days in American politics — the day when the FBI and the rest of the deep state overthrew the duly elected government of President Nixon by forcing him to resign in a scandal designed by the FBI and promoted by the Washington Post. The cover up was worse than the crime, because there really was no crime. Thus in less than two years, the deep state overturned the biggest Electoral College victory in 152 years...520-17 win. The Democrats are trying their worst to prevent Trump's new election record.

Rep. Jamie Raskin (D-MD) speculates that Congress will have to invalidate an election victory by Trump — at the risk of "civil war." *Bring it on Jamie but check the data in this chart:*

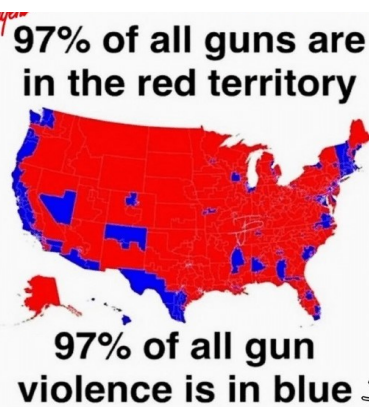

There are currently about six million guns registered.

There are almost 400 million in circulation.

The Democrats are trying to find them all by passing laws.

Good luck!

From September 2018 to May 24 of this year, Chicago has led the nation's cities - with 811 people killed and injured in mass shootings. At least that's what the Lame Stream Media reports. They're using the word "mass"...maybe they'll start blaming Catholics?
