

Recipe Corner

This is a combination of ingredients to ensure freedom. Both are required for the recipe to be successful. Politicians are trying to confiscate guns. Is that because they are planning on doing something that would get them shot?

The Boys have been teaching me how to fold laundry. I don't remember it being this complicated.

I'm assuming the next step by the CDC is to declare a lockdown that will also give tenants squatter's rights and tax paid legal help in getting the deed transferred to them. We're soon to find that there are more people who vote and don't work versus those that work but whose vote is ignored or stolen.

Just saying...

8.14.2021 #291

*All the news I see fit to print.
Freedom of the press belongs to those who own one.*

The franking privilege, enacted in 1775, allows members of Congress to mail their letters without postage. In lieu of a stamp, members instead use a stamp consisting of their signatures. Congress, at a later time, and through the legislative branch, then reimburses the U.S. Postal Service for their franked mail.

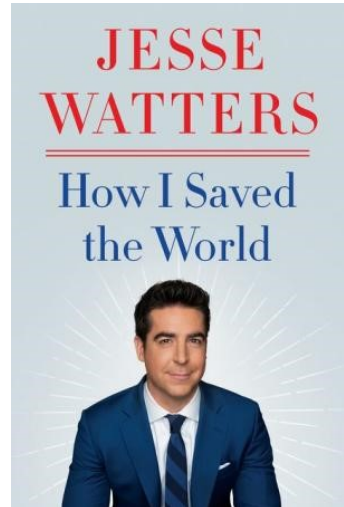

I haven't EVER heard from the congress critter whose picture is at top of this column...let alone voted for her. How about this addition to the legislation...make it a LAW that they have to send at least quarterly reports to their constituents...AND (*here's the kicker*) their closest vote opponent in their last election is allowed equal space to be included in the quarterly report.

Postal service gets more income from the substantial office budgets of the congress critters (*millions for each of the 535 members*) and the dialogue that results keeps everybody informed of both sides of the story. This would be justified e.g. the state of the union where the opposition party is given equal time by law.

Maybe we'll find out why that congress critter (from MN) has been so quiet. **"Light travels faster than sound. This is why some people appear bright until they speak."**

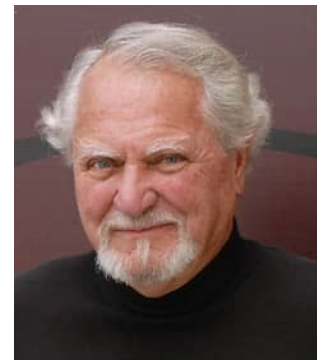

Bon Mots

**Now that I'm older
I'm still doing
dumb stuff.
Only slower.**

Book Report

Absolutely hilarious. Fascinating inside baseball stuff about the media and Fox corp. Excellent use of satire and sarcasm. Think George Carlin without the profanity. Hit the top of the book lists in the first week. Do not miss!

I'm at the tail end of the dozen books by Clive Cussler in the *Isaac Bell* series. The attention to detail and amazing facts about the early 20th Century is worth the read. You also get tight plots and unforgettable characters.

-more-

U.S. Department of Health and Human Services
Centers for Disease Control and Prevention

The CDC has added amendments to **their new law (!)** that prevents landlords from collecting rent. Landlords must now stand on one foot, pat their head and rub their belly before they can cash their Social Security check. The CDC rationale is that landlords using rental property as part of their retirement plan must demonstrate the dexterity to unclog toilets for their renters...who do not have to pay their rent.

Meanwhile, Dr. Anthony Fauci's name on four U.S patents for a key glycoprotein shows him as co-owner of the ingredient that seems to have been inserted into the SARS virus to create COVID-19. This same glycoprotein, identified as Glycoprotein 120, or simply as GP120, has also been found to be a key component of the current COVID-19, a disease that appears to combine a HIV-1 attack on the human immune system, with SARS CoV-1, the pathogen from the original SARS.

The 'vaccine' for Covid-19, which has not even been tested on animals and is still experimental, is under an emergency use authorization only. Under Federal law, Title 21 USC 360bbb, of the Federal Food, Drug and Cosmetic Act, no employer nor university can mandate COVID 19 vax, masks, testing or any products affiliated with COVID 19 because this is an EUA (Emergency Use Authorization) that has no license or power and cannot be mandated. It is forbidden under fed law.

The head of Pfizer has not taken his own vaccine. The CDC won't require its employees to be vaccinated. The political elites get saline solution to make us think that they are getting the real thing. Maybe it's because the FDA reported 36 major side effects. Or maybe because the CDC's reporting system (VAERS) contains more than 3,000 reports of deaths following Moderna vaccinations.

Covid vaccine maker Moderna received 300,000 reports of side effects after vaccinations over a three-month period following the launch of its shot. Moderna's stock has nearly quadrupled this year as sales of the Covid vaccine have soared. The company reported \$4.4 billion in sales and \$2.8 billion in profits for the second quarter. That's our money while the Democrats are robbing Peter to pay Paul...the Paul's love it...and the Democrats are importing more illegal Paul's.

Just when we thought we had seen the light at the end of the pandemic tunnel...the Democrats are building more tunnels...with our money.

Mal Mots

Borrow money from pessimists. They don't expect it back. You're welcome.

Here's a special "salute" for the politicians for fighting a war in Afghanistan the way they did in Vietnam. Afghanistan cost \$2.2Trillion with 2500 service members lost as well as the 3900 US contractors. They spent less in Vietnam (about \$168 Billion) but lost 58,000 service members. The missing element in both was "mission". The only reason for any "war" is to defend our country. That means killing people and destroying things until the threat is gone. The politicians said they want to win the hearts and minds of the adversary. Nope...they only wanted to win votes. That didn't work so they stole them?

(Good Lord I was young!)

Until next week...
