

Bobby is going to replace this creature. She/he/it (say that fast) has totally ignored the HHS mission: advances in the sciences underlying medicine, public health, and social services. Just in time too as she/he/it is now pushing monkeypox as the next pandemic just in time for the election.

Looks like Jerry Nadler is getting ready for it. Somebody tell him it's on the wrong end.

BTW: the Democrats cancelled their primary for Jerry and the Republicans are running the same guy who lost to Nadler in 2022...again.

He'll probably claim "overwhelming" support from the voters.

The Frank Report

He's going to FIX the corrupt health agencies under a Trump administration.

"These agencies—the FDA, USDA, and CDC—all of them, are controlled by giant for-profit corporations. With President Trump's backing, I'm going to change that."

**All the news I see fit to print.
Freedom of the press belongs to those who own one.**

President Donald Trump took the stage at a rally in Glendale, Arizona, and introduced none other than Robert F. Kennedy Jr. to a roaring crowd of thousands. Robert F. Kennedy Jr. officially endorsed former President Donald Trump for the 2024 presidential election. Two titans of American politics from vastly different backgrounds, stood shoulder to shoulder in what can only be described as a monumental alliance. The alliance is more than just a political partnership; it is a testament to what can be achieved when leaders put aside partisan differences to focus on the well-being of the nation. President Donald Trump also pledged to create a commission on presidential assassination attempts in tribute to Robert F. Kennedy Jr., who joined him on stage at the rally as the Republican presidential candidate's special guest.

Both Kennedy's father and uncle were assassinated. Kennedy's father, Robert F. Kennedy, was shot on June 5, 1968, after winning the Democrat primary in California and died the next day. Kennedy's uncle, former President John F. Kennedy, was assassinated on November 22, 1963. Robert F. Kennedy Jr. has been very vocal in his belief that the CIA was involved in the killing of his uncle. **"I never would have agreed to the formulation of the Central Intelligence Agency back in '47, if I had known it would become the American Gestapo."**

Meanwhile, the Biden/Harris regime forced millions of women to get the Covid experimental shot as condition of their employment. Harris has maintained that rule for her staff even today. But Harris says women should make decisions about their own health care and their bodies, not the government. Lame Stream Media is presenting Harris as a fresh face in spite of being "in charge" (as she claimed) for almost four years.

Book Report

Lucky this western isn't a book because I'd give up after a few pages as the plot jumps around and introduces more characters than a phone book. It's easy to forgive the plot puzzle because of the cinematography. It's reminiscent of *Dancing With Wolves* but even gooder.

Costner has four of these planned with the first running just over three hours. The next will run a bit less. Total budget is \$100 million which explains the cinematography. Costner has \$38 million of his money invested after he walked away from Disney when they tried to cut the budget. Costner is the director, co-author and primary producer. The second film has been delayed after first drew just \$11 million in theaters.

New author tip from Dr. M. Palmer is to medical thriller as Grisham is to legal. Debut was 1982 *The Sisterhood* and I'm half way through but good enough to order three more.
